

Texas Weekly Index

(House interim maps – H309)

Democrats are in italics. The TWI is the difference between the results for the average statewide Republican and the average statewide Democrat in the last two election cycles. If it's red (or negative), the average margin was in favor of the Republicans; if it's blue, the Democrats. For example, on average, a Republican running statewide in 2008 and 2010 in HD-86 beat a Democratic opponent by 63.1 percentage points. The state average is 17.1 points in favor of Republicans.
