On 2-9-2016 at approximately 1420 hours, I responded to the area of Walton Hall in reference to the report of racial slurs being said to a large group of Uplift Hampton Preparatory (UHP) students and staff. I met with the reporting party at Hullabaloo Hall. I identified the reporting party as [redacted] by her [redacted] DL [redacted]. [redacted] is a teacher at Uplift Hampton Preparatory School located in Dallas, Texas. She was one of several teachers who were with a large (approximately 60-70) group of UHP students (approximately 15-17 years of age) who were taking a tour of Texas A&M University. [redacted] reported the UHP group walking across the South side of Walton Hall toward Hullabaloo Hall. She advised that the group slowed down near the picnic tables at Walton Hall. She advised that she believed that her students were conversing with several individuals at the picnic tables. She advised that she heard someone yell a racial slur. [redacted] advised that she heard a female voice say "nigger". She also said she heard someone say the phrase "Go back to where you came from". [redacted] also advised that she heard "Go to bonfire". [redacted] was unable to describe to me who had said any of the comments. [redacted] believed that the individuals involved were still in or around the picnic table area. The students of UHP began to continue on their walking tour of Texas A&M University Campus. Officer Saffold remained with [redacted] while I walked toward the picnic tables of Walton Hall to observe any interaction between TAMU students and UHP students. No interaction was observed at that time.

I did contact the small (approximately 13) group of individuals at the picnic tables. The group advised that they did talk to the UHP students and provided them with directions. They advised that they hadn't said any Walton Hall "chants". I identified the only female in the group as [redacted] by her name and DOB ([redacted] DL # [redacted]). [redacted] advised that there was music being played and multiple other conversations going on within both groups as she talked to some of the UHP students. She advised that she did not use a racial slur in any way. She said she did not hear any racial slurs being used by people in or near her group. No further information to report at this time.

On 2-10-2016 at approximately 1040 hours, I contacted [redacted] again to inquire if the rest of the tour was without incident. I was unable to talk to her and left a message with her at that time.

On 02/11/16, at approximately 1900 hrs., Dispatch advised me that a woman was on the phone asking questions about a racial slur incident that had been reported on campus. I made contact with the woman on the phone who identified herself as a TAMU student. had questions about why she had to go see the Dean of her Department tomorrow (02/12/16) about the racial incident. I advised her that she needed to contact the Dean's office to find out why and she stated she had been given a letter telling her to be there at hours. She then started asking questions related to the incident. She asked if there was any mention of a female speaking with 2 of the groups female members over by SBISA. She specifically wanted to know if any mention of a person was told to the Police. I advised her that I did not see any mention of that in the initial report to us and that I did not know. She stated that she was and that she did speak to two (2) female high school students but that it was over by SBISA sidewalk and not over by PA 32 and Walton Hall.

was upset that we (UPD) was instructing her to go to the Deans office and that we had not even made any contact with her regarding this issue. I advised her that we (UPD) did not send her a letter advising her to contact her Dean and as far as I knew she was not a suspect in this case. I asked if she made any comments and she stated No, but that she did speak to the two female students for a few minutes. She stated that she and asked if she or they would be (She told me that the other students had told her they had t). stated that one of the girls told her that yes, many people and at that point the other student told her she was stupid that it was stated that the girl said for her not to call her stupid and stated that she told her that she did not think she was stupid and then they parted ways.

While speaking to me stated that she never said the "N" word or said anything else demeaning toward the other girls. I asked why she thought she would be called into the Dean's office or linked to this incident. She stated that her Residence Graduate Hall Director came to her around midnight last night because she asking her questions about the incident. She advised me that she told her that she spoke to the two girls but did not say anything to them that was racially motivated.

I again advised that the school was also investigating the incident as well as our Detectives. I told her that the Dean has the authority to call her in to ask questions on things but that at this time I did not know of her being a suspect in this incident. I offered to her that I could have a Detective contact her in the morning if she wanted to speak to one of them about the incident and her involvement. She stated that she would like that very much. She advised that she had class until and asked that we call her at between 0900 and 1020hrs. She stated her appointment with her Dean was at hours and she would like to know what was going on before then.

I then ended the call with her.

At approximately 2255 hrs. Dispatch again called me and advised that _____ was on the phone again and very upset. I made contact with _____ and she immediately started speaking loudly and in an excited voice that Fox News was broadcasting her interaction with the two women on their television show. She went on to state that she was being slandered and wanted me to do something about it. I asked her if she heard her name being used on the TV and she stated no, not her name but they were saying that she _____ and described her. I advised her that if they didn't broadcast her name then they did not slander her and that they were probably just relaying what was told to them by some other party. She claimed that the facts were distorted and not what really happened. I advised her she may want to contact Student Counsel for advice on both issues but that at this time I could not do anything about the media broadcasting the story. She told me that she needed to talk to her mom on the other phone but that she knew she was going to try and make her _____ and she did not want to give them up. I advised her that was a personal issue between them.

I asked her again before hanging up if she wanted a Detective to contact her in the morning and she stated Yes she did.

We met with _____ who is _____ of the school. We introduced ourselves. I asked him if we could speak to the teachers that were there and in separate rooms. He said that he could accommodate that.

Detective Vykukal and Officer Walker went to one room and Officer Hickman and I went to a room in the front office.

We spoke to _____ first. I asked her if she can tell me what had happened from the beginning of the day.

She advised that they arrived at Rudder Tower at approximately 1400-1415 hrs. She advised that they met a young man from the visitor center. She said that he informed them that they were low staffed and gave them a map and helped point them in the right direction to Hullabaloo. He told them that someone will meet them at Hullabaloo and will escort them back to Rudder.

She said that they began walking. She advised that there is always something going on with the students with the banners and everything. She said that the students were getting excited about all of it. She said that they walked to the street with the big fountain (Sbisa) across on the other side. (Houston Street) She advised that there was an African American gentleman out there rapping and dancing. She said that they walked over there and asked what he was doing. He advised them that he was a professor and that he teaches psychology. They then began to catch up to the group. She said that two students who were at the back were talking to a white female. She said that when they began to walk away one of the high school student made the comment that was strange. She said why? The student told her that the A&M student asked and pointed toward the student's patch, which shows the Hampton patch, where you're from how do you think they would take _____. Don't you like _____?

She stated that there was a conversation going back and forth, but could not tell what was being said. She asked another teacher what was going on. She said that a student made the comment, I said it. A teacher told her that the students were taunting the students saying, go back to where you belong, make sure you check out the bonfire and take a look at our _____ and then they started using the "N" word. her and asked for the phone number to the police department which she gave them.

She advised that two police officers arrived. She said that she asked another African American student that was at Hullabaloo about if they have had race issues on campus. He asked what do you mean. She told him the story and he said you are talking about the bone heads at Walton Hall. We always have problems with them. They don't mean any harm.

I then showed her a map and asked her to point out where they had walked which she did. She said that when they left they cut across the parking lot through PA 32 to avoid them.

I asked her to explain again where she was in line with the group.

She advised that she was at the back of the line to keep the kids together. She said that one of the kids said I'm a minority. She stated that one of the teachers came back to tell them what had happened. She said that some of the guys at the tables were still talking but she could not tell what they were saying.

I asked her that when she caught up with the group was everything over with what had been said and she said yes. She said that she did not here any of the comments that were said.

I asked her what directions the young lady went. She said that the girl went back toward Rudder Tower and not their directions.

She advised that one gentleman that was sitting on the hill which was white, wearing a and and would stand and say something and then the group would say something. We have been unable to identify that person at this time.

The student was not involved in the incident at Walton Hall.

She advised that the students were on the left and Walton Hall was on the right. I asked about the amount of students that were in the group? She estimated about 7 to 10 with a female.

multiple times. She said that it was not unified but that it was multiple voices. She said that the first person she saw when she turned around was a female.

She said that one of her students came up to her and stated that she did hear the students say go back to where you came from, but that it might be in reference to one of the kids wearing a UT backpack.

I asked her if any of the students heard the word. She said that she was not sure but that they had a meeting with all the students when they got back. said that they were not pulling any of the students to the side to ask them if they had heard it. She said that she did not know if any of them heard it.

I asked her what the girl was wearing that had said the word. She said that it might be a black shirt and

I asked if the word was being used in a chant or if it was random. stated that it was random. I asked her if there was laughter during the chanting or anything else going on. She said that she did not remember anything else.

I spoke to after the interview. I asked him if we could speak to the kids that were around. He said that he only had one with permission and that none of the others had permissions at this time to speak to us.

He was asked if anyone said anything about bonfire toward the group and he said no. He said someone might have been talking about bonfire but it was to the group at the tables and no one else. I asked who said it and he advised that he did not know.

I asked him who was out there. He gave me names of _____ and _____
He was able to produce some phone numbers for them. _____
_____ said that he was sitting at the fourth table on the far right.

He was asked about the incident with the backpack. He said that _____ made reference about the back pack, but that it was not directed toward the kids. I asked him why the group would go through all the trouble to call the police if you're saying nothing was said to them. _____ became upset and said that he did not say anything was not said, but that they did not say anything and that he did not hear what was said. _____ began pointing the finger at different areas that people might have been standing when it was said. I told him that we went and talked to the group in Dallas. I told him that they pointed at one group only and that there were no other groups. He said people were saying bonfire but that they were not directed toward the students. I asked him who were the people and he said that he did not know but it was people behind him and by the grill. I asked him if he wanted to say anything more before he walked out. He said no. I told him that he was hesitant on some of his questions and that he needed to get it off his chest.

He put his head down and said that there was someone that yelled bonfire, but he did not know who. I asked him how many people were there. He said that one table was full and that he was standing up smoking. I explained to him what the kids were saying about the bonfire comment. He said that it was said once or twice. I asked him if it was and he said no. He said that he thought it was but it was not him. He did not know who had said it. I told him not to hold back any information because the case will go to the County attorney's office and possibly to the President of the University. Did you have a chance to speak to Ms. She was the chaperone that was with the group that was in.

Please let me know what else I can do,

On Texas A&M campus the whole Junior class was walking towards the sample dorms, or the new dorms, but before we got there we were encountered by a group of Texas A&M students. Picture a whole Junior class saying howdy to everyone, laughing, talking, and having a good time. We come across smoke aromas and a group of college students sitting at a picnic table. If I can recall, it was maybe four males standing around and smoking and a single female sitting at the table. I was walking alongside one of my classmates and behind a classmate that was wearing a UT backpack. We were halfway passing the picnic table and I heard the comment, "go back to where you came from" by one of the Texas A&M students. It took me a moment to realize what had just been said. I replied, "You know we're black, right?" trying to give them the acknowledgement that they should change their word choice. After that, we continued to walk past and I looked to see if the chaperones heard what I said but they were talking amongst themselves and looked very concerned. I turned around and continued walking with the rest of the Junior class.

At approximately 5:00pm on Tuesday, February 9, 2016, [redacted] was contacted by [redacted] follow up with Resident [redacted] regarding an incident she was involved in earlier that day. CD [redacted] went to Resident [redacted] room in [redacted], but nobody was present. At approximately 6:00pm, CD [redacted] went back to Resident room to see if she was there. Resident [redacted] opened the door, and [redacted] introduced herself as the community director of [redacted]. After the introduction, Resident [redacted] stated "okay, I know why you're here and I'm really stressed out about this because that's not what happened at all" so [redacted] asked her to explain what happened earlier in the day outside of Walton Hall involving a tour group. Resident [redacted] explained that she was hanging out with some of the guys outside of Walton Hall when a tour group approached. Resident [redacted] explained that they all greeted the tour group with "howdy" and asked how their day was going but nothing else was exchanged between them and the tour group. Resident [redacted] explained that a little while after this, the police showed up and questioned her about making racial slurs towards the tour group since the report that the police received said that a female was the one making the comments and she was the only female present. Resident [redacted] said that the entire time she was near Walton Hall nobody said anything at all to or about the tour group.

At approximately 4pm on Wednesday, February 10, 2016 Director [redacted] received a text message and then phone call, immediately after, from Associate Director of Residence Education, Christine Thoorseil regarding an incident in which one of her residents, [redacted] was allegedly involved. After retrieving resident [redacted] class schedule from Thoorseil, GHD [redacted] went back to [redacted] to see if she could speak with resident [redacted] GHD [redacted] tried to make contact with resident [redacted] at 6:30, 7, 7:45, 9:15, and again at 9:45pm. Resident [redacted] was not in her room, nor had her roommate seen her. GHD [redacted] asked if the roommate felt comfortable and could let resident [redacted] know that GHD [redacted] was looking for her and the roommate agreed. GHD [redacted] then left the office at approximately 11:40pm to take over paperwork to the [redacted] Office when she saw resident [redacted] approaching GHD [redacted] approached resident [redacted] and asked her if they could go have a quick conversation. Once in the office, GHD [redacted] asked resident [redacted] if she had been near Walton Hall the day before, on February 9, and had noticed anything out of the ordinary. Resident [redacted] said she couldn't remember. GHD [redacted] asked her if she had interacted with anyone from a tour group or a high school group that had come to campus on that day. Resident [redacted] said she had been talking with three young women who she identified as being "Hispanic" and from a "charter school." Resident [redacted] told GHD [redacted] that she engaged in conversation with the young women about dress code, as they were in uniform, and asked if they thought they would be allowed to [redacted] like the [redacted]. Resident [redacted] said that at first the young women thought they were [redacted] said they did not think that the school would have a [redacted]

problem with them. Then one of the young women said "no, those are
." Resident said that the young
women still said that they would probably be okay in their dress code.
When asked further about any potential racial slurs or conversations
that came up that day resident said she could not remember
any. Throughout this conversation resident was very
preoccupied about why was asking about these incidents and
who reported that it was her. told / that she had
received report from individuals that she worked with about the
incident and that she had been identified by
. GHD also told her that this conversation was not
meant in any way to be accusatory, but rather information seeking in
order to figure out exactly what happened and how. After this
conversation, resident was still preoccupied with who had
said something and who had singled her out. GHD spoke with
resident about how different symbols, particularly in this
, could have different meanings for different
people and that although people might not outright say it, they may be
feeling uncomfortable because of the symbol. Resident told
GHD that "Muslims with their headscarves make me feel
uncomfortable" and continued to speak about women's rights and
oppression of women. "But are we going to ask them to stop wearing
them? No, because it's their religion. I still struggle seeing them on
campus." GHD told resident that she was not telling
her that she needed to
that resident was wearing, but to understand the
different meanings behind these that
might make someone feel uncomfortable and even unwelcome. Resident
told GHD that she felt "hurt and attacked" that GHD
had singled her out and that there were plenty of other people
on campus who and she did not see them
being singled out. At this point GHD told resident
that she understood and heard her feelings, that she did not want
resident to feel singled out and that she was trying to
figure out the facts of the day and nothing more. GHD told
resident about freedom of speech and that people can say and
wear whatever they please, but it is important to understand that
those things might still make people feel uncomfortable. GHD
told resident that she was happy to answer any questions or
concerns she might have and that she hoped that resident was
not leaving with the thought that this was in any way supposed to be a
personal attack on her. Resident told GHD that she
understood and she did not have any questions. GHD reminded
resident to have a conversation with her roommate to set up a

time to meet with their Resident Advisor in order to complete their roommate contract. Resident _____ told GHD _____ that she would and then told her about the tattoo she had just got. Resident _____ showed GHD _____ the tattoo and spoke with GHD _____ about how she was unsure whether or not she should tell her mother, who is very against tattoos, that she just got another one. GHD _____ asked resident _____ some questions about her mother and tried to help her through what to do. Resident _____ described to GHD _____ the new tattoo which _____ . Resident _____ then began discussing her pro-life, "anti-abortion" stance and GHD _____ responded by saying that she had some interesting points. Resident _____ then said, "I take it you're pro-abortion?" To which GHD _____ replied that she likes to take in all of the information on both sides and make up her mind about an issue, which is something that can be useful in many situations. GHD _____ said she feels that it is best when both sides of an argument can be heard and discussed. It does not mean that anyone needs to change their mind necessarily but everyone is heard. Resident _____ then spoke about how some people believe that violence is the way to get your voice heard and that she was not so sure about that. She said that people who made change like Dr. Martin Luther King Jr. could have used violence. "He could have killed a bunch of white people and claimed it was for all of the black people that had been lynched, but he didn't, he held marches and sit ins." Resident _____ told GHD _____ that she thinks that people can get their point across without violence and GHD _____ agreed with her and asked her if she thought that non-violent protests are more effective in some ways. Resident _____ agreed and brought up the point that, even so, when she becomes of legal age, she plans on getting a gun to protect her. Resident _____ then went on to talk about how she has learned to shoot guns and her family has guns and she likes to go to the shooting range but when she gets a gun it will just be to protect herself. GHD _____ then told resident _____ that she appreciated her coming to the office to speak and that she did not want to keep her too much longer as resident _____ had mentioned that she needed to get going to bed. Resident _____ got up to leave and told GHD _____ her final thoughts on telling her mother about her tattoo. GHD _____ wished her good luck with telling her mother about the tattoo and also on the two exams that resident _____ had coming up the next two days. At 12:16am Resident _____ left the _____ Office.

These students stated to CD [redacted] and GHD [redacted] that a tour group walked by the tables (between Walton Hall and Parking Lot 32) and asked where the 24-hour Desk/Hullabaloo desk is at. At this time, a tour guide had come in from behind and led them over to Hullabaloo Hall.

Resident [REDACTED] stated that one of the prospective students had a University of Texas-Austin backpack on. Resident [REDACTED] mentioned this backpack to Student [REDACTED] but did so after the tour group had passed by the tables and not within hearing range. According to Resident [REDACTED] Resident [REDACTED] Student [REDACTED] Student [REDACTED] and Student [REDACTED], nothing was yelled or said loudly that could have been misconstrued by the tour group.

Throughout the duration of everything happening, there was music playing but nothing that would have had derogatory words – according to the students that spoke to CD and GHD.

If you have any questions or would like us to do additional follow up please let us know.

Thanks!

Arrival:

We arrived at Texas A&M University at College Station at approximately 2:00pm on Tuesday, February 9, 2016. As we walked toward the student center, we were approached by an Appelt Aggeland Visitor Center staff member who greeted us and stated that we would have to facilitate our own tour because they were understaffed. We were provided with campus maps and visitor badges. We were also directed to our first stop: Hullabaloo Dormitory.

On the way toward the dorm, two female Hampton Scholars standing toward the back of the line were approached by a Caucasian female student who befriended them and asked them where they were from. She then asked the students to . The students saw that they were of the and immediately walked away. They approached their chaperones and reported the incident immediately.

Verbal Exchange:

Directly following that incident, a large group of Hampton scholars passed Walton Hall where a group of approximately 13 students were sitting. One of the students yelled "Go back to where you came from and "be sure to check out Bonfire.com! " At that point one of our scholars turned around and yelled "You do know that we're black, right?" A chaperone heard the incident and asked her to keep going. Her friend also grabbed her arm and forced her to continue walking toward the dorm.

The same chaperone heard the only female in the group yelling the n* word multiple times as the scholars passed. She approached the other counselors to check out the incident. The counselors decided to call the campus police. They approached an A&M male student walking to his dorm where they asked him for the name of the Hall where the incident occurred. He said that they were in front of Walton Hall. They reached out to a passing female cadet who gave them the number to campus police.

Dispatch Call:

A female dispatcher took the call and when the counselor explained the situation, the dispatcher responded that the students "weren't doing anything illegal" The chaperone asked her "Are you saying what they did was legal or illegal?" After questioning the dispatcher for clarification out of shock by the response, the dispatcher confirmed that what they were doing was in fact legal by freedom of speech. She did not condone it but that she would still dispatch officers. At that point the call ended. The counselors proceeded to Hullabaloo Dorm where they spoke with the tour guide and called Campus Police. The counselor received a call from Officer Rogers and Saffold requesting their location because he was on his way. They were extremely professional and delicate when handling the situation. Once they took the report they proceeded to address the A&M students who had the verbal exchange. They followed up with the counselor making two phone calls.

Resident Assistance

The tour guide also tried to rectify the issue by stating that he lived in Walton dorm and that he was going to report it to the RA's.

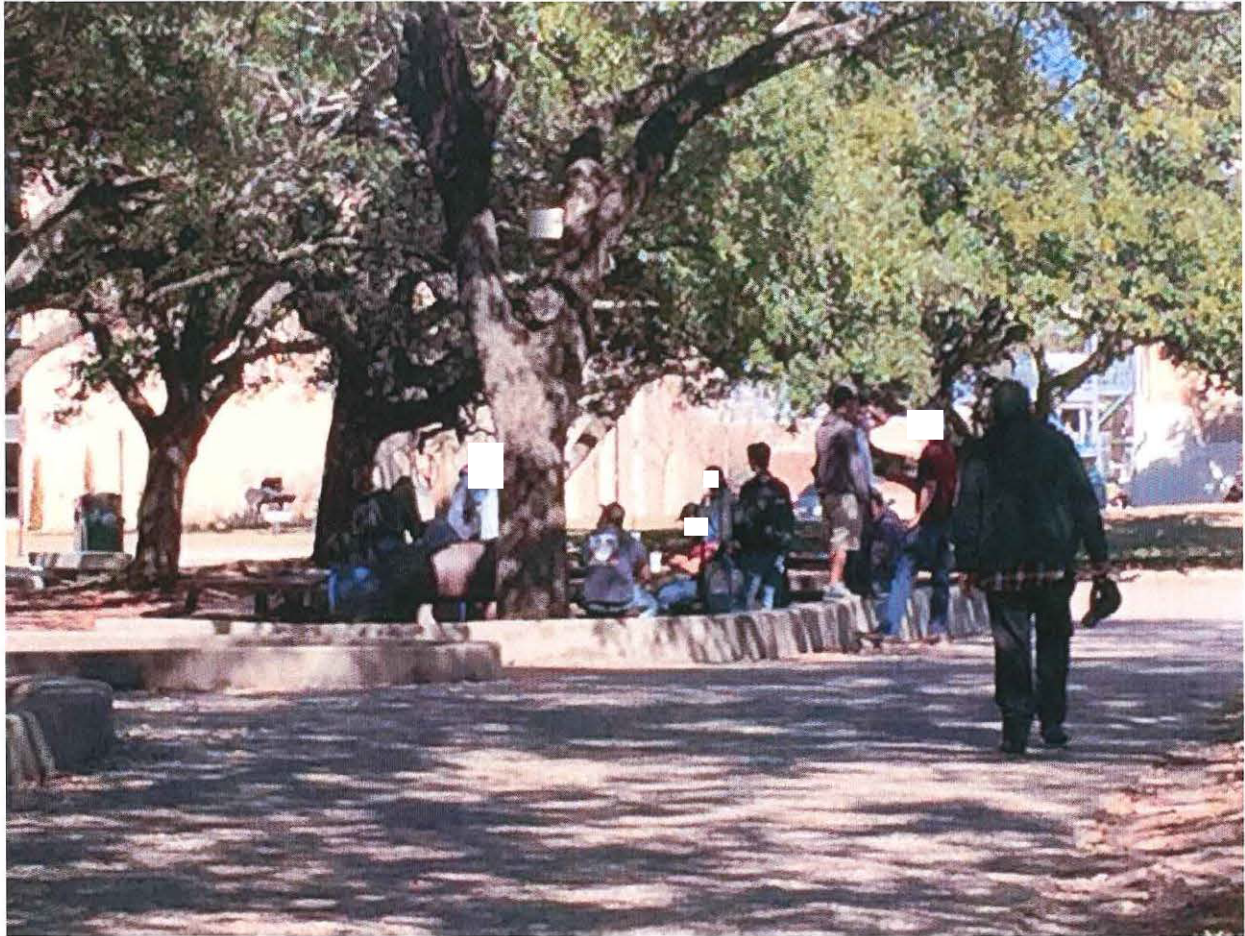

I, _____, was giving a tour to a group of students of color. Following the conclusion of my part of the tour, I was called over to a group of women by _____. I was then informed by one of the women, who were counselors of the institution, that as the students were passing by T.O. Walton hall, on their way to Hullabaloo Hall, someone told their students, " You niggers need to go back wherever you came from. Niggers aren't allowed here." _____ told them that I was a resident of Walton Hall and that I could speak to the community. I first explained that I was a representative of the Walton hall council and that the incident was not representative of our community's values and that I was very sorry that it had happened. I further explained that I would do what I could as an executive in the hall to communicate the issue and remedy it. One of the ladies explained that their priority was the students and their safety, our conversation continued, shortly into it, one of the women received a call from UPD following up the women's report. Moments later UPD arrived and began talking to the women. That severed our conversation as the UPD began talking to the women. I stepped away and grabbed my backpack so I could walk to class. On my way out of the door, I handed one of the women my contact information so that they could reach out me regarding what the hall could do to remedy the situation.

Hello Justin this is _____ I, and I'm here to just recap on the situation that happened with your last tour today. I was coming from smoothie king passing by Walton dorm and I didn't hear anything at the time. As I walked into Hullabaloo Hall, a group of about 5 counselors from the black school/tour approached me asking if I myself had dealt with any racism at Texas A&M, of course I said no. I asked her what made her ask me that question, and the black lady with short hair said while there tour passed by walton dorm that someone yelled saying "Go back were you came from, Niggers aren't allowed here." I was then shocked and told her Texas A&M isn't the type of place to deal such low stupidity. I then told her about my success here so far as a black student along with how im good friends with guys in Walton. However, the group of counselors were still upset then called the police. I had then grabbed _____ the tour guide to talk to them. He communicated with them then the police showed up. That's everything that happened from my standpoint of view. I didn't hear anyone yell any crazy remarks. I didn't see or could of known who may have said that remark. The group was very respectful and calm when they talked to me. That is all. THANK YOU!

and I followed up with the students this evening at the tables outside of Walton and got the following information:

- A tour group was walking by the tables and asked for the Hullabaloo Desk – at this time their tour guide came running up from behind and led them to Hullabaloo

- 15 to 20 residents/students were at the tables at the time the alleged incident occurred

- One student in the tour group had on a University of Texas backpack. Resident mentioned the backpack to non-resident but did so after the tour group had passed by the tables. According to the students we spoke with nothing was yelled or said loudly that could have been misconstrued by the tour group.

- A cop came by the tables a few minutes later asking if the students at the tables knew what happened

- Music was playing, but nothing that would have had derogatory words (according to the students we spoke with)

The students we spoke with who were present at the time of the incident were:

Arrival:

We arrived at Texas A&M University at College Station at approximately 2:00pm on Tuesday, February 9, 2016. As we walked toward the student center, we were approached by an Appelt Aggieland Visitor Center staff member who greeted us and stated that we would have to facilitate our own tour because they were understaffed. We were provided with campus maps and visitor badges. We were also directed to our first stop: Hullabaloo Dormitory.

On the way toward the dorm, two female Hampton Scholars standing toward the back of the line were approached by a Caucasian female student who befriended them and asked them where they were from. She then asked the students to _____ The students saw that they were of the _____ and immediately walked away. They approached their chaperones and reported the incident immediately.

Verbal Exchange:

Directly following that incident, a large group of Hampton scholars passed Walton Hall where a group of approximately 13 students were sitting. One of the students yelled "Go back to where you came from and "be sure to check out Bonfire.com! " At that point one of our scholars turned around and yelled "You do know that we're black, right?" A chaperone heard the incident and asked her to keep going. Her friend also grabbed her arm and forced her to continue walking toward the dorm.

The same chaperone heard the only female in the group yelling the n* word multiple times as the scholars passed. She approached the other counselors to check out the incident. The counselors decided to call the campus police. They approached an A&M male student walking to his dorm where they asked him for the name of the Hall where the incident occurred. He said that they were in front of Walton Hall. They reached out to a passing female cadet who gave them the number to campus police.

Dispatch Call:

A female dispatcher took the call and when the counselor explained the situation, the dispatcher responded that the students "weren't doing anything illegal" The chaperone asked her "Are you saying what they did was legal or illegal?" After questioning the dispatcher for clarification out of shock by the response, the dispatcher confirmed that what they were doing was in fact legal by freedom of speech. She did not condone it but that she would still dispatch officers. At that point the call ended. The counselors proceeded to Hullabaloo Dorm where they spoke with the tour guide and called Campus Police. The counselor received a call from Officer Rogers and Saffold requesting their location because he was on his way. They were extremely professional and delicate when handling the situation. Once they took the report they proceeded to address the A&M students who had the verbal exchange. They followed up with the counselor making two phone calls.

Resident Assistance

The tour guide also tried to rectify the issue by stating that he lived in Walton dorm and that he was going to report it to the RA's.

Good afternoon Detective Tumlinson,

I have been off-campus for the past two days, but I can definitely spend time tomorrow gathering statements from the scholars involved. Were you thinking that written statements will no longer work?

Ms. _____ teaches a class in the morning. She will also have mandatory testing training beginning at 3 PM. Is there a certain time I can have her call you? I'd say the window would have to be between 11 AM and 3 PM if you want to reach her tomorrow.

Regards,

Incident description

Community Director and Graduate Hall Director was notified about some racial slur comments in front of Walton Hall around the tables. CD and GHD sat down with Walton Hall Resident Student Student and Student.

These students stated to CD and GHD that a tour group walked by the tables (between Walton Hall and Parking Lot 32) and asked where the 24-hour Desk/Hullabaloo desk is at. At this time, a tour guide had come in from behind and led them over to Hullabaloo Hall.

During the time the tour group came and left, Resident Resident Student Student and Student mentioned about 15-20 residents/students were around the Walton Hall tables. It was between classes so these 15-20 people came to the Walton Hall tables, interacted with each other and left as those with classes got there on time.

Resident stated that one of the prospective students had a University of Texas-Austin backpack on. Resident mentioned this backpack to Student but did so after the tour group had passed by the tables and not within hearing range. According to Resident Resident Student Student and Student

, nothing was yelled or said loudly that could have been misconstrued by the tour group.

Student . stated a cop came by a few minutes later asking if anyone knew what happened.

Throughout the duration of everything happening, there was music playing but nothing that would have had derogatory words – according to the students that spoke to CD and GHD .

End Report.

REMARKS THE RP ADVISED THAT A GROUP OF 60-70 STUDENTS AND TEACHERS FROM UPLIFT HAMPTON PREPARATORY SCHOOL IN DALLAS, TX WERE TOURING THE TEXAS A&M CAMPUS. DURING THIS TOUR, A WITNESS, WHO WAS REPORTEDLY BETWEEN THE FRONT AND MIDDLE OF THE GROUP WHEN THEY APPROACHED A GROUP OF 10-15 A&M STUDENTS NEAR WALTON HALL, SAID SHE HEARD SOMEONE "YELL" THE DEROGATORY "N WORD" NUMEROUS TIMES. HER BACK WAS TURNED & SHE WAS UNABLE TO TELL WHO SAID IT. NO ONE ELSE IN THE TOUR GROUP REPORTED HEARING IT. NONE OF THE A&M STUDENTS ADMITTED SAYING ANYTHING LIKE THAT. WE HAVE NO PROOF OF WHO MAY HAVE SAID IT. THE WITNESS DOES NOT SAY THAT IT WAS DIRECTED AT HER. THERE IS NO EVIDENCE THAT IT TENDED, OR WAS INTENDED, TO CAUSE AN IMMEDIATE BREACH OF THE PEACE. THERE IS NO PROSECUTABLE CASE AT THIS TIME.
