H.B. No. 3

(c) A school district must pay for the costs associated with an efficiency audit required under this section.

SECTION 1.002. Section 12.106, Education Code, is amended by amending Subsections (a), (a-1), and (a-2) and adding Subsections (a-3) and (a-4) to read as follows:

(a) A charter holder is entitled to receive for the open-enrollment charter school funding under Chapter 48 equal to the amount of funding per student in weighted average daily attendance, excluding the adjustment under Section 48.052, the funding under Sections 48.101, 48.110, 48.111, and 48.112, and enrichment funding under Section 48.202(a), to which the charter holder would be entitled for the school under Chapter 48 if the school were a school district without a tier one local share for purposes of Section 48.266.

(a-1) In determining funding for an open-enrollment charter school under Subsection (a), the amount of the allotment under Section 48.102 is based solely on the basic allotment to which the charter holder is entitled and does not include any amount based on the allotment under Section 48.101.

(11) adjustments under Sections 42.102, 42.104, and
42.105 are based on the average adjustment for the state; and

(2) the adjustment under Section 42.103 is based on the average adjustment for the state that would have been provided under that section as it existed on January 1, 2018.

(a-2) In addition to the funding provided by Subsection (a), a charter holder is entitled to receive for the open-enrollment charter school an allotment per student in average daily attendance in an amount equal to the difference between:

(1) the product of:

(A) the quotient of:

(i) the total amount of funding provided to eligible school districts under Section 48.101(b) or (c); and

(ii) the total number of students in average daily attendance in school districts that receive an allotment under Section 48.101(b) or (c); and

(a), (a-2), and (a-3), a charter holder is entitled to receive funding for the open-enrollment charter school under Sections 48.110 and 48.112 and Subchapter D, Chapter 48, if the charter holder would be entitled to the funding if the school were a school district.

SECTION 1.003. Section 13.054(f), Education Code, is amended to read as follows:

(f) For five years beginning with the school year in which the annexation occurs, a school district shall receive additional funding under this subsection or Subsection (h). The amount of funding shall be determined by multiplying the lesser of the enlarged district's local fund assignment computed under Section 48.256 [42.252] or the enlarged district's total cost of tier one by a fraction, the numerator of which is the number of students residing in the territory annexed to the receiving district preceding the date of the annexation and the denominator of which is the number of students residing in the district as enlarged on the date of the annexation, and dividing the resulting product by the state compression percentage, as determined under Section 48.255.

SECTION 1.004. (a) Effective September 1, 2019, Section 25.084(b), Education Code, is amended to read as follows:

(b) The operation of schools year-round by a district does not affect the amount of state funds to which the district is entitled under Chapter 48 [42].

amount of state funds to which the district is entitled under 
Chapter 48[42].

(c) A district that adopts a year-round system under this 
section may receive the incentive aid under Section 48.0051 if the 
district meets the criteria for receiving the incentive under that 
section.

SECTION 1.005. Section 30.003, Education Code, is amended 
by amending Subsection (f-1) and adding Subsection (f-2) to read as 
follows:

(f-1) The commissioner shall determine the total amount 
that the Texas School for the Blind and Visually Impaired and the

services:

(1) H.B. No. 1, Acts of the 79th Legislature, 3rd 
Called Session, 2006;

(2) Section 45.0032; and

(3) Section 48.255.

(f-2) The amount determined under Subsection (f-1), [had 
not reduced the districts' share of the cost of providing education 
services. That amount, ] minus any amount the schools do receive

The statement of the purpose of the meeting must be in bold type. In reduced type, the notice must state: "The tax rate that is ultimately adopted at this meeting or at a separate meeting at a later date may not exceed the proposed rate shown below unless the district publishes a revised notice containing the same information and comparisons set out below and holds another public meeting to discuss the revised notice."

(2) contain a section entitled "Comparison of Proposed Budget with Last Year's Budget," which must show the difference, expressed as a percent increase or decrease, as applicable, in the amounts budgeted for the preceding fiscal year and the amount budgeted for the fiscal year that begins in the current tax year for

(i) the school district's "Last Year's
Rate";

(ii) the "Rate to Maintain Same Level of
Maintenance & Operations Revenue & Pay Debt Service," which:

(a) in the case of "Maintenance &
Operations," is the tax rate that, when applied to the current
taxable value for the district, as certified by the chief appraiser
under Section 26.01, Tax Code, and as adjusted to reflect changes
made by the chief appraiser as of the time the notice is prepared,
would impose taxes in an amount that, when added to state funds to
be distributed to the district under Chapter 48 \([42]\), would provide
the same amount of maintenance and operations taxes and state funds
distributed under Chapter 48 \([42]\) per student in average daily
attendance for the applicable school year that was available to the
district in the preceding school year; and

(b) in the case of "Interest & Sinking
Fund," is the tax rate that, when applied to the current taxable
value for the district, as certified by the chief appraiser under
Section 26.01, Tax Code, and as adjusted to reflect changes made by

year but not used for that purpose during that year, would provide
the amount required to service the district's debt; and

(B) contain fourth and fifth columns aligned with
the columns required by Paragraph (A) that show, for each row
required by Paragraph (A):

(i) the "Local Revenue per Student," which

property, as certified by the chief appraiser for the applicable
school year under Section 26.01, Tax Code, and as adjusted to
reflect changes made by the chief appraiser as of the time the
notice is prepared, by the total tax rate, and dividing the product by the number of students in average daily attendance in the district for the applicable school year; and

(ii) the "State Revenue per Student," which is computed by determining the amount of state aid received or to be received by the district under Chapters [42, 43, 46, and 48] and dividing that amount by the number of students in average daily attendance in the district for the applicable school year; and

(C) contain an asterisk after each calculation for "Interest & Sinking Fund" and a footnote to the section that, in reduced type, states "The Interest & Sinking Fund tax revenue is used to pay for bonded indebtedness on construction, equipment, or both. same group of residences for each year;

(7) contain the following statement in bold print:
"Under state law, the dollar amount of school taxes imposed on the residence of a person 65 years of age or older or of the surviving spouse of such a person, if the surviving spouse was 55 years of age or older when the person died, may not be increased above the amount paid in the first year after the person turned 65, regardless of changes in tax rate or property value.";

(8) contain the following statement in bold print:
"Notice of Rollback Rate: The highest tax rate the district can adopt before requiring voter approval at an election is (the school district rollback rate determined under Section 26.08, Tax Code). This election will be automatically held if the district adopts a rate in excess of the rollback rate of (the school district rollback rate)."; and

(9) contain a section entitled "Fund Balances," which must include the estimated amount of interest and sinking fund balances and the estimated amount of maintenance and operation or
general fund balances remaining at the end of the current fiscal year that are not encumbered with or by corresponding debt obligation, less estimated funds necessary for the operation of the district before the receipt of the first payment under Chapter 48 in the succeeding school year.

(c-2) The notice described by Subsection (c) must include a statement that a school district may not increase the district's maintenance and operations tax rate to create a surplus in maintenance and operations tax revenue for the purpose of paying the district's debt service.

(e) A person who owns taxable property in a school district is entitled to an injunction restraining the collection of taxes by the district if the district has not complied with the requirements of Subsections (b), (c), (c-1), (c-2), and (d), and, if applicable, Subsection (i), and the failure to comply was not in good faith. An action to enjoin the collection of taxes must be filed before the date the district delivers substantially all of its tax bills.

SECTION 1.007. Subchapter A, Chapter 45, Education Code, is amended by adding Section 45.0021 to read as follows:

Sec. 45.0021. RESTRICTION ON MAINTENANCE TAX LEVY. (a) A school district may not increase the rate of the district's maintenance taxes described by Section 45.002 to create a surplus in maintenance tax revenue for the purpose of paying the district's debt service.

(b) A person who owns taxable property in a school district is entitled to an injunction restraining the collection of taxes by
the district if the district adopts a maintenance tax rate in
violation of Subsection (a). An action to enjoin the collection of
taxes must be filed before the date the district delivers
substantially all of the district's tax bills.

SECTION 1.008. Section 45.003, Education Code, is amended
by adding Subsections (b-1) and (d-1) and amending Subsections (d)
and (f) to read as follows:

(b-1) The ballot proposition under Subsection (b) must
include the following statement: "THIS IS A PROPERTY TAX INCREASE."

(d) A proposition submitted to authorize the levy of
maintenance taxes must include the question of whether the
governing board or commissioners court may levy, assess, and
collect annual ad valorem taxes for the further maintenance of
public schools, at a rate not to exceed the rate stated in the
proposition. For any year, the maintenance tax rate per $100 of
taxable value adopted by the district may not exceed the rate equal
to the sum of $0.17 and the product of the state compression
percentage, as determined under Section 48.255 [42.2516],
multiplied by $1.00 [$1.50].

(d-1) Except as otherwise provided by this subsection or
Section 26.08(a-1), Tax Code, if the rollback tax rate of a school
district under Section 26.08(n), Tax Code, for the 2019 tax year
exceeds $1.04 per $100 of taxable value, the district may not adopt
a maintenance and operations tax rate for the 2019 tax year that
exceeds the district's rollback rate. A school district that,
before January 1, 2019, adopted a strategic plan through action
taken by the board of trustees in a public meeting that proposed a
maintenance and operations tax rate for the 2019 tax year that
exceeds the rate permitted under this subsection may, subject to
voter approval, adopt the rate proposed in the plan minus the amount
by which the district is required to reduce the district's
enrichment tax rate under Section 48.202(f). This subsection
expires September 1, 2020.

(f) Notwithstanding any other law, a district that levied a
maintenance tax for the 2005 tax year at a rate greater than $1.50
per $100 of taxable value in the district as permitted by special
law may not levy a maintenance tax at a rate that exceeds the rate
per $100 of taxable value that is equal to the sum of:

(1) $0.17; and

(2) the product of 66.67 percent \( \times \) (the state
compression percentage, as determined under Section 42.2516,)
multiplied by the rate of the maintenance tax levied by the district
for the 2005 tax year, minus the amount by which $1.00 exceeds the
product of the state compression percentage, as determined under
Section 48.255, multiplied by $1.00.

SECTION 1.009. Subchapter A, Chapter 45, Education Code, is
amended by adding Section 45.0032 to read as follows:

Sec. 45.0032. COMPONENTS OF MAINTENANCE AND OPERATIONS TAX.

(a) A school district's tier one maintenance and operations tax
rate is the number of cents levied by the district for maintenance
and operations that does not exceed the product of the state
compression percentage, as determined under Section 48.255,
multiplied by $1.00.

(a-1) This subsection applies to a school district with a
tier one maintenance and operations tax rate for the 2018-2019 school year that was less than $1.00 per $100 of taxable value. For purposes of determining a school district's tier one maintenance and operations tax rate under Subsection (a) for the 2019-2020 school year, the state compression percentage, as determined under Section 48.255, is applied to the number of cents levied by the district for the 2018-2019 school year for maintenance and operations that does not exceed $1.00. This subsection expires September 1, 2020.

(b) A district's enrichment tax rate consists of:
(1) any cents of additional maintenance and operations tax effort, not to exceed eight cents over the maximum tax rate described by Subsection (a); and
(2) any cents of additional maintenance and operations tax effort that exceeds the sum of the maximum tax rate described by Subsection (a) and the maximum number of cents permitted under Subdivision (1).

(c) For a district to which Section 45.003(f) applies, any cents of maintenance and operations tax effort that exceeds the maximum rate permitted under Section 45.003(d) are not included in the district's tier one maintenance and operations tax rate under Subsection (a) or the district's enrichment tax rate under Subsection (b), and the district is not entitled to the guaranteed yield amount of state funds under Section 48.202 for those cents of tax effort.

(d) For a district to which Section 26.08(a-1), Tax Code, applies, the amount by which the district's maintenance tax rate
exceeds the district's rollback tax rate for the preceding year is not considered in determining a district's tier one maintenance and operations tax rate under Subsection (a) or the district's enrichment tax rate under Subsection (b) for the current tax year.

(e) For the 2019 tax year, Section 48.202(f) applies to a district's maintenance and operations tax rate after adjusting the district's rate in accordance with this section. This subsection expires September 1, 2020.

SECTION 1.010. Subtitle I, Title 2, Education Code, is amended by adding Chapter 47 to read as follows:

Sec. 47.005. CERTAIN MONEY DISTRIBUTED TO AVAILABLE SCHOOL FUND. (b) Money considered part of the fund as described by Subsection (a) may be appropriated only to pay the cost of tier one allotments under Chapter 48.

Sec. 47.006. DEPOSIT OF MONEY BASED ON CERTAIN SALES AND USE TAX COLLECTIONS. (a) The comptroller shall deposit to the credit of the fund on or before the fifth business day after the end of each month an amount of general revenue equal to the amount of state sales and use tax revenue collected by marketplace providers on sales of taxable items made through the marketplace under Section 151.0242, Tax Code, and remitted to this state during the preceding month, less any amount of that revenue the comptroller estimates would have been collected and remitted if Section 151.0242 were not

significant effect on the district's attendance.
(e) For each school year, the commissioner shall adjust the
average daily attendance of school districts that are entitled to
funding on the basis of an adjusted average daily attendance under

   and
   (2) the total cost to the state does not exceed the
amount specifically appropriated for that year for purposes of
Subsection (b)(2).
(f) An open-enrollment charter school is not entitled to
funding based on an adjustment under Subsection (b)(2).

number of instructional hours required for a student to be
considered a full-time student in average daily attendance for
purposes of this section.

(i) A district or a charter school operating under Chapter
12 that operates a prekindergarten program is eligible to receive
one-half of average daily attendance under Subsection (a) if the
district's or charter school's prekindergarten program provides at
least 32,400 minutes of instructional time to students.

(j) A district or charter school is eligible to earn full
average daily attendance under Subsection (a) if the district or
school provides at least 43,200 minutes of instructional time to

(l) A school district campus or charter school described by Subsection (j) may operate more than one program and be eligible for full average daily attendance for each program if the programs operated by the district campus or charter school satisfy all applicable state and federal requirements.

(m) The commissioner shall adopt rules necessary to implement this section, including rules that:
establish the minimum amount of instructional time per day that allows a school district or charter school to be eligible for full average daily attendance, which may differ based on the instructional program offered by the district or charter school;

(2) establish the requirements necessary for a school district or charter school to be eligible for one-half of average daily attendance, which may differ based on the instructional program offered by the district or charter school; and

(3) proportionally reduce the average daily attendance for a school district if any campus or instructional program in the district provides fewer than the required minimum minutes of instruction to students.

(n) To assist school districts in implementing this section as amended by H.B. 2442, Acts of the 85th Legislature, Regular Session, 2017, [or similar legislation,] the commissioner may waive a requirement of this section or adopt rules to implement this section. (b) For a school district or open-enrollment charter school described by Subsection (a), the commissioner shall increase the average daily attendance of the district or school under Section 48.005 by the amount that results from the quotient of the sum of attendance by students described by Subsection (a)(2) for each of the 30 additional instructional days of half-day instruction that are provided divided by 180.

(c) The commissioner may provide the incentive under this section to a school district or open-enrollment charter school that intended, but due to circumstances beyond the district's or school's control, including the occurrence of a natural disaster affecting the district or school, was unable to meet the requirement for instruction under Section 25.081 plus an additional 30 days of half-day instruction. The commissioner may proportionately reduce the incentive provided to a district or school described by this subsection.
(d) This section does not prohibit a school district from providing the minimum number of minutes of operational and instructional time required under Section 25.081 and commissioner rules adopted under that section over fewer than 180 days of instruction.

(e) The agency shall assist school districts and open-enrollment charter schools in qualifying for the incentive under this section.

(c) The commissioner may [shall] make the adjustment under [required by] this section for the two-year period following the date of the governor's initial proclamation or executive order declaring the state of disaster.

(d) Section 48.005(b)(2) [42.005(b)(2)] does not apply to a district that receives an adjustment under this section.

SECTION 1.021. Sections 42.101 and 42.105, Education Code, are transferred to Subchapter B, Chapter 48, Education Code, as added by this Act, redesignated as Sections 48.051 and 48.052, Education Code, and amended to read as follows:

Sec. 48.051 [42.101]. BASIC ALLOTMENT. (a) For each student in average daily attendance, not including the time students spend each day in special education programs in an instructional arrangement other than mainstream or career and technology education programs, for which an additional allotment is made under Subchapter C, a district is entitled to an allotment equal to the lesser of $6,160 [4,765] or the amount that results from the following formula:

\[ A = \frac{6,160 \ [4,765]}{\text{TR/MCR} \ [\text{DCR/MCR}]} \]

where:

"A" is the allotment to which a district is entitled;

"TR" ["DCR"] is the district's tier one maintenance and operations [compressed] tax rate, as provided by Section 45.0032[1]
which is the product of the state compression percentage, as
determined under Section 42.2516, multiplied by the maintenance and

"MCR" is the state maximum compressed tax rate, which is the
product of the state compression percentage, as determined under
Section 48.255 (42.2516), multiplied by $1.00 ($1.50).

[(a-1) Notwithstanding Subsection (a), for a school
district that adopted a maintenance and operations tax rate for the
2005 tax year below the maximum rate permitted by law for that year,
the district's compressed tax rate ("DCR") includes the portion of

(b) A greater amount for any school year may be provided by
appropriation.

(c) During any school year for which the maximum amount of
the basic allotment provided under Subsection (a) or (b) is greater
than the maximum amount provided for the preceding school year, a
school district must use at least 30 percent of the amount, if the
amount is greater than zero, that equals the product of the average
daily attendance of the district multiplied by the amount of the
difference between the district's funding under this chapter per
student in average daily attendance for the current school year and
the preceding school year to provide compensation increases to
full-time district employees other than administrators as follows:

(1) 75 percent must be used to increase the compensation paid to classroom teachers, full-time librarians, full-time school counselors certified under Subchapter B, Chapter 21, and full-time school nurses, prioritizing differentiated compensation for classroom teachers with more than five years of experience; and

(2) 25 percent may be used as determined by the district to increase compensation paid to full-time district employees [This subsection applies to a school district for which the compressed tax rate ("DCR") is determined in accordance with Subsection (a-1). Any reduction in the district's adopted maintenance and operations tax rate is applied to the following components of the district's tax rate in the order specified:

[(1) tax effort described by Section 42.302(a-1)(2);
(2) tax effort described by Section 42.302(a-1)(1), and
(3) tax effort included in the determination of the district's compressed tax rate ("DCR") under Subsection (a-1)].

preceding or current year's average daily attendance of at least 90 students or is 30 miles or more by bus route from the nearest high school district. A district offering a kindergarten through grade 8 program whose preceding or current year's average daily attendance was at least 50 students or which is 30 miles or more by bus route from the nearest high school district shall be provided a [adjusted] basic allotment on the basis of 75 students in average daily attendance. An average daily attendance of 60 students shall be the basis of providing the [adjusted] basic allotment if a district offers a kindergarten through grade 6 program and has preceding or current year's average daily attendance of at least 40 students or is 30 miles or more by bus route from the nearest high school district.

(b) Subsection (c) applies only to a school district that:

(1) does not offer each grade level from kindergarten through grade 12 and whose prospective or former students generally attend school in a state that borders this state for the grade levels the district does not offer;

(2) serves both students residing in this state and students residing in a state that borders this state who are subsequently eligible for in-state tuition rates at institutions of higher education in either state regardless of the state in which the students reside; and

(c) Notwithstanding Subsection (a) or Section 48.051 [Sections 42.101, 42.102, and 42.103], a school district to which
this subsection applies, as provided by Subsection (b), that has fewer than 130 students in average daily attendance shall be provided a [an adjusted] basic allotment on the basis of 130 students in average daily attendance if it offers a kindergarten through grade four program and has preceding or current year's average daily attendance of at least 75 students or is 30 miles or more by bus route from the nearest high school district.

SECTION 1.022. Subchapter B, Chapter 48, Education Code, as added by this Act, is amended by adding Section 48.053 to read as follows:

Sec. 48.053. ALLOTMENT FOR CERTAIN SPECIAL-PURPOSE SCHOOL DISTRICTS. (a) This section applies only to a special-purpose school district established under Section 11.351 that is operated by a general academic teaching institution, as that term is defined by Section 61.003.

(b) For each student who resides in this state and is enrolled in the district, a school district to which this section applies is entitled to funding under this chapter as if the district had no tier one local share for purposes of Section 48.256.

(c) A school district to which this section applies may decline to receive funding under Subsection (b).

(d) A school district that receives funding under Subsection (b) for a school year may not charge tuition or fees to students enrolled in the district who are residents of this state for that school year, other than fees authorized under Section 11.158.

(3) "BA" is the basic allotment determined under Section 48.051.

(b) A school district that has fewer than 1,600 students in average daily attendance is entitled to an annual allotment for each student in average daily attendance based on the following formula:

\[ AA = ((1,600 - ADA) \times 0.0004) \times BA \]

(c) A school district that offers a kindergarten through grade 12 program and has less than 5,000 students in average daily attendance is entitled to an annual allotment for each student in average daily attendance based on the formula, of the following formulas, that results in the greatest annual allotment:

(1) the formula in Subsection (b), if the district is
eligible for that formula; or

(2) \( AA = ((5,000 - ADA) \times 0.00025) \times BA. \)

(d) Instead of the allotment under Subsection (b) or (c)(1), a school district that has fewer than 300 students in average daily attendance and is the only school district located in and operating in a county is entitled to an annual allotment for each student in average daily attendance based on the following formula:

that a mainstream instructional arrangement must meet, the
commissioner [board] shall establish requirements that students
with disabilities and their teachers receive the direct, indirect,
and support services that are necessary to enrich the regular
classroom and enable student success.

(f) In this section, "full-time equivalent student" means
30 hours of contact a week between a special education student and
special education program personnel.

(g) The commissioner [State Board of Education] shall adopt

(j) A school district that provides an extended year program required by federal law for special education students who may regress is entitled to receive funds in an amount equal to 75 percent, or a lesser percentage determined by the commissioner, of the adjusted basic allotment, or, if applicable, the sum of the adjusted basic allotment and the allotment under Section 48.101 to which the district is entitled [or adjusted allotment, as applicable] for each full-time equivalent student in average daily attendance, multiplied by the amount designated for the student's instructional arrangement under this section, for each day the program is provided divided by the number of days in the minimum school year. The total amount of state funding for extended year services under this section may not exceed $10 million per year. A school district may use funds received under this section only in providing an extended year program.

(k) From the total amount of funds appropriated for special education under this section, the commissioner shall withhold an amount specified in the General Appropriations Act, and distribute that amount to school districts for programs under Section 29.014. The program established under that section is required only in school districts in which the program is financed by funds distributed under this subsection and any other funds available for the program. After deducting the amount withheld under this subsection from the total amount appropriated for
special education, the commissioner shall reduce each district's allotment proportionately and shall allocate funds to each district accordingly.

SECTION 1.028. Section 42.152, Education Code, is
transferred to Subchapter C, Chapter 48, Education Code, as added
by this Act, redesignated as Section 48.104, Education Code, and
amended to read as follows:

Sec. 48.104 [42.152]. COMPENSATORY EDUCATION ALLOTMENT.
(a) For each student who [is educationally disadvantaged or who is
a student who] does not have a disability and resides in a
residential placement facility in a district in which the student's
parent or legal guardian does not reside, a district is entitled to
an annual allotment equal to the [adjusted] basic allotment
multiplied by 0.2 or, if the student is educationally
disadvantaged, 0.275. For[ and by 2.41 for] each full-time
equivalent student who is in a remedial and support program under
Section 29.081 because the student is pregnant, a district is
entitled to an annual allotment equal to the basic allotment
multiplied by 2.41.

(b) For each student who is educationally disadvantaged and
resides in an economically disadvantaged census block group as
determined by the commissioner under Subsection (c), a district is
entitled to an annual allotment equal to the basic allotment
multiplied by the weight assigned to the student's census block
(c) For purposes of the allotment under Subsection (b), the commissioner shall establish an index for economically disadvantaged census block groups in the state that provides criteria for determining which census block groups are economically disadvantaged and categorizes economically disadvantaged census block groups in five tiers according to relative severity of economic disadvantage. In determining the severity of economic disadvantage in a census block group, the commissioner shall consider:

1. the median household income;
2. the average educational attainment of the population;
3. the percentage of single-parent households;
4. the rate of homeownership; and
5. other economic criteria the commissioner determines likely to disadvantage a student's preparedness and ability to learn.

(d) The weights assigned to the five tiers of the index established under Subsection (c) are, from least to most severe economic disadvantage, 0.225, 0.2375, 0.25, 0.2625, and 0.275.

(e) If insufficient data is available for any school year to evaluate the level of economic disadvantage in a census block group, a school district is entitled to an annual allotment equal to the basic allotment multiplied by 0.225 for each student who is educationally disadvantaged and resides in that census block group [For purposes of this section, the number of educationally
disadvantaged students is determined:

(1) by averaging the best six months' numbers of students eligible for enrollment in the national school lunch program of free or reduced-price lunches for the preceding school year; or

(2) in the manner provided by commissioner rule.

(f) A student receiving a full-time virtual education through the state virtual school network may be included in determining the number of educationally disadvantaged students who are educationally disadvantaged and reside in an economically disadvantaged census block group under Subsection (b) or (e), as applicable, if the school district submits to the commissioner a plan detailing the enhanced services that will be provided to the student and the commissioner approves the plan.

(g) Not later than March 1 of each year, the commissioner shall:

(1) review and, if necessary, update the index established under Subsection (c) to be used for the following school year, based on the most recent estimates published by the United States Census Bureau; and

(2) notify each school district of any changes to the index.

(h) The state demographer, the Department of Agriculture, and any other state agency with relevant information shall assist the commissioner in performing the commissioner's duties under this section.

(i) On a schedule determined by the commissioner, each
The school district shall report to the agency the census block group in which each student enrolled in the district who is educationally disadvantaged resides. The agency shall provide to school districts a resource for use in determining the census block group in which a student resides.

(j) The commissioner shall adopt rules for the method of determining the number of students who qualify for an allotment under this section at a campus that participates in the Community Eligibility Provision administered by the United States Department of Agriculture, as provided by the Healthy, Hunger-Free Kids Act of 2010 (Pub. L. No. 111-296).

(j-1) In addition to other purposes for which funds allocated under this section may be used, those funds may also be used to:

(1) provide child-care services or assistance with child-care expenses for students at risk of dropping out of school, as described by Section 29.081(d)(5); or

(2) pay the costs associated with services provided through a life skills program in accordance with Sections 29.085(b)(1) and (3)-(7).

(k) At least 55 percent of the funds [(c) Funds] allocated under this section must [shall] be used to:

(1) fund supplemental programs and services designed to eliminate any disparity in performance on assessment instruments administered under Subchapter B, Chapter 39, or disparity in the rates of high school completion between:

(A) students who are educationally disadvantaged
and students who are not educationally disadvantaged; and

(B) students at risk of dropping out of school, as defined by Section 29.081, and all other students; or

(2) Specifically, the funds, other than an indirect cost allotment established under State Board of Education rule, which may not exceed 45 percent, may be used to meet the costs of providing a compensatory, intensive, or accelerated instruction program under Section 29.081 or a disciplinary alternative education program established under Section 37.008, to pay the costs associated with placing students in a juvenile justice alternative education program established under Section 37.011, or to support a program eligible under Title I of the Elementary and Secondary Education Act of 1965, as provided by Pub. L. No. 103-382 and its subsequent amendments, and by federal regulations implementing that Act, at a campus at which at least 40 percent of the students are educationally disadvantaged.

(1) The commissioner shall adopt rules regarding the use of funds described by Subsection (k). The rules:

(1) must:

(A) permit a school district to use those funds for programs and services that reflect the needs of students at each campus in the district; and

(B) provide for streamlined reporting on the use of those funds; and

(2) may not prohibit the use of those funds for any purpose for which the use of those funds was authorized under former Section 42.152 as that section existed on September 1, 2018.
The State Board of Education shall adopt rules requiring a report on the use of funds under Subsection (k) as part of the annual audit under Section 44.008 and shall develop minimum requirements for that report.

The commissioner annually shall review each report required under Subsection (m) for the preceding school year and:

1. identify each school district that was not in compliance with Subsection (k) during that school year; and

2. provide each district identified under Subdivision (1) a reasonable opportunity to comply with Subsection (k).

In meeting the costs of providing a compensatory, intensive, or accelerated instruction program under Section 29.081, a district's compensatory education allotment shall be used for costs supplementary to the regular education program, such as costs for program and student evaluation, instructional materials and equipment and other supplies required for quality instruction, supplemental staff expenses, salary for teachers of at-risk students, smaller class size, and individualized instruction. A home-rule school district or an open-enrollment charter school must use funds allocated under Subsection (a) for a purpose authorized in this subsection but is not otherwise subject to Subchapter C, Chapter 29. For purposes of this subsection, a program specifically designed to serve students at risk of dropping out of school, as defined by Section 29.081, is considered to be a program supplemental to the regular education program, and a district may use its compensatory education allotment for such a program.
[(c-1) Notwithstanding Subsection (c), funds allocated under this section may be used to fund in proportion to the percentage of students served by the program that meet the criteria in Section 29.081(d) or (g):

[(1) an accelerated reading instruction program under Section 28.006(g); or

[(2) a program for treatment of students who have dyslexia or a related disorder as required by Section 38.003.

[(c-2) Notwithstanding Subsection (c), funds allocated under this section may be used to fund a district’s mentoring services program under Section 29.089.

[(d) The agency shall evaluate the effectiveness of accelerated instruction and support programs provided under Section 29.081 for students at risk of dropping out of school.

[(q) The State Board of Education, with the assistance of the comptroller, shall develop and implement by rule reporting and auditing systems for district and campus expenditures of compensatory education funds to ensure that compensatory education funds, other than the indirect cost allotment, are spent only to supplement the regular education program as required by Subsection (c). The reporting requirements shall be managed electronically to minimize local administrative costs. A district shall submit the report required by this subsection not later than the 150th day after the last day permissible for resubmission of information required under Section 42.006.

[(q-1) The commissioner shall develop a system to identify school districts that are at high risk of having used compensatory
If a review of the report submitted under Subsection (q), using the risk-based system, indicates that a district is not at high risk of having misused compensatory education funds or of having inadequately reported compensatory education expenditures, the district may not be required to perform a local audit of compensatory education expenditures and is not subject to on-site monitoring under this section.

[(q-2) If a review of the report submitted under Subsection (q), using the risk-based system, indicates that a district is at high risk of having misused compensatory education funds, the commissioner shall notify the district of that determination. The district must respond to the commissioner not later than the 30th day after the date the commissioner notifies the district of the commissioner's determination. If the district's response does not change the commissioner's determination that the district is at high risk of having misused compensatory education funds or if the district does not respond in a timely manner, the commissioner shall:

[(1) require the district to conduct a local audit of compensatory education expenditures for the current or preceding school year;

[(2) order agency staff to conduct on-site monitoring of the district's compensatory education expenditures; or

[(3) both require a local audit and order on-site monitoring.
[(q-3)] If a review of the report submitted under Subsection (q), using the risk-based system, indicates that a district is at high risk of having inadequately reported compensatory education expenditures, the commissioner may require agency staff to assist the district in following the proper reporting methods or amending a district or campus improvement plan under Subchapter F, Chapter 11. If the district does not take appropriate corrective action before the 45th day after the date the agency staff notifies the district of the action the district is expected to take, the commissioner may:

[(1)] require the district to conduct a local audit of the district's compensatory education expenditures; or

[(2)] order agency staff to conduct on-site monitoring of the district's compensatory education expenditures.

[(q-4)] The commissioner, in the year following a determination under Subsection (n) that a school district was not in compliance with Subsection (k) for the 2021-2022 school year or a subsequent school year [local audit of compensatory education expenditures], shall withhold from the [a] district's foundation school fund payment an amount equal to the amount of compensatory education funds the commissioner [agency] determines were not used in compliance with Subsection (k) [(c)]. The commissioner shall release to a district funds withheld under this subsection when the district provides to the commissioner a detailed plan to spend those funds in compliance with Subsection (k) [(c)]. In determining whether a school district is subject to the withholding of funding required under this subsection, the commissioner may consider the
district's average use of funds for the three preceding school years.

[(r) The commissioner shall grant a one-year exemption from the requirements of Subsections (q)-(q-4) to a school district in which the group of students who have failed to perform satisfactorily in the preceding school year on an assessment instrument required under Section 39.023(a), (c), or (l) subsequently performs on those assessment instruments at a level that meets or exceeds a level prescribed by commissioner rule. Each year the commissioner, based on the most recent information available, shall determine if a school district is entitled to an exemption for the following school year and notify the district of that determination.]

(g) The commissioner shall establish the threshold percentages under Subsection (b) using the 25th percentile of statewide college, career, or military readiness as described by Subsection (f) for the applicable cohort of annual graduates during the 2016-2017 school year.

(h) On application by a school district, the commissioner
may allow annual graduates from the district to satisfy the
requirement for demonstrating career readiness under Subsection

time period established by the commissioner under Subsection
(f)(2)(B). The commissioner by rule shall provide the criteria
required for an application under this subsection.

to the legislature a report on the results of the study and any
recommendations for legislative or other action.

(B) a school district with fewer than 5,000
enrolled students; or

under this section offers resources to the district to increase
teacher compensation and prioritize funding for high needs and
rural district campuses.

(c) For each classroom teacher with a teacher designation

(2) $3,000 for each exemplary teacher; and
(3) $1,500 for each recognized teacher.

(e) Except as provided by Subsection (f), a point value for each student at a district campus shall be assigned as follows:

(1) 0, for a student for whom the district does not receive a compensatory education allotment under Section 48.104(b) or (e); or

(2) 0.5, 1.0, 2.0, 3.0, or 4.0, respectively, from least to most severe economic disadvantage according to the census block group in which the student resides, for a student for whom the district receives a compensatory education allotment under Section 48.104(b) or (e).

(f) If the campus at which a student is enrolled is classified as a rural campus, a student is assigned the point value two tiers higher than the student's point value determined under Subsection (e)(1) or (2).

(g) A district is entitled to receive an increased allotment
under this section in the amount necessary for reimbursement for
any fees paid under Section 21.3521.

(h) The commissioner shall annually make available to the
public a list of campuses with the projected allotment amounts per
teacher designation at each campus.

(i) A district shall annually certify that:

(1) funds received under this section were used as
follows:

(A) at least 90 percent of each allotment
received under Subsection (c) was used for the compensation of
teachers employed at the campus at which the teacher for whom the
district received the allotment is employed; and

(B) any other funds received under this section
were used for costs associated with implementing Section 21.3521,
including efforts to support teachers in obtaining designations;
and

(2) the district prioritized high needs campuses in
the district in using funds received under this section.

Sec. 48.114. MENTOR PROGRAM ALLOTMENT. (a) A school
district that has implemented a mentoring program for classroom
teachers who have less than two years of teaching experience under
Section 21.458 is entitled to an allotment as determined under
Subsection (b) to fund the mentoring program and to provide
stipends for mentor teachers.

(b) The commissioner shall adopt a formula to determine the
amount to which each district described by Subsection (a) is
entitled.
Funding provided to districts under this section may be used only for providing:

(1) mentor teacher stipends;
(2) scheduled release time for mentor teachers and the classroom teachers to whom they are assigned for meeting and engaging in mentoring activities; and
(3) mentoring support through providers of mentor training.

SECTION 1.032. Chapter 48, Education Code, as added by this Act, is amended by adding Subchapter D, and a heading is added to that subchapter to read as follows:

SUBCHAPTER D. ADDITIONAL FUNDING

SECTION 1.033. Sections 42.155 and 42.158, Education Code, are transferred to Subchapter D, Chapter 48, Education Code, as added by this Act, redesignated as Sections 48.151 and 48.152, Education Code, and amended to read as follows:

Sec. 48.151 [42.155]. TRANSPORTATION ALLOTMENT. (a) Each district or county operating a transportation system is entitled to allotments for transportation costs as provided by this section.

(b) As used in this section:

(1) "Regular eligible student" means a student who:

(A) resides two or more miles from the student's campus of regular attendance, measured along the shortest route that may be traveled on public roads, and who is not classified as a student eligible for special education services; or

(B) is a homeless child or youth, as defined by 42 U.S.C. Section 11434a.
(2) "Eligible special education student" means a student who is eligible for special education services under Section 29.003 and who would be unable to attend classes without special transportation services.

(3) "Linear density" means the average number of regular eligible students transported daily, divided by the approved daily route miles traveled by the respective transportation system.

(c) Each district or county operating a regular transportation system is entitled to an allotment based on a rate per mile [the daily cost] per regular eligible student set [of operating and maintaining the regular transportation system and the linear density of that system. In determining the cost, the commissioner shall give consideration to factors affecting the actual cost of providing these transportation services in each district or county. The average actual cost is to be computed by the commissioner and included for consideration] by the legislature in the General Appropriations Act. [The allotment per mile of approved route may not exceed the amount set by appropriation.]

(d) A district or county may apply for and on approval of the commissioner receive an additional amount of up to 10 percent of its regular transportation allotment to be used for the transportation of children living within two miles of the school they attend who would be subject to hazardous traffic conditions or a high risk of violence if they walked to school.

(d-1) For purposes of Subsection (d), each board of trustees shall provide to the commissioner an explanation of the hazardous
traffic conditions or areas presenting a high risk of violence
applicable to that district and shall identify the specific
hazardous or high-risk areas for which the allocation is
requested. A hazardous traffic condition exists where no walkway
is provided and children must walk along or cross a freeway or
expressway, an underpass, an overpass or a bridge, an uncontrolled
major traffic artery, an industrial or commercial area, or another
comparable condition. An area presents a high risk of violence if
law enforcement records indicate a high incidence of violent crimes
in the area. Each board of trustees requesting funds for an area
presenting a high risk of violence must, in addition to the
explanation required by this subsection, provide the commissioner
with consolidated law enforcement records that document violent
crimes identified by reporting agencies within the relevant
jurisdiction.

(d-2) A district or county may use all or part of any funds
received under Subsection (d) to support community walking
transportation programs, including walking school bus programs,
provided that the district or county requires each supported
program to submit a financial report to the district or county each
semester that covers services provided by the program for the
benefit of the district or county. The commissioner shall adopt
rules governing the transportation allotment as necessary to permit
a district or county to receive funds under Subsection (d) that may
be used to support innovative school safety projects, including
community walking transportation programs as provided by this
subsection and any other appropriate safety project, including
rules defining an approved walking route mile that may be used as
necessary in implementing this subsection.
(e) The commissioner may grant an amount set by
appropriation for private or commercial transportation for
eligible students from isolated areas. The need for this type of
transportation grant shall be determined on an individual basis and
the amount granted shall not exceed the actual cost. The grants may
be made only in extreme hardship cases. A grant may not be made if
the students live within two miles of an approved school bus route.
(f) The cost of transporting career and technology
education students from one campus to another inside a district,
from a sending district to another secondary public school for
a career and technology program or an area career and technology
school or to an approved post-secondary institution under a
contract for instruction approved by the agency, or from a district
campus to a location at which students are provided work-based
learning under the district's career and technology program shall
be reimbursed based on the number of actual miles traveled times the
district's official extracurricular travel per mile rate as set by
the board of trustees and approved by the agency.
(g) A school district or county that provides special
transportation services for eligible special education students is
entitled to a state allocation paid on a previous year's
cost-per-mile basis. The maximum rate per mile allowable shall
be set by appropriation based on data gathered from the first year
of each preceding biennium. Districts may use a portion of their
support allocation to pay transportation costs, if necessary. The
commissioner may grant an amount set by appropriation for private
transportation to reimburse parents or their agents for
transporting eligible special education students. The mileage
allowed shall be computed along the shortest public road from the
student's home to school and back, morning and afternoon. The need
for this type transportation shall be determined on an individual
basis and shall be approved only in extreme hardship cases.

(h) Funds allotted under this section must be used in
providing transportation services.

(i) In the case of a district belonging to a county
transportation system, the district's transportation allotment for
purposes of determining a district's foundation school program
allocations is determined on the basis of the number of approved
daily route miles in the district multiplied by the allotment per
mile to which the county transportation system is entitled.

(j) The Texas School for the Deaf is entitled to an
allotment under this section. The commissioner shall determine the
appropriate allotment.

(k) Notwithstanding any other provision of this section,
the commissioner may not reduce the allotment to which a district or
county is entitled under this section because the district or
county provides transportation for an eligible student to and from
a child-care facility, as defined by Section 42.002, Human
Resources Code, or a grandparent's residence instead of the
student's residence, as authorized by Section 34.007 of this code
[if the transportation is provided within the approved routes of
the district or county for the school the student attends].
(1) A school district may, with the funds allotted under this section, provide a bus pass or card for another transportation system to each student who is eligible to use the regular transportation system of the district but for whom the regular transportation system of the district is not a feasible method of providing transportation. The commissioner by rule shall provide procedures for a school district to provide bus passes or cards to students under this subsection.

(m) A school district shall be reimbursed on a per-mile basis for the cost of transporting a dual credit student to another campus in the district, a campus in another district, or a postsecondary educational institution for purposes of attending the course, if the course is not available at the student's campus.

Sec. 48.152. NEW INSTRUCTIONAL FACILITY ALLOTMENT. (a) In this section:
(1) "Instructional facility" has the meaning assigned by Section 46.001.
(2) "New instructional facility" includes:
   (A) a newly constructed instructional facility;
   (B) a repurposed instructional facility; and
   (C) a leased facility operating for the first time as an instructional facility with a minimum lease term of not less than 10 years.

(b) A school district is entitled to an additional allotment as provided by this section for operational expenses associated with opening a new instructional facility.
(c) [Repealed]
under this section may use funds from the district's allotment to
renovate an existing instructional facility to serve as a dedicated
cybersecurity computer laboratory.

(d) For the first school year in which students attend
a new instructional facility, a school district is entitled to an
allotment of $1,000 for each student in average daily attendance at
the facility. For the second school year in which students attend
that instructional facility, a school district is entitled to an
allotment of $1,000 for each additional student in average daily
attendance at the facility.

(e) For purposes of this section, the number of
additional students in average daily attendance at a facility is
the difference between the number of students in average daily
attendance in the current year at that facility and the number of
students in average daily attendance at that facility in the
preceding year.

(f) The amount appropriated for allotments under this section may not exceed $100
million in a school year. If the total amount of allotments
to which districts are entitled under this section for a school year
exceeds the amount appropriated under this subsection, the
commissioner shall reduce each district's allotment under this
section in the manner provided by Section 48.266(f) [42.253(h)].

(d-1) In addition to the appropriation amount described by
Subsection (d), the amount of $1 million may be appropriated each
school year to supplement the allotment to which a school district
is entitled under this section that may be provided using the
appropriation amount described by Subsection (d). The commissioner shall first apply the funds appropriated under this subsection to prevent any reduction under Subsection (d) in the allotment for attendance at an eligible high school instructional facility, subject to the maximum amount of $1,000 for each student in average daily attendance. Any funds remaining after preventing all reductions in amounts due for high school instructional facilities may be applied proportionally to all other eligible instructional facilities, subject to the maximum amount of $1,000 for each student in average daily attendance.

[(e) A school district that is required to take action under Chapter 41 to reduce its wealth per student to the equalized wealth level is entitled to a credit, in the amount of the allotments to which the district is entitled under this section, against the total amount required under Section 41.093 for the district to purchase attendance credits. A school district that is otherwise ineligible for state aid under this chapter is entitled to receive allotments under this section.

[(f) The commissioner may adopt rules necessary to implement this section.

[(g) In this section:

[(1) ”Instructional facility” has the meaning assigned by Section 46.001.

[(2) ”New instructional facility” includes:

[(A) a newly constructed instructional facility;

[(B) a repurposed instructional facility; and

[(C) a leased facility operating for the first
time as an instructional facility with a minimum lease term of not
less than 10 years.)

SECTION 1.034. Subchapter D, Chapter 48, Education Code, as
added by this Act, is amended by adding Section 48.153 to read as
follows:

Sec. 48.153. DROPOUT RECOVERY SCHOOL AND RESIDENTIAL
PLACEMENT FACILITY ALLOTMENT. A school district or open-enrollment
charter school is entitled to $275 for each student in average daily
attendance who:

(1) resides in a residential placement facility; or
(2) is at a district or school or a campus of the
district or school that is designated as a dropout recovery school
under Section 39.0548.

SECTION 1.035. Section 42.106, Education Code, is
transferred to Subchapter D, Chapter 48, Education Code, as added
by this Act, redesignated as Section 48.154, and amended to read as
follows:

Sec. 48.154 [42.106]. TUITION ALLOTMENT FOR DISTRICTS NOT
OFFERING ALL GRADE LEVELS. A school district that contracts for
students residing in the district to be educated in another
district under Section 25.039(a) is entitled to receive an
allotment equal to the total amount of tuition required to be paid
by the district under Section 25.039, not to exceed the amount
specified by commissioner rule under Section 25.039(b).

SECTION 1.036. Subchapter D, Chapter 48, Education Code, as
added by this Act, is amended by adding Sections 48.155 and 48.156
to read as follows:
Sec. 48.155. COLLEGE PREPARATION ASSESSMENT REIMBURSEMENT. A school district is entitled to reimbursement for the amount of fees paid by the district for the administration of an assessment instrument under Section 39.0261(a)(3).

Sec. 48.156. CERTIFICATION EXAMINATION REIMBURSEMENT. A school district is entitled to reimbursement for the amount of a subsidy paid by the district for a student's certification examination under Section 29.190(a) as provided by Section 29.190(c).

SECTION 1.037. Chapter 48, Education Code, as added by this Act, is amended by adding Subchapter E, and a heading is added to that subchapter to read as follows:

SUBCHAPTER E. TIER TWO ENTITLEMENT

SECTION 1.038. Sections 42.301, 42.302, 42.303, and 42.304, Education Code, are transferred to Subchapter E, Chapter 48, Education Code, as added by this Act, redesignated as Sections 48.201, 48.202, 48.203, and 48.204, Education Code, and amended to read as follows:

Sec. 48.201 [42.301]. PURPOSE. The purpose of the tier two [guaranteed yield] component of the Foundation School Program is to provide each school district with the opportunity to provide the basic program and to supplement that program at a level of its own choice. An allotment under this subchapter may be used for any legal purpose other than capital outlay or debt service.

Sec. 48.202 [42.302]. TIER TWO ALLOTMENT. (a) Each school district is guaranteed a specified amount per weighted student in state and local funds for each cent of tax effort over that required
for the district's local fund assignment up to the maximum level specified in this subchapter. The amount of state support, subject only to the maximum amount under Section 48.203 [42.303], is determined by the formula:

\[
GYA = (GL \times WADA \times DTR \times 100) - LR
\]

where:

- "GYA" is the guaranteed yield amount of state funds to be allocated to the district;
- "GL" is the dollar amount guaranteed level of state and local funds per weighted student per cent of tax effort, which is an amount described by Subsection (a-1) or a greater amount for any year provided by appropriation;
- "WADA" is the number of students in weighted average daily attendance, which is calculated by dividing the sum of the school district's allotments under Subchapters B and C, less any allotment to the district for transportation, any allotment under Section 42.158 or 42.160, and 50 percent of the adjustment under Section 42.102, by the basic allotment for the applicable year;
- "DTR" is the district enrichment tax rate of the school district, which is determined by subtracting the amounts specified by Subsection (b) from the total amount of maintenance and operations taxes collected by the school district for the applicable school year and dividing the difference by the quotient of the district's taxable value of property as determined under Subchapter M, Chapter 403, Government Code, or, if applicable, under Section 48.258 [42.252], divided by 100; and
- "LR" is the local revenue, which is determined by multiplying...
"DTR" by the quotient of the district's taxable value of property as determined under Subchapter M, Chapter 403, Government Code, or, if applicable, under Section 48.258 [42.2521], divided by 100.

(a-1) For purposes of Subsection (a), the dollar amount guaranteed level of state and local funds per weighted student per cent of tax effort ("GL") for a school district is:

(1) the greater of the amount of district tax revenue per weighted student per cent of tax effort [that would be] available to a school district at the 96th percentile of wealth per weighted student [the Austin Independent School District, as determined by the commissioner in cooperation with the Legislative Budget Board, if the reduction of the limitation on tax increases as provided by Section 11.26(a-1), (a-2), or (a-3), Tax Code, did not apply] or the amount that results from multiplying 6,160, or the greater amount provided under Section 48.051(b), if applicable, by 0.016 [of district tax revenue per weighted student per cent of tax effort used for purposes of this subdivision in the preceding school year], for the first eight [six] cents by which the district's maintenance and operations tax rate exceeds the district's tier one tax rate [equal to the sum of the product of the state compression percentage, as determined under Section 42.2516, multiplied by the maintenance and operations tax rate adopted by the district for the 2005 tax year and any additional tax effort included in calculating the district's compressed tax rate under Section 42.101(a-1)]; and

(2) subject to Subsection (f), the amount that results from multiplying $6,160, or the greater amount provided under
Section 48.051(b), if applicable, by 0.008 \[\$31.95\], for the district's maintenance and operations tax effort that exceeds the amount of tax effort described by Subdivision (1).

(a-2) The limitation on district enrichment tax rate ("DTR") under Section 48.203 [42.303] does not apply to the district's maintenance and operations tax effort described by Subsection (a-1)(1).

(b) In computing the district enrichment tax rate of a school district, the total amount of maintenance and operations taxes collected by the school district does not include the amount of:

1. the district's local fund assignment under Section 48.256 [42.252]; or
2. taxes paid into a tax increment fund under Chapter 311, Tax Code.

(c) For purposes of this section, school district taxes for which credit is granted under Section 31.035, 31.036, or 31.037, Tax Code, are considered taxes collected by the school district as if the taxes were paid when the credit for the taxes was granted.

(d) For purposes of this section, the total amount of maintenance and operations taxes collected for an applicable school year by a school district with alternate tax dates, as authorized by Section 26.135, Tax Code, is the amount of taxes collected on or after January 1 of the year in which the school year begins and not later than December 31 of the same year.

(e) For purposes of this section, school district taxes for which credit is granted under former Subchapter D, Chapter 313, Tax Code,...
Code, are considered taxes collected by the school district as if
the taxes were paid when the credit for the taxes was granted.

(f) For a school year in which the dollar amount guaranteed
level of state and local funds per weighted student per cent of tax
effort ("GL") under Subsection (a-1)(2) exceeds the dollar amount
guaranteed level of state and local funds per weighted student per
cent of tax effort ("GL") under Subsection (a-1)(2) for the
preceding school year, a school district shall reduce the
district's tax rate under Section 45.0032(b)(2) for the tax year
that corresponds to that school year to a rate that results in the
amount of state and local funds per weighted student per cent of tax
effort available to the district at the dollar amount guaranteed
level for the preceding school year. A school district is not
entitled to the amount equal to the increase of revenue described by
this subsection for the school year for which the district must
reduce the district's tax rate. Unless Section 26.08(a-1), Tax
Code, applies to the district, for a tax year in which a district
must reduce the district's tax rate under this subsection, the
district may not increase the district's maintenance and operations
tax rate to a rate that exceeds the maximum maintenance and
operations tax rate permitted under Section 45.003(d) or (f), as
applicable, minus the reduction of tax effort required under this
subsection. This subsection does not apply if the amount of state
funds appropriated for a school year specifically excludes the
amount necessary to provide the dollar amount guaranteed level of
state and local funds per weighted student per cent of tax effort
under Subsection (a-1)(2) [If a school district imposes a
maintenance and operations tax at a rate greater than the rate equal
to the product of the state compression percentage, as determined
under Section 42.2516, multiplied by the maintenance and operations
tax rate adopted by the district for the 2005 tax year, the district
is entitled to receive an allotment under this section on the basis
of that greater tax effort).

(f-1) Notwithstanding Subsection (f), for the 2019-2020
school year, the reduction of a school district's tax rate required
under Subsection (f) applies to the district's total enrichment tax
rate under Section 45.0032(b) minus eight cents. This subsection
expires September 1, 2020.

Sec. 48.203. LIMITATION ON ENRICHMENT TAX RATE.
The district enrichment tax rate ("DTR") under Section 48.202
may not exceed the amount per $100 of valuation by which
the maximum rate permitted under Section 45.003 exceeds the rate
used to determine the district's local share under Section 48.256,
or a greater amount for any year provided by
appropriation.

Sec. 48.204. COMPUTATION OF AID FOR DISTRICT ON
MILITARY RESERVATION OR AT STATE SCHOOL. State assistance under
this subchapter for a school district located on a federal military
installation or at Moody State School is computed using the average
tax rate and property value per student of school districts in the
county, as determined by the commissioner.

SECTION 1.039. Chapter 48, Education Code, as added by this
Act, is amended by adding Subchapter F, and a heading is added to
that subchapter to read as follows:
SUBCHAPTER F. FINANCING THE PROGRAM

SECTION 1.040. Sections 42.251, 42.2511, 42.2514, 42.2515, 42.2516, and 42.252, Education Code, are transferred to Subchapter F, Chapter 48, Education Code, as added by this Act, redesignated as Sections 48.251, 48.252, 48.253, 48.254, 48.255, and 48.256, Education Code, and amended to read as follows:

Sec. 48.251. FINANCING; GENERAL RULE. (a) The cost of the Foundation School Program for a school district is the total sum of:

(1) the sum of the tier one allotments and other funding as follows:

(A) the basic allotment under Subchapter B;

(B) the student-based [special] allotments under Subchapter C; and

(C) the additional funding under Subchapter D;

and

(2) [computed in accordance with this chapter, constitute the tier one allotments. The sum of the tier one allotments and] the tier two allotment [guaranteed yield allotments] under Subchapter E.

(b) The sum of the Foundation School Program maintenance and operations costs for all accredited school districts in this state constitutes [computed in accordance with this chapter, constitute] the total maintenance and operations cost of the Foundation School Program.

(c) The program shall be financed by:

(1) state available school funds distributed in
accordance with the law [ad valorem tax revenue generated by an equalized uniform school district effort];

(2) ad valorem tax revenue generated by local school district effort [in excess of the equalized uniform school district effort]; and

(3) [state available school funds distributed in accordance with law; and

[44] state funds appropriated for the purposes of public school education and allocated to each district in an amount sufficient to finance the cost of each district's Foundation School Program not covered by other funds specified in this subsection.

Sec. 48.252 [42.2511]. SCHOOL DISTRICT ENTITLEMENT FOR CERTAIN STUDENTS. (a) This section applies only to:

(1) a school district and an open-enrollment charter school that enter into a contract to operate a district campus as provided by Section 11.174; and

(2) a charter granted by a school district for a program operated by an entity that has entered into a contract under Section 11.174, provided that the district does not appoint a majority of the governing body of the charter holder.

(b) Notwithstanding any other provision of this chapter or Chapter 49 [41], a school district subject to this section is entitled to receive for each student in average daily attendance at the campus described by Subsection (a) an amount equivalent to the difference, if the difference results in increased funding, between:

(1) the amount described by Section 12.106; and
H.B. No. 3

(2) the amount to which the district would be entitled under this chapter.

(c) The commissioner shall adopt rules as necessary to administer this section.

Sec. 48.253 [42.2514]. ADDITIONAL STATE AID FOR TAX INCREMENT FINANCING PAYMENTS. (a) For each school year, a school district, including a school district that is otherwise ineligible for state aid under this chapter, is entitled to state aid in an amount equal to the amount the district is required to pay into the tax increment fund for a reinvestment zone under Section 311.013(n), Tax Code.

(b) A school district shall provide to the agency any agreements, amendments to agreements, or other information required by the agency to implement this section.

Sec. 48.254 [42.2515]. ADDITIONAL STATE AID FOR AD VALOREM TAX CREDITS UNDER TEXAS ECONOMIC DEVELOPMENT ACT. (a) For each school year, a school district, including a school district that is otherwise ineligible for state aid under this chapter, is entitled to state aid in an amount equal to the amount of all tax credits credited against ad valorem taxes of the district in that year under former Subchapter D, Chapter 313, Tax Code.

[ (b) The commissioner may adopt rules to implement and administer this section. ]

Sec. 48.255 [42.2516]. STATE COMPRESSION PERCENTAGE. (a) In this title, "state compression percentage" means the percentage of the rate of $1.00 per $100 valuation of taxable property at which a school district must levy a [district's adopted] maintenance and
operations tax to receive the full amount of the tier one allotment
to which the district is entitled under this chapter.

(b) The tax rate for the 2005 tax year that serves as the
basis for state funding. If the state compression percentage is:

1. 93 percent; or
2. a lower percentage set by appropriation for a school year, the commissioner shall determine
the state compression percentage for each school year based on the percentage by which a district is able to reduce the district's
maintenance and operations tax rate for that year, as compared to
the district's adopted maintenance and operations tax rate for the
2005 tax year, as a result of state funds appropriated for that year
from the property tax relief fund established under Section
403.109, Government Code, or from another funding source available
for school district property tax relief.

(g) The commissioner may adopt rules necessary to
implement this section.

(h) A determination by the commissioner under this section
is final and may not be appealed.

Sec. 48.256. LOCAL SHARE OF PROGRAM COST (TIER
ONE). (a) Each school district's share of the Foundation School
Program is determined by the following formula:

\[ LFA = TR \times DPV \]

where:

"LFA" is the school district's local share;

"TR" is the school district's adopted tier one maintenance
and operations [a] tax rate, as described by Section 45.0032(a)
H.B. No. 3

[which] for each hundred dollars of valuation [is an effective tax rate of the amount equal to the product of the state compression percentage, as determined under Section 42.2516, multiplied by the lesser of:

[(1) $1.50; or
[(2) the maintenance and operations tax rate adopted by the district for the 2005 tax year]; and

"DPV" is the taxable value of property in the school district for the current [preceding] tax year determined under Subchapter M, Chapter 403, Government Code.

[(a-1) Notwithstanding Subsection (a), for a school district that adopted a maintenance and operations tax rate for the 2005 tax year below the maximum rate permitted by law for that year, the district's tax rate ("TR") includes the tax effort included in calculating the district's compressed tax rate under Section 42.101(a-1).]

(b) The commissioner shall adjust the values reported by [in the official report of] the comptroller [as required by Section 5.09(a), Tax Code] to reflect reductions in taxable value of property resulting from natural or economic disaster [after January 1] in the year in which the valuations are determined. The decision of the commissioner is final. An adjustment does not affect the local fund assignment of any other school district.

(c) Appeals of district values shall be held pursuant to Section 403.303, Government Code.

(d) This subsection applies to a school district in which the board of trustees entered into a written agreement with a
property owner under Section 313.027, Tax Code, for the implementation of a limitation on appraised value under Subchapter B or C, Chapter 313, Tax Code. For purposes of determining "DPV" under Subsection (a) for a school district to which this subsection applies, the commissioner shall exclude a portion of the market value of property not otherwise fully taxable by the district under Subchapter B or C, Chapter 313, Tax Code, before the expiration of the subchapter. The comptroller shall provide information to the agency necessary for this subsection. A revenue protection payment required as part of an agreement for a limitation on appraised value shall be based on the district's taxable value of property for the preceding tax year.

(e) Subsection (d) does not apply to property that was the subject of an application under Subchapter B or C, Chapter 313, Tax Code, made after May 1, 2009, that the comptroller recommended should be disapproved. [A school district must raise its total local share of the Foundation School Program to be eligible to receive foundation school fund payments.]

SECTION 1.041. Subchapter F, Chapter 48, Education Code, as added by this Act, is amended by adding Section 48.257 to read as follows:

Sec. 48.257. LOCAL REVENUE LEVEL IN EXCESS OF ENTITLEMENT. (a) Subject to Subsection (b), if a school district's tier one local share under Section 48.256 exceeds the district's entitlement under Section 48.266(a)(1) less the district's distribution from the state available school fund, the district must reduce the district's tier one revenue level in accordance with Chapter 49 to a
level not to exceed the district's entitlement under Section 48.266(a)(1) less the district's distribution from the state available school fund.

(b) This subsection applies only to a school district to which Subsection (a) applies. If a district's maintenance and operations tax collections from the tax rate described by Section 45.0032(a) for the current tax year minus the required reduction in a district's tier one revenue level under Subsection (a) results in an amount that is less than the amount of the district's entitlement under Section 48.266(a)(1) less the district's distribution from the state available school fund, the agency shall adjust the amount of the reduction required in the district's tier one revenue level under Subsection (a) up to the amount of local funds necessary for the district's entitlement under Section 48.266(a)(1) less the district's distribution from the state available school fund.

(c) For purposes of Subsection (a), state aid to which a district is entitled under this chapter that is not described by Section 48.266(a)(1), (2), or (3) may offset the amount by which a district must reduce the district's tier one revenue level under Subsection (a). Any amount of state aid used as an offset under this subsection shall reduce the amount of state aid to which the district is entitled.

(d) Except as provided by Subsection (e), a school district is entitled to retain the total amount of the district's tier two local share described by Section 48.266(a)(5)(A).

(e) In any school year for which the amount of state funds appropriated specifically excludes the amount necessary to provide
the dollar amount guaranteed level of state and local funds per
weighted student per cent of tax effort under Section
48.202(a-1)(1), a district may only retain the amount of the
district's tier two local share described by Section
48.266(a)(5)(A) equal to the amount of revenue that would be
generated based on the amount appropriated for the dollar amount
guaranteed level of state and local funds.

(f) If the amount of a school district's tier two local
share described by Section 48.266(a)(5)(B) to which a district is
entitled exceeds the amount described by Section 48.202(a-1)(2),
the district must reduce the district's revenue in accordance with
Chapter 49 to a level not to exceed the amount described by Section

(g) For a district to which Section 45.003(f) applies,
revenue generated from any cents of maintenance and operations tax
effort that exceeds the maximum rate permitted under Section
45.003(d) is subject to the revenue limit established under
Subsection (f).

SECTION 1.042. Sections 42.2521, 42.2522, 42.2523,
42.2524, 42.2525, 42.2526, 42.2527, 42.2528, 42.253, 42.2531,
42.2532, 42.254, 42.255, 42.257, 42.258, 42.259, 42.2591, and
42.260, Education Code, are transferred to Subchapter F, Chapter
48, Education Code, as added by this Act, redesignated as Sections
48.258, 48.259, 48.260, 48.261, 48.262, 48.263, 48.264, 48.265,
48.266, 48.267, 48.268, 48.269, 48.270, 48.271, 48.272, 48.273,
48.274, and 48.275, Education Code, and amended to read as follows:

Sec. 48.258 [42.2521]. ADJUSTMENT FOR RAPID DECLINE IN
TAXABLE VALUE OF PROPERTY. (a) For purposes of Chapters 41 and 46 and this chapter, and to the extent money specifically authorized to be used under this section is available, the commissioner shall adjust the taxable value of property in a school district that, due to factors beyond the control of the board of trustees, experiences a rapid decline in the tax base used in calculating taxable values in excess of four percent of the tax base used in the preceding year.

(b) To the extent that a sufficient amount of money is not available to fund all adjustments under this section, the commissioner shall reduce adjustments in the manner provided by Section 48.266(f) so that the total amount of adjustments equals the amount of money available to fund the adjustments.

(c) A decision of the commissioner under this section is final and may not be appealed.

Sec. 48.259. ADJUSTMENT FOR OPTIONAL HOMESTEAD EXEMPTION. (a) In any school year, the commissioner may not provide funding under this chapter or Chapter 46 based on a school district's taxable value of property computed in accordance with Section 403.302(d)(2), Government Code, unless:

(1) funds are specifically appropriated for purposes of this section; or

(2) the commissioner determines that the total amount of state funds appropriated for purposes of the Foundation School Program for the school year exceeds the amount of state funds distributed to school districts in accordance with Section 48.266
based on the taxable values of property in school districts computed in accordance with Section 403.302(d), Government Code, without any deduction for residence homestead exemptions granted under Section 11.13(n), Tax Code.

(b) In making a determination under Subsection (a)(2), the commissioner shall:

(1) notwithstanding Section 48.266(b), reduce the entitlement under this chapter of a school district whose final taxable value of property is higher than the estimate under Section 48.269 and make payments to school districts accordingly; and

(2) give priority to school districts that, due to factors beyond the control of the board of trustees, experience a rapid decline in the tax base used in calculating taxable values in excess of four percent of the tax base used in the preceding year.

(c) In the first year of a state fiscal biennium, before providing funding as provided by Subsection (a)(2), the commissioner shall ensure that sufficient appropriated funds for purposes of the Foundation School Program are available for the second year of the biennium, including funds to be used for purposes of Section 48.258.

(d) If the commissioner determines that the amount of funds available under Subsection (a)(1) or (2) does not at least equal the total amount of state funding to which districts would be entitled if state funding under this chapter were based on the taxable values of property in school districts computed in accordance with Section 403.302(d)(2), Government Code, the commissioner may, to the extent
necessary, provide state funding based on a uniform lesser fraction
of the deduction under Section 403.302(d)(2), Government Code.

(e) The commissioner shall notify school districts as soon
as practicable as to the availability of funds under this section.
For purposes of computing a rollback tax rate under Section 26.08,
Tax Code, a district shall adjust the district's tax rate limit to
reflect assistance received under this section.

Sec. 48.260 [42.2523]. ADJUSTMENT FOR PROPERTY VALUE
AFFECTED BY STATE OF DISASTER. (a) For purposes of Chapters [41
and 49] 46 and 49 and this chapter, the commissioner shall adjust the
taxable value of property of a school district all or part of which
is located in an area declared a disaster area by the governor under
Chapter 418, Government Code, as necessary to ensure that the
district receives funding based as soon as possible on property
values as affected by the disaster.
(b) The commissioner may fund adjustments under this
section using funds specifically appropriated for the purpose or
other funds available to the commissioner for that purpose.
(c) [41] A decision of the commissioner under this section
is final and may not be appealed.

Sec. 48.261 [42.2524]. REIMBURSEMENT FOR DISASTER
REMEDIATION COSTS. (a) This section applies only to a school
district all or part of which is located in an area declared a
disaster area by the governor under Chapter 418, Government Code,
and that incurs disaster remediation costs as a result of the
disaster.
(b) During the two-year period following the date of the

86R36799 MEW/KJE/CJC/TSR-D  96
governor's initial proclamation or executive order declaring a state of disaster, a district may apply to the commissioner for reimbursement of disaster remediation costs that the district pays during that period and does not anticipate recovering through insurance proceeds, federal disaster relief payments, or another similar source of reimbursement.

(c) The commissioner may provide reimbursement under this section only if funds are available for that purpose from:

(1) reimbursement for a school district not required to take action under Chapter 41 may be provided from:

(A) amounts appropriated for that purpose, including amounts appropriated for school districts for that purpose to the disaster contingency fund established under Section 418.073, Government Code; or

(B) Foundation School Program funds available for that purpose, based on a determination by the commissioner that the amount appropriated for the Foundation School Program, including the facilities component as provided by Chapter 46, exceeds the amount to which districts are entitled under this chapter and Chapter 46;

(2) reimbursement for a school district required to take action under Chapter 41 may be provided from funds described by Subdivision (1)(B) if funds remain available after fully reimbursing each school district described by Subdivision (1) for its disaster remediation costs.

(d) If the amount of money available for purposes of...
reimbursing school districts not required to take action under Chapter 41 is not sufficient to fully reimburse each district's disaster remediation costs, the commissioner shall reduce the amount of assistance provided to each of those districts proportionately. If the amount of money available for purposes of reimbursing school districts required to take action under Chapter 41 is not sufficient to fully reimburse each district's disaster remediation costs, the commissioner shall reduce the amount of assistance provided to each of those districts proportionately.

[(e) A district seeking reimbursement under this section must provide the commissioner with adequate documentation of the costs for which the district seeks reimbursement.

(e) AA district required to take action under Chapter 41:

(1) AA may, at its discretion, receive assistance provided under this section either as a payment of state aid under this chapter or as a reduction in the total amount required to be paid by the district for attendance credits under Section 41.093; and

(2) AA may not obtain reimbursement under this section for the payment of any disaster remediation costs that resulted in a reduction under Section 41.093 of the district's cost of attendance credits.

[(h) The commissioner shall adopt rules necessary to implement this section, including rules:

(1) defining "disaster remediation costs" for purposes of this section, which must include the cost to repair or
(2) specifying the type of documentation required under Subsection (d).

(f) Notwithstanding any other provision of this section, the commissioner may permit a district to use amounts provided to a district under this section to pay the costs of replacing a facility instead of repairing the facility. The commissioner shall ensure that a district that elects to replace a facility does not receive an amount under this section that exceeds the lesser of:

(1) the amount that would be provided to the district if the facility were repaired; or

(2) the amount necessary to replace the facility.

(g) This section does not require the commissioner to provide any requested reimbursement. A decision of the commissioner regarding reimbursement is final and may not be appealed.

Sec. 48.262. ADJUSTMENTS FOR CERTAIN DISTRICTS RECEIVING FEDERAL IMPACT AID. The commissioner is granted the authority to ensure that school districts receiving federal impact aid due to the presence of a military installation or significant concentrations of military students do not receive more than an eight percent reduction should the federal government reduce appropriations to those schools.

Sec. 48.263. ADJUSTMENT FOR DISTRICT OPERATING PILOT PROGRAM. (a) This section applies only to a school district operating a pilot program authorized by Section 28.0255.
(b) Beginning with the first school year that follows the first school year in which students receive high school diplomas under the pilot program authorized by Section 28.0255 and continuing for every subsequent school year that the district operates the pilot program, the commissioner shall provide funding for the district's prekindergarten program under Section 29.153 on a full-day basis for a number of prekindergarten students equal to twice the number of students who received a high school diploma under the pilot program authorized by Section 28.0255 during the preceding school year.

(c) This section expires September 1, 2023.

Sec. 48.264. ADJUSTMENT FOR CERTAIN DISTRICTS WITH EARLY HIGH SCHOOL GRADUATION PROGRAMS. (a) As a pilot program to enable the state to evaluate the benefit of providing additional funding at the prekindergarten level for low-income students, the commissioner shall provide prekindergarten funding in accordance with this section to a school district located in a county that borders the United Mexican States and the Gulf of Mexico.

(b) The commissioner shall provide funding for a school district's prekindergarten program on a half-day basis for a number of low-income prekindergarten students equal to twice the number of students who received, as a result of participation in an early high school graduation program operated by the district, a high school diploma from the district during the preceding school year after three years of secondary school attendance.

(c) The commissioner may adopt rules necessary to implement this section.
(d) This section expires September 1, 2023.

Sec. 48.265 [42.2528]. EXCESS FUNDS FOR VIDEO SURVEILLANCE OF SPECIAL EDUCATION SETTINGS. (a) Notwithstanding any other provision of law, if the commissioner determines that the amount appropriated for the purposes of the Foundation School Program exceeds the amount to which school districts are entitled under this chapter, the commissioner by rule shall establish a grant program through which excess funds are awarded as grants for the purchase of video equipment, or for the reimbursement of costs for previously purchased video equipment, used for monitoring special education classrooms or other special education settings required under Section 29.022.

(b) In awarding grants under this section, the commissioner shall give highest priority to districts with maintenance and operations tax rates at the greatest rates permitted by law. The commissioner shall also give priority to:

(1) districts with maintenance and operations tax rates at least equal to the state maximum compressed tax rate, as defined by Section 48.051(a) [42.101(a)], and lowest amounts of maintenance and operations tax revenue per weighted student; and

(2) districts with debt service tax rates near or equal to the greatest rates permitted by law.

(c) The commissioner may adopt rules to implement and administer this section.

Sec. 48.266 [42.253]. DISTRIBUTION OF FOUNDATION SCHOOL FUND. (a) For each school year the commissioner shall determine:

(1) the amount of money to which a school district is
entitled under Subchapters B, C, and D;

(2) the amount of money to which a school district is entitled under Subchapter E;

(3) the amount of money allocated to the district from the available school fund;

(4) the amount of each district's tier one local share under Section 48.256; and

(5) the amount of each district's tier two local share under Section 48.202 for:

(A) the district's maintenance and operations tax effort described by Section 48.202(a-1)(1); and

(B) the district's maintenance and operations tax effort described by Section 48.202(a-1)(2).

(b) Except as provided by this subsection, the commissioner shall base the determinations under Subsection (a) on the estimates provided to the legislature under Section 48.269, or, if the General Appropriations Act provides estimates for that purpose, on the estimates provided under that Act, for each school district for each school year. The commissioner shall reduce the entitlement of each district that has a final taxable value of property for the second year of a state fiscal biennium that is higher than the estimate under Section 48.269 or the General Appropriations Act, as applicable. A reduction under this subsection may not reduce the district's entitlement below the amount to which it is entitled at its actual taxable value of property.

(c) Each school district is entitled to an amount equal to
the difference for that district between the sum of Subsections (a)(1) and (a)(2) and the sum of Subsections (a)(3), (a)(4), and (a)(5).

(d) The commissioner shall approve warrants to each school district equaling the amount of its entitlement except as provided by this section. Warrants for all money expended according to this chapter shall be approved and transmitted to treasurers or depositaries of school districts in the same manner that warrants for state payments are transmitted. The total amount of the warrants issued under this section may not exceed the total amount appropriated for Foundation School Program purposes for that fiscal year.

(e) If a school district demonstrates to the satisfaction of the commissioner that the estimate of the district's tax rate, student enrollment, or taxable value of property used in determining the amount of state funds to which the district is entitled are so inaccurate as to result in undue financial hardship to the district, the commissioner may adjust funding to that district in that school year to the extent that funds are available for that year.

(f) If the amount appropriated for the Foundation School Program for the second year of a state fiscal biennium is less than the amount to which school districts and open-enrollment charter schools are entitled for that year, the commissioner shall certify the amount of the difference to the Legislative Budget Board not later than January 1 of the second year of the state fiscal biennium. The Legislative Budget Board shall propose to the
legislature that the certified amount be transferred to the
foundation school fund from the economic stabilization fund and
appropriated for the purpose of increases in allocations under this
subsection. If the legislature fails during the regular session to
enact the proposed transfer and appropriation and there are not
funds available under Subsection (h), the commissioner shall
adjust the total amounts due to each school district and
open-enrollment charter school under this chapter and the total
amounts necessary for each school district to comply with the
requirements of Chapter 49 by an amount determined by applying
to each district and school the same percentage adjustment to the
total amount of state and local revenue due to the district or
school under this chapter and Chapter 49 so that the total
amount of the adjustment to all districts and schools results in an
amount equal to the total adjustment necessary. The following
fiscal year:

(1) a district's or school's entitlement under this
section is increased by an amount equal to the adjustment made
under this subsection; and

(2) the amount necessary for a district to comply with
the requirements of Chapter 49 is reduced by an amount
necessary to ensure a district's full recovery of the adjustment
made under this subsection.

(g) Not later than March 1 each year, the commissioner
shall determine the actual amount of state funds to which each
school district is entitled under the allocation formulas in this
chapter for the current school year and shall compare that amount
with the amount of the warrants issued to each district for that
year. If the amount of the warrants differs from the amount to
which a district is entitled because of variations in the
district's tax rate, student enrollment, or taxable value of
property, the commissioner shall adjust the district's entitlement
for the next fiscal year accordingly.

(h) [441] The legislature may appropriate funds necessary
for increases under Subsection (g) [441] from funds that the
comptroller, at any time during the fiscal year, finds are
available.

(i) [441] The commissioner shall compute for each school
district the total amount by which the district's allocation of
state funds is increased or reduced under Subsection (g) [441] and
shall certify that amount to the district.

Sec. 48.267 [42.2531]. ADJUSTMENT BY COMMISSIONER. (a)
The commissioner may make adjustments to amounts due to a school
district under this chapter or Chapter 46, or to amounts necessary
for a district to comply with the requirements of Chapter 49 [44],
as provided by this section.

(b) A school district that has a major taxpayer, as
determined by the commissioner, that because of a protest of the
valuation of the taxpayer's property fails to pay all or a portion
of the ad valorem taxes due to the district may apply to the
commissioner to have the district's taxable value of property or ad
valorem tax collections adjusted for purposes of this chapter or
Chapter [41 or] 46 or 49. The commissioner may make the adjustment
only to the extent the commissioner determines that making the
adjustment will not:

1. in the fiscal year in which the adjustment is made, cause the amount to which school districts are entitled under this chapter to exceed the amount appropriated for purposes of the Foundation School Program for that year; and

2. if the adjustment is made in the first year of a state fiscal biennium, cause the amount to which school districts are entitled under this chapter for the second year of the biennium to exceed the amount appropriated for purposes of the Foundation School Program for that year.

(c) The commissioner shall recover the benefit of any adjustment made under this section by making offsetting adjustments in the school district's taxable value of property or ad valorem tax collections for purposes of this chapter or Chapter 46 on a final determination of the taxable value of property that was the basis of the original adjustment, or in the second school year following the year in which the adjustment is made, whichever is earlier.

(d) This section does not require the commissioner to make any requested adjustment. A determination by the commissioner under this section is final and may not be appealed.

Sec. 48.268 [42.2532]. ADJUSTMENT FOR RESOLUTION OF DISPUTE OR ERROR RESULTING IN TAXATION OF SAME PROPERTY BY MULTIPLE SCHOOL DISTRICTS. The commissioner shall adjust the amounts due to a school district under this chapter and Chapter 46 as necessary to account for the resolution of a dispute or error involving the district and another district by an agreement between the districts
Sec. 48.269 [42.254]. ESTIMATES REQUIRED. (a) Not later than October 1 of each even-numbered year:
(1) the agency shall submit to the legislature an estimate of the tax rate and student enrollment of each school district for the following biennium; and
(2) the comptroller shall submit to the legislature an estimate of the total taxable value of all property in the state as determined under Subchapter M, Chapter 403, Government Code, for the following biennium.

(b) The agency and the comptroller shall update the information provided to the legislature under Subsection (a) not later than March 1 of each odd-numbered year.

Sec. 48.270 [42.255]. FALSIFICATION OF RECORDS; REPORT. When, in the opinion of the agency's director of school audits, audits or reviews of accounting, enrollment, or other records of a school district reveal deliberate falsification of the records, or violation of the provisions of this chapter, through which the district's share of state funds allocated under the authority of this chapter would be, or has been, illegally increased, the director shall promptly and fully report the fact to the State Board of Education, the state auditor, and the appropriate county attorney, district attorney, or criminal district attorney.

Sec. 48.271 [42.252]. EFFECT OF APPEAISAL APPEAL. (a) If the final determination of an appeal under Chapter 42, Tax Code,
results in a reduction in the taxable value of property that exceeds five percent of the total taxable value of property in the school district for the same tax year determined under Subchapter M, Chapter 403, Government Code, the commissioner shall request the comptroller to adjust its taxable property value findings for that year consistent with the final determination of the appraisal appeal.

(b) If the district would have received a greater amount from the foundation school fund for the applicable school year using the adjusted value, the commissioner shall add the difference to subsequent distributions to the district from the foundation school fund. An adjustment does not affect the local fund assignment of any other district.

(c) In addition to the funding provided under Subsection (b), a school district is entitled to reimbursement for the amount of interest included in a refund made by the district under Section 42.43, Tax Code, in the state fiscal year ending August 31, 2018, or August 31, 2019. This subsection expires September 1, 2021.

Sec. 48.272. RECOVERY OF OVERALLOCATED FUNDS.
(a) If a school district has received an overallocation of state funds, the agency shall, by withholding from subsequent allocations of state funds for the current or subsequent school year or by requesting and obtaining a refund, recover from the district an amount equal to the overallocation.

(b) Notwithstanding Subsection (a), the agency may recover an overallocation of state funds over a period not to exceed the subsequent five school years if the commissioner determines
that the overallocation was the result of exceptional circumstances
reasonably caused by statutory changes to Chapter [41 or 46 or 49
or this chapter and related reporting requirements.
(c) If a district fails to comply with a request for a refund under Subsection (a), the agency shall certify to the comptroller that the amount constitutes a debt for purposes of Section 403.055, Government Code. The agency shall provide to the comptroller the amount of the overallocation and any other information required by the comptroller. The comptroller may certify the amount of the debt to the attorney general for collection.
(d) Any amounts recovered under this section shall be deposited in the foundation school fund.
(e) Subject to Subsection (f), the agency may review a school district as necessary to determine if the district qualifies for each allotment received by the district under this chapter. If the agency determines that a school district received an allotment to which the district was not entitled, the agency may establish a corrective action plan or withhold the applicable amount of funding from the district.
(f) The agency may not review school district expenditures that occurred seven or more years before the review.

Sec. 48.273 [42.259]. FOUNDATION SCHOOL FUND TRANSFERS.
(a) In this section:
(1) "Category 1 school district" means a school district having a wealth per student of less than one-half of the statewide average wealth per student.
(2) "Category 2 school district" means a school district having a wealth per student of at least one-half of the statewide average wealth per student but not more than the statewide average wealth per student.

(3) "Category 3 school district" means a school district having a wealth per student of more than the statewide average wealth per student.

(4) "Wealth per student" means the taxable property values reported by the comptroller to the commissioner under Section 48.256 (42.252) divided by the number of students in average daily attendance.

(b) Payments from the foundation school fund to each category 1 school district shall be made as follows:

(1) 15 percent of the yearly entitlement of the district shall be paid in an installment to be made on or before the 25th day of September of a fiscal year;

(2) 80 percent of the yearly entitlement of the district shall be paid in eight equal installments to be made on or before the 25th day of October, November, December, January, March, May, June, and July; and

(3) five percent of the yearly entitlement of the district shall be paid in an installment to be made on or before the 25th day of February.

(c) Payments from the foundation school fund to each category 2 school district shall be made as follows:

(1) 22 percent of the yearly entitlement of the district shall be paid in an installment to be made on or before the
25th day of September of a fiscal year;

(2) 18 percent of the yearly entitlement of the district shall be paid in an installment to be made on or before the 25th day of October;

(3) 9.5 percent of the yearly entitlement of the district shall be paid in an installment to be made on or before the 25th day of November;

(4) 7.5 percent of the yearly entitlement of the district shall be paid in an installment to be made on or before the 25th day of April;

(5) five percent of the yearly entitlement of the district shall be paid in an installment to be made on or before the 25th day of May;

(6) 10 percent of the yearly entitlement of the district shall be paid in an installment to be made on or before the 25th day of June;

(7) 13 percent of the yearly entitlement of the district shall be paid in an installment to be made on or before the 25th day of July; and

(8) 15 percent of the yearly entitlement of the district shall be paid in an installment to be made on or before the 25th day of August.

(d) Payments from the foundation school fund to each category 3 school district shall be made as follows:

(1) 45 percent of the yearly entitlement of the district shall be paid in an installment to be made on or before the 25th day of September of a fiscal year;
(2) 35 percent of the yearly entitlement of the district shall be paid in an installment to be made on or before the 25th day of October; and

(3) 20 percent of the yearly entitlement of the district shall be paid in an installment to be made on or before the 25th day of August.

(e) The amount of any installment required by this section may be modified to provide a school district with the proper amount to which the district may be entitled by law and to correct errors in the allocation or distribution of funds. If an installment under this section is required to be equal to other installments, the amount of other installments may be adjusted to provide for that equality. A payment under this section is not invalid because it is not equal to other installments.

(f) Previously unpaid additional funds from prior fiscal years owed to a district shall be paid to the district together with the September payment of the current fiscal year entitlement.

(g) The commissioner shall make all annual Foundation School Program payments under this section for purposes described by Sections 45.252(a)(1) and (2) before the deadline established under Section 45.263(b) for payment of debt service on bonds. Notwithstanding any other provision of this section, the commissioner may make Foundation School Program payments under this section after the deadline established under Section 45.263(b) only if the commissioner has not received notice under Section 45.258 concerning a district's failure or inability to pay matured principal or interest on bonds.
Sec. 48.274. FOUNDATION SCHOOL FUND TRANSFERS TO CERTAIN CHARTER SCHOOLS. (a) On the request of an open-enrollment charter school, the commissioner shall compare the student enrollment of the open-enrollment charter school for the current school year to the student enrollment of the school during the preceding school year. If the number of students enrolled at the open-enrollment charter school for the current school year has increased by 10 percent or more from the number of students enrolled during the preceding school year, the open-enrollment charter school may request that payments from the foundation school fund to the school for the following school year and each subsequent school year, subject to Subsection (b), be made according to the schedule provided under Subsection (c).

(b) An open-enrollment charter school that qualifies to receive funding as provided by this section is entitled to receive funding in that manner for three school years. On the expiration of that period, the commissioner shall determine the eligibility of the open-enrollment charter school to continue receiving payments from the foundation school fund under this section for an additional three school years. Subsequently, the open-enrollment charter school must reestablish eligibility in the manner provided by this subsection every three school years.

(c) Payments from the foundation school fund to an open-enrollment charter school under this section shall be made as follows:

(1) 22 percent of the yearly entitlement of the school shall be paid in an installment to be made on or before the 25th day
of September of a fiscal year;

(2) 18 percent of the yearly entitlement of the school shall be paid in an installment to be made on or before the 25th day of October;

(3) 9.5 percent of the yearly entitlement of the school shall be paid in an installment to be made on or before the 25th day of November;

(4) four percent of the yearly entitlement of the school shall be paid in an installment to be made on or before the 25th day of December;

(5) four percent of the yearly entitlement of the school shall be paid in an installment to be made on or before the 25th day of January;

(6) four percent of the yearly entitlement of the school shall be paid in an installment to be made on or before the 25th day of February;

(7) four percent of the yearly entitlement of the school shall be paid in an installment to be made on or before the 25th day of March;

(8) 7.5 percent of the yearly entitlement of the school shall be paid in an installment to be made on or before the 25th day of April;

(9) five percent of the yearly entitlement of the school shall be paid in an installment to be made on or before the 25th day of May;

(10) seven percent of the yearly entitlement of the school shall be paid in an installment to be made on or before the
25th day of June;

(11) seven percent of the yearly entitlement of the school shall be paid in an installment to be made on or before the 25th day of July; and

(12) eight percent of the yearly entitlement of the school shall be paid in an installment to be made on or before the 25th day of August.

(d) The amount of any installment required by this section may be modified to provide an open-enrollment charter school with the proper amount to which the school may be entitled by law and to correct errors in the allocation or distribution of funds.

(e) Previously unpaid additional funds from prior fiscal years owed to an open-enrollment charter school shall be paid to the school together with the September payment of the current fiscal year entitlement.

Sec. 48.275. USE OF CERTAIN FUNDS. (a) In this section, "participating charter school" means an open-enrollment charter school that participates in the uniform group coverage program established under Chapter 1579, Insurance Code.

(b) The amount of additional funds to which each school district or participating charter school is entitled due to the increases in formula funding made by H.B. No. 3343, Acts of the 77th Legislature, Regular Session, 2001, and any subsequent legislation amending the provisions amended by that Act that increase formula funding under Chapter 49 and this chapter to school districts and charter schools is available for purposes of Subsection (c).

(c) Notwithstanding any other provision of this code, a
school district or participating charter school may use the sum of the following amounts of funds only to pay contributions under a group health coverage plan for district or school employees:

(1) the amount determined by multiplying the amount of $900 or the amount specified in the General Appropriations Act for that year for purposes of the state contribution under Section 1579.251, Insurance Code, by the number of district or school employees who participate in a group health coverage plan provided by or through the district or school; and

(2) the difference between the amount necessary for the district or school to comply with Section 1581.052, Insurance Code, for the school year and the amount the district or school is required to use to provide health coverage under Section 1581.051, Insurance Code, for that year.

(d) A determination by the commissioner under this section is final and may not be appealed.

[(e) The commissioner may adopt rules to implement this section.]
current school year from the lesser of:

(1) 103 percent of the district's or school's total maintenance and operations revenue per student in average daily attendance for the 2019-2020 school year that the district or school would have received under former Chapters 41 and 42, as those chapters existed on January 1, 2019; or

(2) 128 percent of the statewide average amount of maintenance and operations revenue per student in average daily attendance that would have been provided for the 2019-2020 school year under former Chapters 41 and 42, as those chapters existed on January 1, 2019.

(b) For purposes of calculating maintenance and operations revenue under Subsection (a), the commissioner shall:

(1) for purposes of Subsections (a)(1) and (2), use the following applicable school year:

(A) in a school year ending in an even-numbered year, the 2019-2020 school year; and

(B) in a school year ending in an odd-numbered year, the 2019-2020 or 2020-2021 school year, whichever is greater;

(2) include all state and local funding, except for any funding resulting from:

(A) reimbursement for disaster remediation costs under former Sections 41.0931 and 42.2524;

(B) an adjustment for rapid decline in taxable value of property under former Section 42.2521; and

(C) an adjustment for property value affected by a state of disaster under former Section 42.2523;
(3) adjust the calculation to reflect a reduction in tax effort by a school district; and

(4) if a school district or open-enrollment charter school receives a waiver relating to eligibility requirements for the national free or reduced-price lunch program under 42 U.S.C. Section 1751 et seq., use the numbers of educationally disadvantaged students on which the district's or school's entitlement to compensatory education funds was based for the school year before the school year in which the district or school received the waiver, adjusted for estimated enrollment growth.

(c) A decision by the commissioner under this section is final and may not be appealed.

(d) A school district or open-enrollment charter school is not entitled to an allotment under Subsection (a) beginning with the 2024-2025 school year.

(d-1) Subject to Subsection (d-2), a school district or open-enrollment charter school is entitled to receive an annual allotment for each student in average daily attendance in the amount equal to the difference, if the difference is greater than zero, that results from subtracting the total maintenance and operations revenue per student in average daily attendance for the current school year from the total maintenance and operations revenue per student in average daily attendance that would have been available to the district or school under former Chapters 41 and 42, as those chapters existed on January 1, 2019. For purposes of calculating a district's maintenance and operations revenue under this subsection, the commissioner shall:
apply Subsection (b); and

in calculating a district's maintenance and operations revenue under former Chapters 41 and 42, as those chapters existed on January 1, 2019, exclude any additional revenue the district would have received under former Sections 41.002(e) through (g), as those sections existed on January 1, 2019.

(d-2) A school district or open-enrollment charter school may only receive an allotment under Subsection (a) or (d-1), whichever is greater, but not both.

(d-3) Subsections (d-1) and (d-2) and this subsection expire September 1, 2021.

(e) This section expires September 1, 2025.

Sec. 48.278. EQUALIZED WEALTH TRANSITION GRANT. (a) Subject to Subsection (b), a school district is entitled to receive an annual allotment in an amount equal to the amount of additional revenue a school district received for the 2018-2019 school year under former Sections 41.002(e) through (g), as those sections existed on January 1, 2019.

(b) For purposes of calculating a district's allotment under Subsection (a), the commissioner shall reduce the amount to which a district is entitled under Subsection (a) by:

(1) for the 2020-2021 school year, 20 percent;

(2) for the 2021-2022 school year, 40 percent;

(3) for the 2022-2023 school year, 60 percent; and

(4) for the 2023-2024 school year, 80 percent.

(c) This section expires September 1, 2024.

Sec. 48.279. MAINTENANCE OF STATE FINANCIAL SUPPORT FOR
SPECIAL EDUCATION. (a) Funds appropriated for purposes of this section or transferred in accordance with this section are state funds for purposes of compliance with the requirements regarding maintenance of state financial support for special education under 20 U.S.C. Section 1412(a)(18). The commissioner shall identify the amount of funding described by this subsection and separate that amount from other funding provided under this chapter.

(b) If the commissioner determines that the total amount of funding for special education for a school year that ends during the first state fiscal year of a state fiscal biennium is less than the amount required to comply with requirements regarding maintenance of state financial support under 20 U.S.C. Section 1412(a)(18), the commissioner shall use funds appropriated for the Foundation School Program for the second state fiscal year of that biennium to increase funding for special education for the first state fiscal year of that biennium in an amount necessary to ensure compliance with that provision.

(c) If the commissioner determines that the total amount of funding for special education for a school year that ends during the second state fiscal year of a state fiscal biennium is less than the amount required to comply with requirements regarding maintenance of state financial support under 20 U.S.C. Section 1412(a)(18), the commissioner shall submit to the legislature an estimate of the amount of funding needed to comply with that provision for that state fiscal year.

(d) If federal funds are withheld for a school year due to noncompliance with requirements regarding maintenance of state
financial support under 20 U.S.C. Section 1412(a)(18), the commissioner shall use for that school year an amount of funds described by Subsection (a) equal to the amount of withheld funds in the same manner and for the same purposes as the withheld funds would have been provided.

(e) After the commissioner has replaced any withheld federal funds as provided by Subsection (d), the commissioner shall distribute the remaining amount, if any, of funds described by Subsection (a) to proportionately increase funding for the special education allotment under Section 48.102.

(f) In complying with Subsection (d), the commissioner may implement any program necessary to ensure the use of funds in accordance with that subsection.

SECTION 1.044. Chapter 48, Education Code, as added by this Act, is amended by adding Subchapter G, and a heading is added to that subchapter to read as follows:

SUBCHAPTER G. MISCELLANEOUS PROVISIONS

SECTION 1.045. Section 42.4101, Education Code, is transferred to Subchapter G, Chapter 48, Education Code, as added by this Act, redesignated as Section 48.301, Education Code, and amended to read as follows:

Sec. 48.301 [42.4101]. ADDITIONAL ASSISTANCE FOR DISTRICTS WITH STUDENTS USING PUBLIC EDUCATION GRANTS. (a) A district is entitled to additional assistance under this section as provided by Section 29.203(c).

(b) The amount of additional assistance under this section is computed by subtracting the number of students residing in the
district and using public education grants to attend school in
another district for the year in which the assistance is granted
from the number of students using public education grants to attend
school in the district for that year and multiplying the difference
by $266.

[(c) If a district to which this section applies is entitled
to the maximum amount of assistance under Section 42.406, the
maximum is increased by the amount of additional assistance to
which the district is entitled under this section.]

SECTION 1.046. Subchapter G, Chapter 48, Education Code, as
added by this Act, is amended by adding Section 48.302 to read as
follows:

Sec. 48.302. SUBSIDY FOR HIGH SCHOOL EQUIVALENCY
EXAMINATION FOR CERTAIN INDIVIDUALS. (a) In this section,
"commission" means the Texas Workforce Commission.

(b) The agency shall enter into a memorandum of
understanding with the commission for the agency to transfer to the
commission funds specifically appropriated to the agency for the
commission to provide to an individual who is 21 years of age or
older a subsidy in an amount equal to the cost of taking one high
school equivalency examination administered under Section 7.111.

(c) The commission shall adopt rules to implement the
subsidy program described by Subsection (b), including rules
regarding eligibility requirements.

SECTION 1.047. Subtitle I, Title 2, Education Code, is
amended by adding Chapter 49, and a heading is added to that chapter
to read as follows:
CHAPTER 49. OPTIONS FOR LOCAL REVENUE LEVELS IN EXCESS OF ENTITLEMENT

SECTION 1.048. Chapter 49, Education Code, as added by this Act, is amended by adding Subchapter A, and a heading is added to that subchapter to read as follows:

SUBCHAPTER A. GENERAL PROVISIONS

SECTION 1.049. Sections 41.001, 41.003, 41.0031, 41.004, 41.005, 41.006, 41.007, 41.008, 41.009, 41.010, 41.011, 41.012, and 41.013, Education Code, are transferred to Subchapter A, Chapter 49, Education Code, as added by this Act, redesignated as Sections 49.001, 49.002, 49.003, 49.004, 49.005, 49.006, 49.007, 49.008, 49.009, 49.010, 49.011, 49.012, and 49.013, Education Code, and amended to read as follows:

Sec. 49.001 [41.001]. DEFINITIONS. In this chapter:

(1) "Local revenue [equalized wealth] level in excess of entitlement" means local revenue levels that exceed the levels [the wealth per student] provided by Section 48.257 [41.002].

(2) "Wealth per student" means the taxable value of property, as determined under Subchapter M, Chapter 403, Government Code, divided by the number of students in weighted average daily attendance.

(3) "Weighted average daily attendance" has the meaning assigned by Section 48.202 [42.302].

Sec. 49.002 [41.003]. OPTIONS TO REDUCE LOCAL REVENUE [ACHIEVE EQUALIZED WEALTH] LEVEL. A district with a local revenue level in excess of entitlement [wealth per student that exceeds the equalized wealth level] may take any combination of the following
actions to reduce the district's revenue level [achieve the equalized wealth level]:

(1) consolidation with another district as provided by Subchapter B;

(2) detachment of territory as provided by Subchapter C;

(3) purchase of average daily attendance credit as provided by Subchapter D;

(4) education of nonresident students as provided by Subchapter E; or

(5) tax base consolidation with another district as provided by Subchapter F.

Sec. 49.003 [41.003]. INCLUSION OF ATTENDANCE CREDIT [CREDITS] AND NONRESIDENTS IN WEIGHTED AVERAGE DAILY ATTENDANCE.

In determining whether a school district has a local revenue [wealth per student less than or equal to the equalized wealth] level in excess of entitlement, the commissioner shall use:

(1) the district's final weighted average daily attendance; and

(2) the amount [number] of attendance credit [credits] a district purchases under Subchapter D or the number of nonresident students a district educates under Subchapter E for a school year.

Sec. 49.004 [41.004]. ANNUAL REVIEW OF LOCAL REVENUES [PROPERTY WEALTH]. (a) Not later than July 15 of each year, using the estimates [estimate] of enrollment and taxable property value under Section 48.269 [42.254], the commissioner shall review the
local revenue level [wealth per student] of school districts in the state and shall notify:

(1) each district with a local revenue level in excess of entitlement [wealth per student exceeding the equalized wealth level];

(2) each district to which the commissioner proposes to annex property detached from a district notified under Subdivision (1), if necessary, under Subchapter G; and

(3) each district to which the commissioner proposes to consolidate a district notified under Subdivision (1), if necessary, under Subchapter H.

(b) If, before the dates provided by this subsection, a district notified under Subsection (a)(1) has not successfully exercised one or more options under Section 49.002 (41.003) that reduce the district's local revenue level [wealth per student] to a level equal to or less than the equalized wealth level established under Section 48.257, the commissioner shall order the detachment of property from that district as provided by Subchapter G. If that detachment will not reduce the district's local revenue level [wealth per student] to a level equal to or less than the equalized wealth level established under Section 48.257, the commissioner may not detach property under Subchapter G but shall order the consolidation of the district with one or more other districts as provided by Subchapter H. An agreement under Section 49.002(1) (41.003(1)) or (2) must be executed not later than September 1 immediately following the notice under Subsection (a). An election for an option under Section 49.002(3) (41.003(3)), (4),
or (5) must be ordered before September 1 immediately following the notice under Subsection (a).

(c) A district notified under Subsection (a) may not adopt a tax rate for the tax year in which the district receives the notice until the commissioner certifies that the district has reduced the district's local revenue level in excess of entitlement to the level established under Section 48.257.

(d) A detachment and annexation or consolidation under this chapter:

(1) is effective for Foundation School Program funding purposes for the school year that begins in the calendar year in which the detachment and annexation or consolidation is agreed to or ordered; and

(2) applies to the ad valorem taxation of property beginning with the tax year in which the agreement or order is effective.

Sec. 49.005 [41.005]. COMPTROLLER AND APPRAISAL DISTRICT COOPERATION. The chief appraiser of each appraisal district and the comptroller shall cooperate with the commissioner and school districts in implementing this chapter.

Sec. 49.006 [41.006]. RULES. (a) The commissioner may adopt rules necessary for the implementation of this chapter. The rules may provide for the commissioner to make necessary adjustments to the provisions of Chapter 48 [42], including providing for the commissioner to make an adjustment in the funding element established by Section 48.202 [42.302], at the earliest
date practicable, to the amount the commissioner believes, taking
into consideration options exercised by school districts under this
chapter and estimates of student enrollments, will match
appropriation levels.

(b) As necessary for the effective and efficient
administration of this chapter, the commissioner may modify
effective dates and time periods for actions described by this
chapter.

Sec. 49.007. COMMISSIONER TO APPROVE SUBSEQUENT
BOUNDARY CHANGES. A school district that is involved in an action
under this chapter that results in boundary changes to the district
or in the consolidation of tax bases is subject to consolidation,
detachment, or annexation under Chapter 13 only if the commissioner
certifies that the change under Chapter 13 will not result in a
district with a local revenue [wealth per student that exceeds the
equalized wealth] level in excess of entitlement.

Sec. 49.008. HOMESTEAD EXEMPTIONS. (a) The
governing board of a school district that results from
consolidation under this chapter, including a consolidated taxing
district under Subchapter F, for the tax year in which the
consolidation occurs may determine whether to adopt a homestead
exemption provided by Section 11.13, Tax Code, and may set the
amount of the exemption, if adopted, at any time before the school
district adopts a tax rate for that tax year. This section applies
only to an exemption that the governing board of a school district
is authorized to adopt or change in amount under Section 11.13, Tax
Code.
This section prevails over any inconsistent provision of Section 11.13, Tax Code, or other law.

Sec. 49.009. TAX ABATEMENTS. (a) A tax abatement agreement executed by a school district that is involved in consolidation or in detachment and annexation of territory under this chapter is not affected and applies to the taxation of the property covered by the agreement as if executed by the district within which the property is included.

(b) The commissioner shall determine the local revenue [wealth per student] of a school district under this chapter as if any tax abatement agreement executed by a school district on or after May 31, 1993, had not been executed.

Sec. 49.010. TAX INCREMENT OBLIGATIONS. The payment of tax increments under Chapter 311, Tax Code, is not affected by the consolidation of territory or tax bases or by annexation under this chapter. In each tax year a school district paying a tax increment from taxes on property over which the district has assumed taxing power is entitled to retain the same percentage of the tax increment from that property that the district in which the property was located before the consolidation or annexation could have retained for the respective tax year.

Sec. 49.011. CONTINGENCY. (a) If any of the options described by Section 49.002 as applied to a school district are held invalid by a final decision of a court of competent jurisdiction, a school district is entitled to exercise any of the remaining valid options in accordance with a schedule approved by the commissioner.
(b) If a final order of a court of competent jurisdiction should hold each of the options provided by Section 49.002 [41.003] invalid, the commissioner shall act under Subchapter G or H to reduce the local revenue [achieve the equalized wealth] level in excess of entitlement only after notice and hearing is afforded to each school district affected by the order. The commissioner shall adopt a plan that least disrupts the affected school districts. If because the exigency to adopt a plan prevents the commissioner from giving a reasonable time for notice and hearing, the commissioner shall timely give notice to and hold a hearing for the affected school districts, but in no event less than 30 days from time of notice to the date of hearing.

(c) If a final order of a court of competent jurisdiction should hold an option provided by Section 49.002 [41.003] invalid and order a refund to a district of any amounts paid by a district choosing that option, the amount shall be refunded but held in reserve and not expended by the district until released by order of the commissioner. The commissioner shall order the release immediately on the commissioner's determination that, through one of the means provided by law, the district has reduced the district's local revenue level in excess of entitlement to the [achieved the equalized wealth] level established under Section 48.257. The amount released shall be deducted from any state aid payable to the district according to a schedule adopted by the commissioner.

Sec. 49.012 [41.012]. DATE OF ELECTIONS. An election under this chapter for voter approval of an agreement entered by the board...
of trustees shall be held on a Tuesday or Saturday not more than 45
days after the date of the agreement. Section 41.001, Election
Code, does not apply to the election.

Sec. 49.013 [41.013]. PROCEDURE. (a) Except as provided
by Subchapter G, a decision of the commissioner under this chapter
is appealable under Section 7.057.

(b) Any order of the commissioner issued under this chapter
shall be given immediate effect and may not be stayed or enjoined
pending any appeal.

(c) Chapter 2001, Government Code, does not apply to a
decision of the commissioner under this chapter.

(d) On the request of the commissioner, the secretary of
state shall publish any rules adopted under this chapter in the
Texas Register and the Texas Administrative Code.

SECTION 1.050. Subchapter B, Chapter 41, Education Code, is
transferred to Chapter 49, Education Code, as added by this Act,
redesignated as Subchapter B, Chapter 49, Education Code, and
amended to read as follows:

SUBCHAPTER B. CONSOLIDATION BY AGREEMENT

Sec. 49.051 [41.031]. AGREEMENT. The governing boards of
any two or more school districts may consolidate the districts by
agreement in accordance with this subchapter to establish a
consolidated district with a local revenue level [wealth per
student] equal to or less than the [equalized wealth] level
established under Section 48.257. The agreement is not effective
unless the commissioner certifies that the consolidated district,
as a result of actions taken under this chapter, will have a local
revenue level \[wealth \text{ per student}\] equal to or less than the 
[equalized wealth] level established under Section 48.257.

Sec. 49.052 [41.032]. GOVERNING LAW. Except to the extent 
modified by the terms of the agreement, the consolidated district 
is governed by the applicable provisions of Subchapter D, Chapter 
13, other than a provision requiring consolidating districts to be 
contiguous. The agreement may not be inconsistent with the 
requirements of this subchapter.

Sec. 49.053 [41.033]. GOVERNANCE PLAN. (a) The agreement 
among the consolidating districts may include a governance plan 
designed to preserve community-based and site-based decision 
making within the consolidated district, including the delegation 
of specific powers of the governing board of the district other than 
the power to levy taxes, including a provision authorized by 
Section 13.158(b).

(b) The governance plan may provide for a transitional board 
of trustees during the first year after consolidation, but 
beginning with the next year the board of trustees must be elected 
from within the boundaries of the consolidated district. If the 
consolidating districts elect trustees from single-member 
districts, the consolidated district must adopt a plan to elect its 
board of trustees from single-member districts.

Sec. 49.054 [41.034]. INCENTIVE AID. (a) For the first and 
second school years after creation of a consolidated district under 
this subchapter, the commissioner shall adjust allotments to the 
consolidated district to the extent necessary to preserve the 
effects of an adjustment under Section 48.052 [42.102, 42.103, or
(b) Except as provided by Subsection (c), a district receiving incentive aid payments under this section is not entitled to incentive aid under Subchapter G, Chapter 13.

(c) Four or more districts that consolidate into one district under this subchapter within a period of one year may elect to receive incentive aid under this section or to receive incentive aid for not more than five years under Subchapter G, Chapter 13.

Incentive aid under this subsection may not provide the consolidated district with more revenue in state and local funds than the district would receive at the [equalized wealth] level established under Section 48.257.

SECTION 1.051. Subchapter C, Chapter 41, Education Code, is transferred to Chapter 49, Education Code, as added by this Act, redesignated as Subchapter C, Chapter 49, Education Code, and amended to read as follows:

SUBCHAPTER C. DETACHMENT AND ANNEXATION BY AGREEMENT

Sec. 49.101 (41.061). AGREEMENT. (a) By agreement of the governing boards of two school districts, territory may be detached from one of the districts and annexed to the other district if, after the action:

(1) the local revenue level [wealth per student] of the district from which territory is detached is equal to or less than the [equalized wealth] level established under Section 48.257; and

(2) ...
the district to which territory is annexed is not greater than the
dollar amount guaranteed level of [greatest level for which] funds
[are] provided under Section 48.202(a-1)(2) [Subchapter F, Chapter 42].

(b) The agreement is not effective unless the commissioner
certifies that, after all actions taken under this chapter, the
local revenue level [wealth per student] of each district involved
will be equal to or less than the applicable level permitted by
Subsection (a).

Sec. 49.102 [41.062]. GOVERNING LAW. Except to the extent
of any conflict with this chapter and except for any requirement
that detached property must be annexed to a school district that is
contiguous to the detached territory, the annexation and detachment
is governed by Chapter 13.

Sec. 49.103 [41.063]. ALLOCATION OF APPRAISED VALUE OF
DIVIDED UNIT. If portions of a parcel or other item of property are
located in different school districts as a result of a detachment
and annexation under this subchapter, the parcel or other item of
property shall be appraised for taxation as a unit, and the
agreement shall allocate the taxable value of the property between
the districts.

Sec. 49.104 [41.064]. ALLOCATION OF INDEBTEDNESS. The
annexation agreement may allocate to the receiving district any
portion of the indebtedness of the district from which the
territory is detached, and the receiving district assumes and is
liable for the allocated indebtedness.

Sec. 49.105 [41.065]. NOTICE. As soon as practicable after
the agreement is executed, the districts involved shall notify each affected property owner and the appraisal district in which the affected property is located.

SECTION 1.052. Chapter 49, Education Code, as added by this Act, is amended by adding Subchapter D, and a heading is added to that subchapter to read as follows:

SUBCHAPTER D. PURCHASE OF ATTENDANCE CREDIT

SECTION 1.053. Sections 41.091, 41.092, 41.093, 41.094, 41.095, 41.096, 41.097, and 41.099, Education Code, are transferred to Subchapter D, Chapter 49, Education Code, as added by this Act, redesignated as Sections 49.151, 49.152, 49.153, 49.154, 49.155, 49.156, 49.157, and 49.158, Education Code, and amended to read as follows:

Sec. 49.151 [41.091]. AGREEMENT. A school district with a local revenue level in excess of entitlement may execute an agreement with the commissioner to purchase attendance credit in an amount sufficient, in combination with any other actions taken under this chapter, to reduce the district's local revenue level to a level that is equal to or less than the [equalized wealth] level established under Section 48.257.

Sec. 49.152 [41.092]. CREDIT. The amount of [(a) For each] credit purchased decreases the dollar amount of a district's local revenue level[, the weighted average daily attendance of the purchasing school district is increased by one student in weighted average daily attendance] for purposes of determining whether the district exceeds the [equalized wealth] level established under
Section 48.257.

(b) A credit is not used in determining a school district's scholastic population, average daily attendance, or weighted average daily attendance for purposes of Chapter 42 or 43.

Sec. 49.153 (41.093). COST. (a) The total [Subject to Subsection (b-1), the] cost of [each] credit is the [an] amount [equal to the greater of:

1. the amount of the district's maintenance and operations tax revenue that exceeds the level established under Section 48.257 [per student in weighted average daily attendance for the school year for which the contract is executed; or

2. the amount of the statewide district average of maintenance and operations tax revenue per student in weighted average daily attendance for the school year preceding the school year for which the contract is executed].

(b) For purposes of this section, a school district's maintenance and operations tax revenue does not include any amounts paid into a tax increment fund under Chapter 311, Tax Code.

[(b-1) If the guaranteed level of state and local funds per weighted student per cent of tax effort under Section 42.302(a-1)(1) for which state funds are appropriated for a school year is an amount at least equal to the amount of revenue per weighted student per cent of tax effort available to the Austin Independent School District, as determined by the commissioner in cooperation with the Legislative Budget Board, the commissioner, in computing the amounts described by Subsections (a)(1) and (2) and determining the cost of an attendance credit, shall exclude]
maintenance and operations tax revenue resulting from the tax rate described by Section 41.002(a)(2).

(c) The cost of attendance credit for a school district is computed using the final tax collections of the district.

Sec. 49.154. PAYMENT. (a) A school district shall pay for credit purchased:

(1) in equal monthly payments as determined by the commissioner beginning February 15 and ending August 15 of the school year for which the agreement is in effect; or

(2) in one payment for the total amount required to be paid by the district not later than August 15 of the school year for which the agreement is in effect.

(a-1) If a school district elects to pay for credit purchased in the manner provided by Subsection (a)(2), the district must notify the commissioner not later than February 15 of the school year for which the agreement is in effect.

(b) Receipts shall be deposited in the state treasury and may be used only for foundation school program purposes.

Sec. 49.155. DURATION. An agreement under this section is valid for one school year and, subject to Section 49.156, may be renewed annually.

Sec. 49.156. VOTER APPROVAL. (a) After first executing an agreement under this section, the board of trustees shall order and conduct an election, in the manner provided by Sections 13.003(d)-(g), to obtain voter approval of the agreement.

(b) The ballot shall be printed to permit voting for or against the proposition: "Authorizing the board of trustees of
School District to purchase attendance credit [credits] from the state with local tax revenues."

(c) The proposition is approved if the proposition receives a favorable vote of a majority of the votes cast. If the proposition is approved, the agreement executed by the board is ratified, and the board has continuing authority to execute agreements under this subchapter on behalf of the district without further voter approval.

Sec. 49.157 [41.097]. CREDIT FOR APPRAISAL COSTS. [(a)]
The total amount required under Section 49.153 [41.093] for a district to purchase attendance credit [credits] under this subchapter for any school year is reduced by an amount equal to the product of the district's total costs under Section 6.06, Tax Code, for the appraisal district or districts in which it participates multiplied by a percentage that is computed by dividing the total amount required under Section 49.153 [41.093] by the total amount of taxes imposed in the district for that year less any amounts paid into a tax increment fund under Chapter 311, Tax Code.

[(b)] A school district is entitled to a reduction under Subsection (a) beginning with the 1996-1997 school year. For that school year, the reduction to which a district is entitled is the sum of the amounts computed under Subsection (a) for the 1995-1996, 1994-1995, 1993-1994, and 1992-1993 school years. If that amount exceeds the total amount required under Section 41.093 for the 1996-1997 school year, the difference is carried forward and the total amount required under Section 41.093 is reduced each subsequent school year until the total amount of the credit has been
Sec. 49.158 [41.099]. LIMITATION. (a) Sections 49.154 and 49.157 [41.002(e), 41.094, 41.097, and 41.098] apply only to a district that:

(1) executes an agreement to purchase [all] attendance credit [credits] necessary to reduce the district's local revenue [wealth per student to the equalized wealth] level to the level established under Section 48.257;

(2) executes an agreement to purchase attendance credit [credits] and an agreement under Subchapter E to contract for the education of nonresident students who transfer to and are educated in the district but who are not charged tuition; or

(3) executes an agreement under Subchapter E to contract for the education of nonresident students:
   (A) to an extent that does not provide more than 10 percent of the reduction in local revenue [wealth per student] required for the district to achieve a local revenue level [wealth per student] that is equal to or less than the [equalized wealth] level established under Section 48.257; and
   (B) under which all revenue paid by the district to other districts, in excess of the reduction in state aid that results from counting the weighted average daily attendance of the students served in the contracting district, is required to be used for funding a consortium of at least three districts in a county with a population of less than 40,000 that is formed to support a technology initiative.

(b) A district that executes an agreement under Subsection
(a)(3) must pay full market value for any good or service the
district obtains through the consortium.

SECTION 1.054. Chapter 49, Education Code, as added by this
Act, is amended by adding Subchapter E, and a heading is added to
that subchapter to read as follows:

SUBCHAPTER E. EDUCATION OF NONRESIDENT STUDENTS

SECTION 1.055. Sections 41.121, 41.122, and 41.123,
Education Code, are transferred to Subchapter E, Chapter 49,
Education Code, as added by this Act, redesignated as Sections
49.201, 49.202, and 49.203, Education Code, and amended to read as
follows:

Sec. 49.201 [41.121]. AGREEMENT. [(a)] The board of
trustees of a district with a local revenue [wealth per student that
exceeds the equalized wealth] level in excess of entitlement may
execute an agreement to educate the students of another district in
a number that, when the weighted average daily attendance of the
students served is added to the weighted average daily attendance
of the contracting district, is sufficient, in combination with any
other actions taken under this chapter, to reduce the district's
local revenue level [wealth per student] to a level that is equal to
or less than the [equalized wealth] level established under Section
48.257. The agreement is not effective unless the commissioner
certifies that the transfer of weighted average daily attendance
will not result in any of the contracting districts' local revenue
level [wealth per student] being greater than the [equalized
wealth] level established under Section 48.257 and that the
agreement requires an expenditure per student in weighted average
daily attendance that is at least equal to the amount per student in weighted average daily attendance required under Section 49.153 [41.093].

Sec. 49.202 [41.122]. VOTER APPROVAL. (a) After first executing an agreement under this subchapter other than an agreement under Section 49.205 [41.125], the board of trustees of the district that will be educating nonresident students shall order and conduct an election, in the manner provided by Sections 13.003(d)-(g), to obtain voter approval of the agreement.

(b) The ballot shall be printed to permit voting for or against the proposition: "Authorizing the board of trustees of _______ School District to educate students of other school districts with local tax revenues."

(c) The proposition is approved if the proposition receives a favorable vote of a majority of the votes cast. If the proposition is approved, the agreement executed by the board is ratified, and the board has continuing authority to execute agreements under this subchapter on behalf of the district without further voter approval.

Sec. 49.203 [41.123]. WADA COUNT. For purposes of Chapter 48 [42], students served under an agreement under this subchapter are counted only in the weighted average daily attendance of the district providing the services, except that students served under an agreement authorized by Section 49.205 [41.125] are counted in a manner determined by the commissioner.

SECTION 1.056. Section 41.124, Education Code, as amended by Chapters 581 (S.B. 810) and 705 (H.B. 3526), Acts of the 85th
Legislature, Regular Session, 2017, is transferred to Subchapter E, Chapter 49, Education Code, as added by this Act, redesignated as Section 49.204, Education Code, and reenacted and amended to read as follows:

Sec. 49.204 [41.124]. TRANSFERS. (a) The board of trustees of a school district with a local revenue [wealth per student that exceeds the equalized wealth] level in excess of entitlement may reduce the district's local revenue level [wealth per student] by serving nonresident students who transfer to the district and are educated by the district but who are not charged tuition. A district that exercises the option under this subsection is not required to execute an agreement with the school district in which a transferring student resides and must certify to the commissioner that the district has not charged or received tuition for the transferring students.

(b) [A school district with a wealth per student that exceeds the equalized wealth level that pays tuition to another school district for the education of students that reside in the district may apply the amount of tuition paid toward the cost of the option chosen by the district to reduce its wealth per student. The amount applied under this subsection may not exceed the amount determined under Section 41.093 as the cost of an attendance credit for the district. The commissioner may require any reports necessary to document the tuition payments.]

[41.124] A school district that receives tuition for a student from a school district with a local revenue [wealth per student that exceeds the equalized wealth] level in excess of entitlement may...
not claim attendance for that student for purposes of Chapters 42 and 46 and 48 and the instructional materials and technology allotment under Section 31.0211.

SECTION 1.057. Section 41.125, Education Code, is transferred to Subchapter E, Chapter 49, Education Code, as added by this Act, redesignated as Section 49.205, Education Code, and amended to read as follows:

Sec. 49.205 [41.125]. CAREER AND TECHNOLOGY EDUCATION PROGRAMS. (a) The board of trustees of a school district with a local revenue [wealth per student that exceeds the equalized wealth] level in excess of entitlement may reduce the district's local revenue level [wealth per student] by executing an agreement to provide students of one or more other districts with career and technology education through a program designated as an area program for career and technology education.

(b) The agreement is not effective unless the commissioner certifies that:

(1) implementation of the agreement will not result in any of the affected districts' local revenue level [wealth per student] being greater than the [equalized wealth] level established under Section 48.257; and

(2) the agreement requires the district with a local revenue [wealth per student that exceeds the equalized wealth] level in excess of entitlement to make expenditures benefiting students from other districts in an amount at least equal to the amount that would be required for the district to purchase [the number of] attendance credit [credits] under Subchapter D
necessary, in combination with any other actions taken under this chapter other than an action under this section, to reduce the district's local revenue level [wealth per student] to a level that is equal to or less than the [equalized wealth] level established under Section 48.257.

SECTION 1.058. Subchapter F, Chapter 41, Education Code, is transferred to Chapter 49, Education Code, as added by this Act, redesignated as Subchapter F, Chapter 49, Education Code, and amended to read as follows:

SUBCHAPTER F. TAX BASE CONSOLIDATION

Sec. 49.251 [41.151]. AGREEMENT. The board of trustees of two or more school districts may execute an agreement to conduct an election on the creation of a consolidated taxing district for the maintenance and operation of the component school districts. The agreement is subject to approval by the commissioner. The agreement is not effective unless the commissioner certifies that the consolidated taxing district will have a local revenue level [wealth per student] equal to or less than the [equalized wealth] level established under Section 48.257 after all actions taken under this chapter.

Sec. 49.252 [41.152]. DATE OF ELECTION. Any agreement under this subchapter must provide for the ordering of an election to be held on the same date in each district.

Sec. 49.253 [41.153]. PROPOSITION. (a) The ballot shall be printed to permit voting for or against the proposition: "Creation of a consolidated taxing district composed of the territory of ________________ school districts, and
H.B. No. 3

authorizing the levy, assessment, and collection of annual ad
valorem taxes for the maintenance of the public free schools within
that taxing district at a rate not to exceed $_________ on the $100
valuation of taxable property."

(b) The rate to be included in the proposition shall be
provided by the agreement among the districts but may not exceed the
maximum rate provided by law for independent school districts.

Sec. 49.254 [41.154]. APPROVAL. The proposition is
approved only if the proposition receives a favorable vote of the
majority of the votes cast within each participating school
district.

Sec. 49.255 [41.155]. CONSOLIDATED TAXING DISTRICT. A
consolidated taxing district is a school district established for
the limited purpose of exercising the taxing power authorized by
Section 3, Article VII, Texas Constitution, and distributing the
revenue to its component school districts.

Sec. 49.256 [41.156]. GOVERNANCE. (a) The consolidated
taxing district is governed by the boards of the component school
districts acting jointly.

(b) Any action taken by the joint board must receive a
favorable vote of a majority of each component district's board of
trustees.

Sec. 49.257 [41.157]. MAINTENANCE TAX. (a) The joint
board shall levy a maintenance tax for the benefit of the component
school districts not later than September 1 of each year or as soon
thereafter as practicable.

(b) Each component district shall bear a share of the costs
of assessing and collecting taxes in proportion to the component
district's share of weighted average daily attendance in the
consolidated taxing district.

(c) A component district may not levy an ad valorem tax for
the maintenance and operation of the schools.

(d) Notwithstanding Section 45.003, the consolidated taxing
district may levy, assess, and collect a maintenance tax for the
benefit of the component districts at a rate that exceeds $1.50 per
$100 valuation of taxable property to the extent necessary to pay
contracted obligations on the lease purchase of permanent
improvements to real property entered into on or before May 12,
1993. The proposition to impose taxes at the necessary rate must be
submitted to the voters in the manner provided by Section 45.003.

Sec. 49.258 [41.158]. REVENUE DISTRIBUTION. The
consolidated taxing district shall distribute maintenance tax
revenue to the component districts on the basis of the number of
students in weighted average daily attendance in the component
districts.

Sec. 49.259 [41.159]. TAXES OF COMPONENT DISTRICTS. (a)
The governing board of a component school district of a
consolidated taxing district that has consolidated for maintenance
and operation purposes only may issue bonds and levy, pledge, and
collect ad valorem taxes within that component district sufficient
to pay the principal of and interest on those bonds as provided by
Chapter 45.

(b) A component district levying an ad valorem tax under
this section or Section 49.260(b)(1) [41.160(b)(1)] is entitled to
the guaranteed yield provided by Subchapter E [2], Chapter 48 [42],
for that portion of its tax rate that, when added to the maintenance
tax levied by the consolidated taxing unit, does not exceed the
limitation provided by Section 48.203 [42.303].

Sec. 49.260 [41.160]. OPTIONAL TOTAL TAX BASE
CONSOLIDATION. (a) An agreement executed under Section 49.251
[41.151] may provide for total tax base consolidation instead of
consolidation for maintenance and operation purposes only.

(b) Under an agreement providing for total tax base
consolidation:

(1) the component districts may not levy maintenance
or bond taxes, except to the extent necessary to retire bonds and
other obligations issued before the effective date of the
consolidation;

(2) the joint board may issue bonds and levy, pledge,
and collect ad valorem taxes sufficient to pay the principal of and
interest on those bonds, and issue refunding bonds, as provided by
Chapter 45 for independent school districts; and

(3) to the end of the ballot proposition required
under Section 49.253(a) [41.153(a)] shall be added ", and further
to create a consolidated tax base for the repayment of all bonded
indebtedness issued by the joint board of the taxing district after
the effective date of the consolidation and to authorize the joint
board to levy, pledge, and collect ad valorem taxes at a rate
sufficient to pay the principal of and interest on those bonds."

(c) Under an agreement providing for total tax base
consolidation:
(1) the component districts may provide for the consolidated taxing district to assume all of the indebtedness of all component districts; and

(2) to the end of the ballot proposition required by Section 49.253(a) [41.153(a)] shall be added ", and further to create a consolidated tax base for the repayment of all bonded indebtedness issued by the joint board of the taxing district or previously issued by the component school districts and to authorize the joint board to levy, pledge, and collect ad valorem taxes at a rate sufficient to pay the principal of and interest on those bonds."

SECTION 1.059. Subchapter G, Chapter 41, Education Code, is transferred to Chapter 49, Education Code, as added by this Act, redesignated as Subchapter G, Chapter 49, Education Code, and amended to read as follows:

SUBCHAPTER G. DETACHMENT AND ANNEXATION BY COMMISSIONER

Sec. 49.301 [41.201]. DEFINITION. In this subchapter, "mineral property" means a real property mineral interest that has been severed from the surface estate by a mineral lease creating a determinable fee or by a conveyance that creates an interest taxable separately from the surface estate. A mineral property includes each royalty interest, working interest, or other undivided interest in the mineral property.

Sec. 49.302 [41.202]. DETERMINATION OF TAXABLE VALUE. (a) For purposes of this subchapter, the taxable value of an individual parcel or other item of property and the total taxable value of property in a school district resulting from the detachment of
property from or annexation of property to that district is
determined by applying the appraisal ratio for the appropriate
category of property determined under Subchapter M, Chapter 403,
Government Code, for the preceding tax year to the taxable value of
the detached or annexed property determined under Title 1, Tax
Code, for the preceding tax year.
(b) For purposes of this subchapter, the taxable value of
all or a portion of a parcel or item of real property includes the
taxable value of personal property having taxable situs at the same
location as the real property.

Sec. 49.303. PROPERTY SUBJECT TO DETACHMENT AND
ANNEXATION. (a) Only the following property may be detached and
annexed under this subchapter:
(1) a mineral property;
(2) real property used in the operation of a public
utility, including a pipeline, pipeline gathering system, or
railroad or other rail system; and
(3) real property used primarily for industrial or
other commercial purposes, other than property used primarily for
agriculture or for residential purposes.
(b) If a final judgment of a court determines that a mineral
interest may not be annexed and detached as provided by this
subchapter without an attendant annexation and detachment of the
surface estate or any other interest in the same land, the
detachment and annexation of a mineral interest under this
subchapter includes the surface estate and each other interest in
the land covered by the mineral interest.
Sec. 49.304 [41.204]. TAXATION OF PERSONAL PROPERTY. 

Personal property having a taxable situs at the same location as real property detached and annexed under this subchapter is taxable by the school district to which the real property is annexed.

Sec. 49.305 [41.205]. DETACHMENT OF PROPERTY. (a) The commissioner shall detach property under this section from each school district from which the commissioner is required under Section 49.004 [41.004] to detach property under this subchapter.

(b) The commissioner shall detach from each school district covered by Subsection (a) one or more whole parcels or items of property in descending order of the taxable value of each parcel or item, beginning with the parcel or item having the greatest taxable value, until the school district's local revenue level [wealth per student] is equal to or less than the [equalized wealth] level established under Section 48.257, except as otherwise provided by Subsection (c).

(c) If the detachment of whole parcels or items of property as provided by Subsection (a) would result in a district's local revenue level [wealth per student] that is less than the [equalized wealth] level established under Section 48.257 by more than the product of $10,000 multiplied by weighted average daily attendance, the commissioner may not detach the last parcel or item of property and shall detach the next one or more parcels or items of property in descending order of taxable value that would result in the school district having a local revenue level [wealth per student] that is equal to or less than the [equalized wealth] level established under Section 48.257 by not more than the product of $10,000
multiplied by weighted average daily attendance.

(d) Notwithstanding Subsections (a), (b), and (c), the commissioner may detach only a portion of a parcel or item of property if:

(1) it is not possible under this subchapter to reduce the district's local revenue level \([\text{wealth per student}]\) to a level that is equal to or less than the \([\text{equalized wealth}]\) level established under Section 48.257 \([\text{this subchapter}]\) unless some or all of the parcel or item of property is detached and the detachment of the whole parcel or item would result in the district from which it is detached having a local revenue level \([\text{wealth per student}]\) that is less than the \([\text{equalized wealth}]\) level established under Section 48.257 by more than the product of $10,000 multiplied by weighted average daily attendance; or

(2) the commissioner determines that a partial detachment of that parcel or item of property is preferable to the detachment of one or more other parcels or items having a lower taxable value in order to minimize the number of parcels or items of property to be detached consistent with the purposes of this chapter.

Sec. 49.306 \([41.206]\). ANNEXATION OF PROPERTY. (a) The commissioner shall annex property detached under Section 49.305 \([41.205]\) to school districts eligible for annexation in accordance with this section. A school district is eligible for annexation of property to it under this subchapter only if, before any detachments or annexations are made in a year, the district's taxable value of property does not exceed the value necessary to
generate maintenance and operations tax revenue in the amount equal
to the district's entitlement under Section 48.202(a-1)(2) \(\text{wealth per student is less than the greatest level for which funds are provided under Subchapter F, Chapter 42}\).

(b) Property may be annexed to a school district without
regard to whether the property is contiguous to other property in
that district.

(c) The commissioner shall annex property detached from
school districts beginning with the property detached from the
school district with the greatest local revenue level in excess of
entitlement \(\text{wealth per student}\) before detachment, and continuing
with the property detached from each other school district in
descending order of the district's local revenue level in excess of
entitlement \(\text{wealth per student}\) before detachment.

(d) The commissioner shall annex the parcels or items of
property detached from a school district to other school districts
that are eligible for annexation of property in descending order of
the taxable value of each parcel or item according to the following
priorities:

(1) first, to the eligible school districts assigned
to the same county as the school district from which the property is
detached whose total adopted tax rate for the preceding tax year
does not exceed by more than $0.15 the total tax rate adopted for
that year by the school district from which the property is
detached;

(2) second, to the eligible school districts served by
the same regional education service center as the district from
which the property is detached whose total adopted tax rate for the
preceding tax year does not exceed by more than $0.10 the total tax
rate adopted for that year by the school district from which the
property is detached; and

(3) third, to other eligible school districts whose
total adopted tax rate for the preceding tax year does not exceed by
more than $0.05 the total tax rate adopted for that year by the
school district from which the property is detached.

(e) If the districts identified by Subsection (d) for a
school district are insufficient to annex all the property detached
from the school district, the commissioner shall increase, for
purposes of this section, all the maximum difference in tax rates
allowed under Subsection (d) in increments of $0.01 until the
districts are identified that are sufficient to annex all the
property detached from the district.

(f) If only one school district is eligible to annex
property detached from a school district within a priority group
established by Subsections (d) and (e), the commissioner shall
annex property to that district until it reaches the taxable value
of property necessary to generate maintenance and operations tax
revenue in the amount equal to the district's entitlement under
Section 48.202(a-1)(2) [a wealth per student equal as nearly as
possible to the greatest level for which funds are provided under
Subchapter F, Chapter 42], by annexing whole parcels or items of
property. Any remaining detached property shall be annexed to
eligible school districts in the next priority group as provided by
this section.
(g) If more than one school district is eligible to annex property detached from a school district within a priority group established by Subsections (d) and (e), the commissioner shall first annex property to the district within the priority group to which could be annexed the most taxable value of property without increasing the district's taxable value of property to an amount that exceeds the amount necessary to generate maintenance and operations tax revenue in the amount equal to the district's entitlement under Section 48.202(a-1)(2) [its wealth per student above the greatest level for which funds are provided under Subchapter F, Chapter 42], until that district reaches a taxable value of property necessary to generate maintenance and operations tax revenue in the amount equal to the district's entitlement under Section 48.202(a-1)(2) [wealth per student equal as nearly as possible to the greatest level for which funds are provided under Subchapter F, Chapter 42], by annexing whole parcels or items of property. Then any additional detached property shall be annexed in the same manner to other eligible school districts in the same priority group in descending order of capacity to receive taxable value of annexed property without increasing the district's taxable value of property to an amount that exceeds the amount necessary to generate maintenance and operations tax revenue in the amount equal to the district's entitlement under Section 48.202(a-1)(2) [wealth per student above the greatest level for which funds are provided under Subchapter F, Chapter 42]. If every school district in a priority group reaches a taxable value of property necessary to generate maintenance and operations tax revenue in the amount equal...

86R36799 MEW/KJE/CJC/TSR-D 153
to the district's entitlement under Section 48.202(a-1)(2) [wealth per student equal to the greatest level for which funds are provided under Subchapter F, Chapter 42], as nearly as possible, the remaining detached property shall be annexed to school districts in the next priority group in the manner provided by this section.

(h) For purposes of this section, a portion of a parcel or item of property detached in that subdivided form from a school district is treated as a whole parcel or item of property.

(i) The commissioner may order the annexation of a portion of a parcel or item of property, including a portion of property treated as a whole parcel or item under Subsection (h), if:

(1) the annexation of the whole parcel or item would result in the district eligible to receive it in the appropriate priority order provided by this section having a local revenue level [wealth per student] greater than the amount by which the product of $10,000 multiplied by weighted average daily attendance exceeds the taxable value of property necessary to generate maintenance and operations tax revenue in the amount equal to the district's entitlement under Section 48.202(a-1)(2) [more than the greatest level for which funds are provided under Subchapter F, Chapter 42]; or

(2) the commissioner determines that annexation of portions of the parcel or item would reduce disparities in district taxable values of property necessary to generate maintenance and operations tax revenue in the amount equal to a district's entitlement under Section 48.202(a-1)(2) [wealth per student] more efficiently than would be possible if the parcel or item were
annexed as a whole.

(j) The commissioner may modify the priorities established by this section as the commissioner considers reasonable to minimize or reduce the number of school districts to which the property detached from a school district is annexed, to minimize or reduce the geographic dispersal of property in a school district, to minimize or reduce disparities in school district taxable values of property necessary to generate maintenance and operations tax revenue in the amount equal to a district's entitlement under Section 48.202(a-1)(2) [wealth per student] that would otherwise result, or to minimize or reduce any administrative burden or expense.

(k) For purposes of this section, a school district is assigned to a county if the school district is assigned to that county in the 1992-1993 Texas School Directory published by the Central Education Agency.

Sec. 49.307 [41.207]. LIMITATIONS ON DETACHMENT AND ANNEXATION. The commissioner may detach and annex property under this subchapter only if:

(1) the property is not exempt from ad valorem taxation under Section 11.20 or 11.21, Tax Code; and

(2) the property does not contain a building or structure owned by the United States, this state, or a political subdivision of this state that is exempt from ad valorem taxation under law.

Sec. 49.308 [41.208]. ORDERS AND NOTICE. (a) The commissioner shall order any detachments and annexations of
property under this subchapter not later than November 8 of each year.

(b) As soon as practicable after issuing the order under Subsection (a), the commissioner shall notify each affected school district and the appraisal district in which the affected property is located of the determination.

Sec. 49.309. TREATMENT OF SUBDIVIDED PROPERTY. (a) If the commissioner orders the detachment or annexation of a portion of a parcel or item of property under this subchapter, the order shall specify the portion of the taxable value of the property to be detached or annexed and may, but need not, describe the specific area of the parcel or item to be detached or annexed.

(b) If an order for the detachment or annexation of a portion of a parcel or item of property does not describe the specific area of the parcel or item to be detached or annexed, the commissioner, as soon as practicable after issuing the order, shall determine the specific area to be detached or annexed and shall certify that determination to the appraisal district for the county in which the property is located.

(c) If portions of a parcel or item of property are located in two or more school districts as the result of a detachment or annexation, the parcel or item shall be appraised for taxation as a unit, and the commissioner shall determine the portion of the taxable value of the property that is located in each of those school districts based on the square footage of the property, or any other reasonable method adopted by the commissioner.

Sec. 49.310. DUTIES OF CHIEF APPRAISER. (a) The
chief appraiser of each appraisal district shall cooperate with the
commissioner in administering this subchapter. The commissioner
may require the chief appraiser to submit any reports or provide any
information available to the chief appraiser in the form and at the
times required by the commissioner.

(b) As soon as practicable after the detachment and
annexation of property, the chief appraiser of the appraisal
district in which the property is located shall send a written
notice of the detachment and annexation to the owner of any property
taxable in a different school district as a result of the detachment
and annexation. The notice must include the name of the school
district by which the property is taxable after the detachment and
annexation.

(c) The commissioner may reimburse an appraisal district
for any costs incurred in administering this subchapter and may
condition the reimbursement or the amount of the reimbursement on
the timely submission of reports or information required by the
commissioner or the satisfactory performance of any other action
required or requested by the commissioner.

Sec. 49.311 [41.211]. STUDENT ATTENDANCE. A student who
is a resident of real property detached from a school district may
choose to attend school in that district or in the district to which
the property is annexed. For purposes of determining average daily
attendance under Section 48.005 [42.005], the student shall be
counted in the district to which the property is annexed. If the
student chooses to attend school in the district from which the
property is detached, the state shall withhold any foundation
school funds from the district to which the property is annexed and
shall allocate to the district in which the student is attending
school those funds and the amount of funds equal to the difference
between the state funds the district is receiving for the student
and the district's cost in educating the student.

Sec. 49.312 [41.212]. BOND TAXES. Property detached from
a school district is released from the obligation for any tax to pay

Sec. 49.313 [41.213]. DETERMINATION BY COMMISSIONER
FINAL. A decision or determination of the commissioner under this
subchapter is final and not appealable.

SECTION 1.060. Subchapter H, Chapter 41, Education Code, is
transferred to Chapter 49, Education Code, as added by this Act,
redesignated as Subchapter H, Chapter 49, Education Code, and
amended to read as follows:

SUBCHAPTER H. CONSOLIDATION BY COMMISSIONER

Sec. 49.351 [41.251]. COMMISSIONER ORDER. If the
commissioner is required under Section 49.004 [41.004] to order the
consolidation of districts, the consolidation is governed by this
subchapter. The commissioner's order shall be effective on a date
determined by the commissioner, but not later than the earliest
practicable date after November 8.

Sec. 49.352 [41.252]. SELECTION CRITERIA. (a) In
selecting the districts to be consolidated with a district that has
taxable values of property in an amount that exceeds the local revenue level established under Section 48.257, the commissioner shall select one or more districts that, when consolidated, will result in a consolidated district with a local revenue level equal to or less than the equalized wealth level established under Section 48.257. In achieving that result, the commissioner shall give priority to school districts in the following order:

1. first, to the contiguous district that has the lowest local revenue level and is located in the same county;
2. second, to the district that has the lowest local revenue level and is located in the same county;
3. third, to a contiguous district with a local revenue level below the equalized wealth level established under Section 48.257 that has requested the commissioner that it be considered in a consolidation plan;
4. fourth, to include as few districts as possible that have the lowest local revenue levels below the equalized wealth level established under Section 48.257 within the consolidation order that have not requested the commissioner to be included;
5. fifth, to the district that has the lowest local revenue level and is located in the same regional education service center area; and
(6) sixth, to a district that has a tax rate similar to that of the district that has a local revenue level [property wealth] greater than the equalized wealth level established under Section 48.257.

(b) The commissioner may not select a district that has been created as a result of consolidation by agreement under Subchapter B to be consolidated under this subchapter with a district that has a local revenue level [property wealth] greater than the equalized wealth level established under Section 48.257.

(c) In applying the selection criteria specified by Subsection (a), if more than two districts are to be consolidated, the commissioner shall select the third and each subsequent district to be consolidated by treating the district that has a local revenue level [property wealth] greater than the equalized wealth level established under Section 48.257 and the district or districts previously selected for consolidation as one district.

Sec. 49.353 [41.253]. GOVERNANCE. (a) Until the initial trustees elected as provided by Subsection (b) have qualified and taken office, a district consolidated under this subchapter is governed by a transitional board of trustees consisting of the board of trustees of the district having the greatest student membership on the last day of the school year preceding the consolidation plus one member of the board of trustees of each other consolidating district selected by that board.

(b) The transitional board of trustees shall divide the consolidated district into nine single-member trustee districts in accordance with the procedures provided by Section 11.052. The
transitional board shall order an election for the initial board of
trustees to be held on the first May uniform election date after the
effective date of a consolidation order.

(c) Members of the board of trustees of a consolidated
district serve staggered terms of office for four years.

(d) Section 13.156 applies to districts consolidated under
this subchapter.

Sec. 49.354. DISSOLUTION OF CONSOLIDATED
DISTRICT. (a) If the legislature abolishes ad valorem taxes for
public school maintenance and operations and adopts another method
of funding public education, the board of trustees of a
consolidated district created under this subchapter may dissolve
the consolidated district, provided that the dissolution is
approved by a majority of those voters residing within the district
participating in an election called for the purpose of approving
the dissolution of the consolidated school district.

(b) If a consolidated district is dissolved, each of the
former districts is restored as a separate district and is
classified as an independent district.

(c) Title to real property of the consolidated district is
allocated to the restored district in which the property is
located. Title to proportionate shares of the fund balances and
personal property of the consolidated district, as determined by
Subsection (e), are allocated to each restored district.

(d) Each of the restored districts assumes and is liable
for:

(1) indebtedness of the consolidated district that
relates to real property allocated to the district; and
(2) a proportionate share, as determined by Subsection (e), of indebtedness of the consolidated district that does not relate to real property.
(e) A restored district's proportionate share of fund balances, personal property, or indebtedness is equal to the proportion that the number of students in average daily attendance in the restored district bears to the number of students in average daily attendance in the consolidated district.
Sec. 49.355 [42.255]. FUND BALANCES. Fund balances of a school district consolidated under this subchapter may be used only for the benefit of the schools within the district that generated the funds.
Sec. 49.356 [42.256]. EMPLOYMENT CONTRACTS. A consolidated district created under this subchapter shall honor an employment contract entered into by a consolidating district.
Sec. 49.357 [42.252]. APPLICATION OF [SMALL AND SPARSE ADJUSTMENT [ADJUSTMENTS] AND SMALL AND TRANSPORTATION ALLOTMENT [ALLOTMENTS]. The budget of the consolidated district must apply the benefit of the adjustment or allotment to the schools of the consolidating district to which Section 48.052 [42.103], 48.101 [42.105], or 48.151 [42.155] would have applied in the event that the consolidated district still qualifies as a small or sparse district.

SECTION 1.063. Section 26.08, Tax Code, is amended by amending Subsections (a), (b), (i), and (n) and adding Subsections (a-1) and (n-1) to read as follows:

(a) If the governing body of a school district adopts a tax rate that exceeds the district's rollback tax rate, the registered voters of the district at an election held for that purpose must determine whether to approve the adopted tax rate.

(a-1) When increased expenditure of money by a school district is necessary to respond to a disaster, including a tornado, hurricane, flood, or other calamity, but not including a drought, that has impacted a school district and the governor has requested federal disaster assistance for the area in which the school district is located, an election is not required under this section to approve the tax rate adopted by the governing body for the year following the year in which the disaster occurs. A tax rate adopted under this subsection applies only in the year for which the rate is adopted. If a district adopts a tax rate under this subsection, the amount by which that rate exceeds the district's rollback tax rate for that tax year may not be considered
when calculating the district's rollback tax rate for the tax year following the year in which the district adopts the rate.

(b) The governing body shall order that the election be held in the school district on the next uniform election date prescribed by Section 41.001, Election Code, that occurs after the date of the election order and that allows sufficient time to comply with the requirements of other law. At the election, the ballots shall be prepared to permit voting for or against the proposition: "Ratifying [Approving] the ad valorem tax rate of ___ (insert adopted tax rate) [$_____ per $100 valuation] in (name of school district) for the current year, a rate that will result in an increase of ____ (insert percentage increase in maintenance and operations tax revenue under the adopted tax rate as compared to maintenance and operations tax revenue in the preceding tax year) percent in maintenance and operations tax revenue for the district for the current year as compared to the preceding year, which is an additional $____ (insert dollar amount of increase in maintenance and operations tax revenue under the adopted tax rate as compared to maintenance and operations tax revenue in the preceding tax year) [is $_____ higher per $100 valuation than the school district rollback tax rate, for the purpose of (description of purpose of increase)]." [The ballot proposition must include the adopted tax rate and the difference between that rate and the rollback tax rate in the appropriate places.]
(i) For purposes of this section, "enrichment tax rate" has the meaning assigned by Section 45.0032, Education Code [the effective maintenance and operations tax rate of a school district is the tax rate that, applied to the current total value for the district, would impose taxes in an amount that, when added to state funds that would be distributed to the district under Chapter 42, Education Code, for the school year beginning in the current tax year using that tax rate, would provide the same amount of state funds distributed under Chapter 42, Education Code, and maintenance and operations taxes of the district per student in weighted average daily attendance for that school year that would have been available to the district in the preceding year if the funding elements for Chapters 41 and 42, Education Code, for the current year had been in effect for the preceding year].

(n) For purposes of this section, the rollback tax rate of a school district [whose maintenance and operations tax rate for the 2005 tax year was $1.50 or less per $100 of taxable value] is:

(1) for the 2019 [2006] tax year, the sum of the following:

(A) the rate [that is equal to 88.67 percent of the maintenance and operations tax rate adopted by the district for the 2005 tax year, the rate of $0.04] per $100 of taxable value that is equal to the product of the state compression percentage, as determined under Section 48.255, Education Code, for the 2019 tax year and $1.00;

(B) the greater of:

(i) the district's maintenance and
operations tax rate for the 2018 tax year, less the sum of:

(a) $1.00; and

(b) any amount by which the district is required to reduce the district's enrichment tax rate under Section 48.202(f), Education Code, in the 2019 tax year; or

(ii) the rate of $0.04 per $100 of taxable value; and

(C) the district's current debt rate; and

(2) for the 2020 and subsequent tax years, the sum of the following:

(A) the sum of the following:

(i) the rate per $100 of taxable value that is equal to the product of the state compression percentage, as determined under Section 48.255, Education Code, for the current year and $1.00; and

(B) the greater of:

(i) the district's enrichment tax rate for the preceding tax year, less any amount by which the district is required to reduce the district's enrichment tax rate under Section 48.202(f), Education Code, in the current tax year; or

(ii) the rate of $0.05 per $100 of taxable value; and

(C) the rate that is equal to the sum of the differences for the 2006 and each subsequent tax year between the adopted tax rate of the district for that year if the rate was approved at an election under this section and the rollback tax rate of the district for that year; and
(iv) the district's current debt rate
  or

(ii) the sum of the following:

(i) the effective maintenance and
  operations tax rate of the district as computed under Subsection
  (i) or (k), as applicable;

(ii) the rate per $100 of taxable value
    that is equal to the product of the state compression percentage, as
    determined under Section 42.2516, Education Code, for the current
    year and $0.06; and

(iii) the district's current debt rate.

(n-1) For the 2020 tax year, a school district shall
substitute "$0.04" for "$0.05" in Subsection (n)(2)(B)(ii) if the
governing body of the district does not adopt by unanimous vote for
that tax year a maintenance and operations tax rate at least equal
to the sum of the rate described by Subsection (n)(2)(A) and the
rate of $0.05 per $100 of taxable value.

SECTION 1.064. Chapter 26, Tax Code, is amended by adding
Section 26.151 to read as follows:

Sec. 26.151. ESCROW ACCOUNT FOR PROPERTY TAXES. (a) In this
section:

(1) "Home loan" has the meaning assigned by Section

(b) To the extent that H.B. 3, 86th Legislature, Regular Session, 2019, has the effect of reducing property taxes in this state, a lender or home loan servicer of a home loan that maintains a property tax escrow account must take into account the effect of that legislation in establishing the borrower's annual property tax payments to be held in that account and immediately adjust the borrower's monthly payments accordingly.

(c) This section expires September 1, 2023.

SECTION 1.065. (a) This section takes effect only if H.B. 2, 86th Legislature, Regular Session, 2019, or another act of that legislature that amends Chapter 26, Tax Code, to change the term "effective tax rate" to "no-new-revenue tax rate" becomes law.

(b) Effective January 1, 2020, Section 26.08(g), Tax Code, is amended to read as follows:

(g) In a school district that received distributions from an equalization tax imposed under former Chapter 18, Education Code, the no-new-revenue tax [effective] rate of that tax as of the date of the county unit system's abolition is added to the district's
rollback tax rate.

The amount of funding shall be determined by multiplying the lesser of the enlarged district's local fund assignment computed under Section 48.256 [42.252] or the enlarged district's total cost of tier one by a fraction, the numerator of which is the number of students residing in the territory annexed to the receiving district preceding the date of the annexation and the denominator of which is the number of students residing in the district as enlarged on the date of the annexation, and multiplying the resulting product by the quotient of the enlarged district's maximum compressed tax rate, as determined under Section 48.2551, for the current school year divided by the receiving district's maximum compressed tax rate, as determined under Section 48.2551, for the year in which the annexation occurred.

(2) Section 45.0032;

(3) Section 48.255; and

(3) "ECPV" is the estimated percentage change in total taxable property value for the applicable tax year as determined based on the estimate submitted to the legislature under Section 48.269. The commissioner shall determine the state compression percentage for each school year based on the percentage by which a district is able to reduce the district's maintenance and operations tax rate for that year, as compared to the district's adopted maintenance and operations tax rate for the 2005 tax year, as a result of state funds appropriated for that year from the property tax relief fund established under Section 403.109, Government Code, or from another funding source available for school district property tax relief.

[(g) The commissioner may adopt rules necessary to implement this section.

[(h) Determination by the commissioner under this section is final and may not be appealed.]

SECTION 1A.007. Effective September 1, 2020, Subchapter F, Chapter 48, Education Code, as added by this Act, is amended by adding Sections 48.2551, 48.2552, 48.2553, and 48.2554 to read as follows:

Sec. 48.2551. MAXIMUM COMPRESSED TAX RATE. (a) In this section:

(1) "DPV" has the meaning assigned by Section 48.256;

(2) "E" is the expiration of the exclusion of appraised property value for the preceding tax year that is recognized as taxable property value for the current tax year,
which is the sum of the following:

(A) property value that is no longer subject to a
limitation on appraised value under Chapter 313, Tax Code; and

(B) property value under Section 311.013(n), Tax
Code, that is no longer excluded from the calculation of "DPV" from
the preceding year because of refinancing or renewal after
September 1, 2019;

(3) "MCR" is the district's maximum compressed rate,
which is the tax rate for the current tax year per $100 of valuation
of taxable property at which the district must levy a maintenance
and operations tax to receive the full amount of the tier one
allotment to which the district is entitled under this chapter;

(4) "PYDPV" is the district's value of "DPV" for the
preceding tax year; and

(5) "PYMCR" is the district's value of "MCR" for the
preceding tax year.

(b) Except as provided by Subsection (c), a district's
maximum compressed rate ("MCR") is the lesser of:

(1) the rate determined by the following applicable
formula:

(A) if "DPV" exceeds "PYDPV" by an amount equal
to or greater than 2.5 percent:

MCR = (1.025((PYDPV+E) X PYMCR))/DPV; or

(B) if Paragraph (A) does not apply:

MCR = PYMCR; or

(2) the product of the state compression percentage,
as determined under Section 48.255, for the current tax year,
multiplied by $1.00.

(c) Notwithstanding Subsection (b), for a district to which Section 48.2552(b) applies, the district's maximum compressed rate is the value calculated for "MCR" under Subsection (b)(1)(B).

(c-1) For purposes of determining a district's maximum compressed rate ("MCR") under Subsection (b) for the 2020-2021 school year, the value of "PYMCR" is $1.00. This subsection expires September 1, 2021.

(d) The agency shall calculate and make available school districts' maximum compressed rates, as determined under this section.

(e) It is the intent of the legislature that the state continue to fund public schools at the same or similar level as the state would have if this section had not taken effect.

Sec. 48.2552. LIMITATION ON MAXIMUM COMPRESSED RATE. (a) Each year, the agency shall evaluate the difference between school districts' maximum compressed rates, as determined under Section 48.2551.

(b) If a school district has a maximum compressed rate that is less than 90 percent of another school district's maximum compressed rate, the district's maximum compressed rate is calculated under Section 48.2551(c) until the agency determines that the difference between the district's and another district's maximum compressed rates is not more than 10 percent.

(c) The amount of revenue available to the state as a result of the differences in the amount of state aid and reduction in local revenue between calculating a district's maximum compressed rate in
accordance with Subsection (b) and calculating the district's maximum compressed rate under Section 48.2551 shall be used to lower the state compression percentage under Section 48.255. The agency shall provide estimates to the legislature of the reduction of the state compression percentage based on this subsection.

Sec. 48.2553. PERMITTED TAX RATE FOR MAINTENANCE OF 2020-2021 SCHOOL YEAR BASIC ALLOTMENT. (a) Notwithstanding any other provision of this title or Chapter 26, Tax Code, if the maximum amount of the basic allotment provided under Section 48.051(a) or (b) for a school year is less than the maximum amount provided for the 2020-2021 school year, subject to Subsection (b), a school district may adopt a maintenance and operations tax rate that exceeds the maximum compressed tax rate permitted under Section 48.2551, provided that:

(1) the rate adopted by the district was previously approved by voters for a tax year subsequent to the 2005 tax year; and

(2) the rate may not exceed the lesser of:

(A) $1.17; or

(B) the district's maximum compressed tax rate and the additional tax rate necessary to generate the amount of revenue equal to the difference in per student funding.

(b) Before adopting a maintenance and operations tax rate under Subsection (a), a school district must receive approval from the agency. To receive approval from the agency under this subsection the district must submit the following information:

(1) a statement detailing the loss of funding to the
district that resulted from the decline in the maximum amount of the
basic allotment provided under Section 48.051(a) or (b);

(2) the proposed additional tax effort and the amount
of funding the proposed additional tax effort will generate;

(3) evidence that the proposed additional tax effort
described by Subdivision (2) had been previously authorized by
voters subsequent to the 2005 tax year; and

(4) any other information required by the
commissioner.

(c) The agency's approval of a district's tax rate under
Subsection (b) expires at the end of each tax year.

(d) Any additional tax effort by a school district
authorized under this section is not:

(1) eligible for funding under Subchapter B, C, or D;

(2) eligible for the guaranteed yield amount of state
funds under Section 48.202; or

(3) subject to the limit on local revenue under
Section 48.257.

(e) The commissioner shall reduce state aid or adjust the
limit on local revenue under Section 48.257 in an amount equal to
the amount of revenue generated by a school district's tax effort
that is not in compliance with this section or Section 48.2551.

(f) This section does not apply to a school district to
which Section 45.003(f) applies.

Sec. 48.2554. STUDY ON DISTRICT PROPERTY TAX COMPRESSION.

(a) The Legislative Budget Board, in conjunction with other
appropriate state agencies, shall study possible methods of
providing property tax relief through the reduction of school
district maintenance and operations taxes. The study must
evaluate:

(1) potential sources of revenue that may be used to
reduce school district maintenance and operations taxes;
(2) methods of limiting increases in maintenance and
operations tax revenue that adjust for enrollment growth,
inflation, and other relevant factors; and
(3) for each method of providing property tax relief
considered:
   (A) any difference in anticipated benefits to
property taxpayers based on the school district in which the
taxpayer resides;
   (B) the cost to the state; and
   (C) the anticipated impact on equity in the
public school finance system.

(b) Not later than September 1, 2020, the Legislative Budget
Board shall submit to the governor, the lieutenant governor, and
the speaker of the house of representatives a report on the results
of the study and any recommendations for legislative or other
action.

(c) This section expires September 1, 2021.

26.08(n), Tax Code, is amended to read as follows:

school district [whose maintenance and operations tax rate for the
2005 tax year was $1.50 or less per $100 of taxable value] is the sum
of the following:

(1) [for the 2006 tax year, the sum of the rate that is equal to 88.67 percent of the maintenance and operations tax rate adopted by the district for the 2005 tax year, the rate of $0.04 per $100 of taxable value, and the district's current debt rate; and

(i) the district's enrichment tax rate for the preceding tax year, less any amount by which the district is required to reduce the district's enrichment tax rate under Section 48.202(f), Education Code, in the current tax year; or

(ii) the rate of $0.04 per $100 of taxable value; and

(iii) the rate that is equal to the sum of the differences for the 2006 and each subsequent tax year between the adopted tax rate of the district for that year if the rate was approved at an election under this section and the rollback tax rate of the district for that year; and

(iv) the district's current debt rate;]
the sum of the following:

(i) the effective maintenance and operations tax rate of the district as computed under Subsection (i) or (k), as applicable;

(ii) the rate per $100 of taxable value that is equal to the product of the state compression percentage, as determined under Section 42.2516, Education Code, for the current year and $0.06; and

(2) may not require a district to use an assessment instrument adopted under Section 39.023 to evaluate teacher performance.

(c) Notwithstanding performance standards established under Subsection (b), a classroom teacher that holds a National Board Certification issued by the National Board for Professional Teaching Standards may be designated as recognized.

(d) The commissioner shall:

A district must agree to assign a mentor to a new classroom teacher for at least two school years.

(b) The commissioner shall adopt rules necessary to administer this section, including rules concerning the duties and qualifications of a teacher who serves as a mentor and the number of classroom teachers that may be assigned to a mentor. (d) In adopting rules under this section [Subsection (c)], the commissioner shall rely on research-based mentoring programs that, through external evaluation, have demonstrated success.

(f) A mentor teacher must meet with each classroom teacher assigned to the mentor not less than 12 hours each semester. Observations of the mentor by the classroom teacher being mentored or of the classroom teacher being mentored by the mentor may count toward the 12 hours of meeting time required for the semester. Except as provided by Subsection (f-1), the mentoring sessions must address the following topics:

(1) orientation to the context, policies, and practices of the school district;

(2) data-driven instructional practices;

A multidimensional assessment tool on the commissioner's list must either include a reading instrument and tests at least three developmental skills, including literacy, or test at least two developmental skills, other than literacy, and be administered in conjunction with a separate reading instrument that is on a list adopted under this subsection. A multidimensional assessment tool administered as provided by this subsection is considered to be a reading instrument for purposes of this section.

A district-level committee established under Subchapter F, Chapter 11, may adopt a list of reading instruments for use in the district in a grade level other than kindergarten in addition to the reading instruments on the commissioner's list. Each reading instrument adopted by the commissioner or a district-level committee must be based on scientific research concerning reading skills development and reading comprehension. A list of reading instruments adopted under this subsection must provide for diagnosing the reading development and comprehension of students participating in a program under Subchapter B, Chapter 29.

(b-1) The commissioner may approve an alternative reading instrument for use in diagnosing the reading development and comprehension of kindergarten students that complies with the requirements under Subsection (b).

(c) Each school district shall administer, at the kindergarten and first and second grade levels, a reading

[reading] instrument; and

(3) using the school readiness certification system
provided to the school district in accordance with Section
29.161(e), report electronically each student's raw score on the
reading instrument to the agency for use in the school readiness
certification system.

(f) The agency shall ensure at least one reading instrument
for each grade level for which a reading instrument is required to
be administered under this section is available to school districts at no cost. [This section may be implemented only if funds are appropriated for administering the reading instruments. Funds, other than local funds, may be used to pay the cost of administering a reading instrument only if the instrument is on the list adopted by the commissioner.]

(1) The commissioner may adopt rules as necessary to implement this section. Section 2001.0045, Government Code, does not apply to rules adopted under this subsection.

SECTION 2.013. Subchapter A, Chapter 28, Education Code, is amended by adding Section 28.0062 to read as follows:

student in prekindergarten through third grade.
(b) The agency shall provide assistance to school districts
and open-enrollment charter schools in complying with the
requirements under this section.

(5) allow the agency to effectively monitor and
periodically conduct site visits of all school districts to ensure

   [42.253(c)] in the manner described by Section 48.266(f)

[42.253(h)], Education Code. The governor or board may transfer an
amount to the total amount appropriated to finance the foundation

SECTION 1.008. Section 45.003, Education Code, is amended by adding Subsections (b-1) and (d-1) and amending Subsections (d) and (f) to read as follows:

(b-1) Same as Senate version.
(d) A proposition submitted to authorize the levy of maintenance taxes must include the question of whether the governing board or commissioners court may levy, assess,
and collect annual ad valorem taxes for the further maintenance of public schools, at a rate not to exceed the rate stated in the proposition. For any year, the maintenance tax rate per $100 of taxable value adopted by the district may not exceed $1.17 [the rate equal to the sum of $0.17 and the product of the state compression percentage, as determined under Section 42.2516, multiplied by $1.50].

(d-1) Except as otherwise provided by this subsection, if the rollback tax rate of a school district under Section 26.08(n), Tax Code, for the 2019 tax year exceeds $1.04 per $100 of taxable value, the district may not adopt a maintenance and operations tax rate for the 2019 tax year that exceeds the district's rollback rate.

A school district that, before January 1, 2019, adopted a Strategic Plan through action taken by the Board of Trustees in a public meeting that proposed a maintenance and operations tax rate for the 2019 tax year that exceeds the rate permitted under this subsection may, subject to voter approval, adopt the rate proposed in the plan.

This subsection expires September 1, 2020.

(d-1) Except as provided by Subsection (d-2) or Section 26.08(a-1), Tax Code, a school district may not adopt a maintenance and operations tax rate for the 2019 tax year that exceeds the tax rate that results after adjusting the district's 2018 tax rate in accordance with Sections 45.003, 48.202, 48.255, and 48.2551. [FA4(5)]

(d-2) A school district that, before January 1, 2019, adopted a strategic plan through action taken by the board of trustees of the school district during a public meeting that proposed a maintenance and operations tax rate for the 2019 tax year that exceeds the rate permitted under Subsection (d-1) may, subject to voter approval, adopt a rate that does not exceed the maximum rate permitted under Subsection (d) minus the sum of:

(1) the amount by which $1.00 exceeds the product of the state compression percentage, as determined under Section 48.255, multiplied by $1.00; and

(2) the amount by which the district is required to reduce the district's enrichment tax rate under Section 48.202(f).

(d-3) Subsections (d-1) and (d-2) and this subsection expire September 1, 2020.
Notwithstanding any other law except Section 48.202(f), a district that levied a maintenance tax for the 2005 tax year at a rate greater than $1.50 per $100 of taxable value in the district as permitted by special law may not levy a maintenance tax at a rate that exceeds the rate per $100 of taxable value that is equal to the sum of:

1. $0.17;

Notwithstanding any other law, a district that levied a maintenance tax for the 2005 tax year at a rate greater than $1.50 per $100 of taxable value in the district as permitted by special law may not levy a maintenance tax at a rate that exceeds the rate per $100 of taxable value that is equal to the sum of:

(f-1) Notwithstanding Section 48.202(f), for the 2019-2020 school year, the reduction of a school district's tax rate required under Section 48.202(f) applies to the district's total enrichment tax rate under Section 45.0032(b) minus six cents. This subsection expires September 1, 2020.

For a district to which Subsection (f) applies, revenue generated from any cents of maintenance tax effort that exceeds $1.17 per $100 of taxable value is not subject to the limit on local revenue under Section 48.257.

SECTION 1.008. Subchapter A, Chapter 45, Education Code, is amended by adding Section 45.0032 to read as follows:

(a-1) This subsection applies to a school district with a tier one maintenance and operations tax rate for the 2018-2019 school year that was less than $1.00 per $100 of taxable value. For purposes of determining a school district’s tier one maintenance and operations tax rate under Subsection (a) for the 2019-2020 school year, the state compression percentage, as determined under Section 48.255, is applied to the number of cents levied by the district for the 2018-2019 school year for maintenance and operations that does not exceed $1.00. This subsection expires September 1, 2020.

(b) A district’s enrichment tax rate consists of:
(1) any cents of additional maintenance and operations tax effort, not to exceed eight cents over the maximum tax rate described by Subsection (a); and
(2) any cents of additional maintenance and operations tax effort that exceeds the sum of the maximum tax rate described by Subsection (a) and the maximum number of cents permitted under Subdivision (1).

(c) For a district to which Section 45.003(f) applies, any cents of maintenance and operations tax effort that exceeds the maximum rate permitted under Section 45.003(d) are not included in the district’s tier one maintenance and operations tax rate under Subsection (a) or the district’s enrichment tax rate under Subsection (b), and the district is not entitled to the guaranteed yield amount of state funds under Section 48.202 for those cents of tax effort.

(c), (d) Same as Senate version.

SECTION 1.027. Same as House version except as follows:

(a) Same as House version.

(b) A school district is entitled to an allotment under Subsection (a) only for a student who:

(1) is receiving instruction that:
(A) meets applicable dyslexia program criteria established by the State Board of Education; and
(B) is provided by a person with specific training in providing that instruction; or

(2) is receiving instruction that:

(d) A school district may use an amount not to exceed 20 percent of the allotment provided for a qualifying student under this section to contract with a private provider to provide supplemental academic services to the student that are recommended under the student's program or plan described by Subsection (b). A student may not be excused from school to receive supplemental academic services provided under this subsection.

SECTION 1.024. Section 42.152, Education Code, is transferred to Subchapter C, Chapter 48, Education Code, as added by this Act, redesignated as Section 48.104, Education Code, and amended to read as follows:

No equivalent provision.

(c) For purposes of the allotment under Subsection (b), the
commissioner shall establish an index for economically

disadvantaged census blocks in five tiers according to
relative severity of economic disadvantage. In determining
the severity of economic disadvantage in a census block, the
commissioner shall consider:
(1) the median household income;
(2) the average educational attainment of the population;
(3) the percentage of single-parent households;
(4) the rate of homeownership; and

SECTION 1.033. Same as House version.
(A) resides two or more miles from the student's campus of regular attendance, measured along the shortest route that may be traveled on public roads, and who is not classified as a student eligible for special education services; or

(B) is a homeless child or youth, as defined by 42 U.S.C. Section 11434a.

(2) "Eligible special education student" means a student who is eligible for special education services under Section 29.003 and who would be unable to attend classes without special transportation services.

(3) "Linear density" means the average number of regular eligible students transported daily, divided by the approved daily route miles traveled by the respective transportation system.

(c) Each district or county operating a regular transportation system is entitled to an allotment based on a rate per mile [the daily cost] per regular eligible student set [of operating and maintaining the regular transportation system and the linear density of that system. In determining the cost, the commissioner shall give consideration to factors affecting the actual cost of providing these transportation services in each district or county. The average actual cost is to be computed by the commissioner and included for consideration] by the legislature in the General Appropriations Act. percent of its regular transportation allotment to be used for the transportation of children living within two miles of the school they attend who would be subject to hazardous traffic conditions or a high risk of violence if they walked to school.

(d-1) For purposes of Subsection (d), each board of trustees shall provide to the commissioner an explanation of the hazardous traffic conditions or areas presenting a high risk of violence applicable to that district and shall identify the specific hazardous or high-risk areas for which the allocation is requested. A hazardous traffic condition exists where no walkway is provided and children must walk along or cross a freeway or expressway, an underpass, an overpass or a bridge, an uncontrolled major traffic artery, an industrial or commercial area, or another comparable condition. An area presents a high risk of violence if law enforcement records indicate a high incidence of violent crimes in the area. Each board of trustees requesting funds for an area presenting a high risk of violence must, in addition to the explanation required by this subsection, provide the commissioner with consolidated law enforcement records that document violent crimes identified by reporting agencies within the relevant jurisdiction.

(d-2) A district or county may use all or part of any funds received under Subsection (d) to support community walking transportation programs, including walking school bus programs, provided that the district or county requires each supported program to submit a financial report to the district or county each semester that covers services provided by the program for the benefit of the district or county. The commissioner shall adopt rules governing the transportation allotment as necessary to permit a district or county to receive funds under Subsection (d) that may be used to
support innovative school safety projects, including community walking transportation programs as provided by this subsection and any other appropriate safety project, including rules defining an approved walking route mile that may be used as necessary in implementing this subsection.

c) The commissioner may grant an amount set by appropriation for private or commercial transportation for eligible students from isolated areas. The need for this type of transportation grant shall be determined on an individual basis and the amount granted shall not exceed the actual cost. The grants may be made only in extreme hardship cases. A grant may not be made if the students live within two miles of an approved school bus route.

(f) The cost of transporting career and technology education students from one campus to another inside a district, from a sending district to another secondary public school for a career and technology program or an area career and technology school or to an approved post-secondary institution under a contract for instruction approved by the agency, or from a district campus to a location at which students are provided work-based learning under the district's career and technology program shall be reimbursed based on the number of actual miles traveled times the district's official extracurricular travel per mile rate as set by the board of trustees and approved by the agency.

(g) A school district or county that provides special transportation services for eligible special education students is entitled to a state allocation paid on a previous year's cost-per-mile basis. The [maximum] rate per mile allowable shall be set by appropriation based on data gathered from the first year of each preceding biennium. Districts may use a portion of their support allocation to pay transportation costs, if
necessary. The commissioner may grant an amount set by
appropriation for private transportation to reimburse parents
or their agents for transporting eligible special education
students. The mileage allowed shall be computed along the
shortest public road from the student's home to school and
back, morning and afternoon. The need for this type
transportation shall be determined on an individual basis and
shall be approved only in extreme hardship cases.
(h) Funds allotted under this section must be used in
providing transportation services.
(i) In the case of a district belonging to a county
transportation system, the district's transportation allotment
for purposes of determining a district's foundation school
program allocations is determined on the basis of the number
of approved daily route miles in the district [multiplied by
the allotment per mile to which the county transportation
system is entitled].
(j) The Texas School for the Deaf is entitled to an allotment
under this section. The commissioner shall determine the
appropriate allotment.
(k) Notwithstanding any other provision of this section, the
commissioner may not reduce the allotment to which a
district or county is entitled under this section because the
district or county provides transportation for an eligible
student to and from a child-care facility, as defined by
Section 42.002, Human Resources Code, or a grandparent's
residence instead of the student's residence, as authorized by
Section 34.007[if the transportation is provided within the
approved routes of the district or county for the school the
student attends].
(l) A school district may, with the funds allotted under this
section, provide a bus pass or card for another transportation
system to each student who is eligible to use the regular transportation system of the district but for whom the regular transportation system of the district is not a feasible method of providing transportation. The commissioner by rule shall provide procedures for a school district to provide bus passes or cards to students under this subsection.

(m) A school district shall be reimbursed on a per-mile basis for the cost of transporting a dual credit student to another campus in the district, a campus in another district, or a postsecondary educational institution for purposes of attending the course, if the course is not available at the student's campus.

Sec. 48.152. NEW INSTRUCTIONAL FACILITY ALLOTMENT.

(b) A school district is entitled to an additional allotment as provided by this section for operational expenses associated with opening a new instructional facility.

(c) A school district entitled to an allotment under this section may use funds from the district's allotment to renovate an existing instructional facility to serve as a dedicated cybersecurity computer laboratory.
(d) For the first school year in which students attend a new instructional facility, a school district is entitled to an allotment of $1,000 for each student in average daily attendance at the facility. For the second school year in which students attend that instructional facility, a school district is entitled to an allotment of $1,000 for each additional student in average daily attendance at the facility.

(e) For purposes of this section, the number of additional students in average daily attendance at a facility is the difference between the number of students in average daily attendance in the current year at that facility and the number of students in average daily attendance at that facility in the preceding year.

(f) The amount appropriated for allotments under this section may not exceed $100 million in a school year. If the total amount of allotments to which districts are entitled under this section for a school year exceeds the amount appropriated under this subsection, the commissioner shall reduce each district's allotment under this section in the manner provided by Section 48.266(f).

(d-1) In addition to the appropriation amount described by Subsection (d), the amount of $1 million may be appropriated each school year to supplement the allotment to which a school district is entitled under this section that may be provided using the appropriation amount described by Subsection (d). The commissioner shall first apply the funds appropriated under this subsection to prevent any reduction under Subsection (d) in the allotment for attendance at an eligible high school instructional facility, subject to the maximum amount of $1,000 for each student in average daily attendance. Section 42.302, Education Code, is transferred to Subchapter E, Chapter 48, Education Code, as added by this Act, redesignated as Section 48.202, Education Code, and amended to read as follows: Sec. 48.202. [42.302]. TIER TWO ALLOTMENT. (a) Each school district is guaranteed a specified amount per weighted student in state and local funds for each cent of tax effort over that required for the district's local fund assignment up to the maximum level specified in this subchapter. The amount of state support, subject only to the maximum amount under Section 48.203 [42.303], is determined by the formula:  

GYA = (GL X WADA X DTR X 100) - LR  

where:  
"GYA" is the guaranteed yield amount of state funds to be allocated to the district;  
"GL" is the dollar amount guaranteed level of state and local funds per weighted student per cent of tax effort, which is an amount described by Subsection (a-1) or a greater amount for any year provided by appropriation;  
"WADA" is the number of students in weighted average daily attendance, which is calculated by dividing the sum of

“DTR” is the district enrichment tax rate of the school district, which is determined by subtracting the amounts specified by Subsection (b) from the total amount of maintenance and operations taxes collected by the school district for the applicable school year and dividing the difference by the quotient of the district's taxable value of property for the preceding tax year as determined under Subchapter M, Chapter 403, Government Code, or, if applicable, under Section 48.258, divided by 100; and

“LR” is the local revenue, which is determined by multiplying “DTR” by the quotient of the district's taxable value of property for the preceding tax year as determined under Subchapter M, Chapter 403, Government Code, or, if applicable, under Section 48.258, divided by 100.

(a-1) For purposes of Subsection (a), the dollar amount guaranteed level of state and local funds per weighted student per cent of tax effort (“GL”) for a school district is:

1. the greater of the amount of district tax revenue per weighted student per cent of tax effort [that would be] available to a school district at the 96th percentile of wealth per weighted student in the Austin Independent School District, as determined by the commissioner in cooperation with the Legislative Budget Board, if the reduction of the limitation on tax increases as provided by Section 11.26(a-1), (a-2), or (a-3), Tax Code, did not apply, or

that results from multiplying \(6,030\), or the greater amount provided under Section 48.051(b), if applicable, by 0.016 [of district tax revenue per weighted student per cent of tax effort used for purposes of this subdivision in the preceding school year], for the first eight [six] cents by which the district's maintenance and operations tax rate exceeds the district's tier one tax rate [equal to the sum of the product of the state compression percentage, as determined under Section 42.2516, multiplied by the maintenance and operations tax rate adopted by the district for the 2005 tax year and any additional tax effort included in calculating the district's compressed tax rate under Section 42.101(a-1)]; and

(2) subject to Subsection (f), the amount that results from multiplying \(6,030\), or the greater amount provided under Section 48.051(b), if applicable, by 0.008 [$31.95], for the district's maintenance and operations tax effort that exceeds the amount of tax effort described by Subdivision (1).

(a-2) The limitation on district enrichment tax rate ("DTR") under Section 48.203 [42.303] does not apply to the district's maintenance and operations tax effort described by Subsection (a-1)(1).

(b) In computing the district enrichment tax rate of a school district, the total amount of maintenance and operations taxes collected by the school district does not include the amount of:

(1) the district's local fund assignment under Section 48.256 [42.252]; or

(2) taxes paid into a tax increment fund under Chapter 311, Tax Code.
(c) For purposes of this section, school district taxes for which credit is granted under Section 31.035, 31.036, or 31.037, Tax Code, are considered taxes collected by the school district as if the taxes were paid when the credit for the taxes was granted.

(d) For purposes of this section, the total amount of maintenance and operations taxes collected for an applicable school year by a school district with alternate tax dates, as authorized by Section 26.135, Tax Code, is the amount of taxes collected on or after January 1 of the year in which the school year begins and not later than December 31 of the same year.

(e) For purposes of this section, school district taxes for which credit is granted under former Subchapter D, Chapter 313, Tax Code, are considered taxes collected by the school district as if the taxes were paid when the credit for the taxes was granted.

(f) For a school year in which the dollar amount guaranteed level of state and local funds per weighted student per cent of tax effort (“GL”) under Subsection (a)(1)(2) exceeds the dollar amount guaranteed level of state and local funds per weighted student per cent of tax effort (“GL”) under Subsection (a)(1)(2) for the preceding school year, a school district shall reduce the district’s tax rate under Section 45.0032(b)(2) for the tax year that corresponds to that school year to a rate that results in the amount of state and local funds per weighted student per cent of tax effort available to the district at the dollar amount guaranteed level for the preceding school year. A school district is not entitled to the amount equal to the increase of revenue described by this subsection for the school year for which the district must
reduce the district's tax rate. Unless Section 26.08(a-1), Tax Code, applies to the district, for a tax year in which a district must reduce the district's tax rate under this subsection, the district may not increase the district's maintenance and operations tax rate to a rate that exceeds the maximum maintenance and operations tax rate permitted under Section 45.003(d) or (f), as applicable, minus the reduction of tax effort required under this subsection. This subsection does not apply if the amount of state funds appropriated for a school year specifically excludes the amount necessary to provide the dollar amount guaranteed level of state and local funds per weighted student per cent of tax effort under Subsection (a-1)(2).

If a school district imposes a maintenance and operations tax at a rate greater than the rate equal to the product of the state compression percentage, as determined under Section 42.2516, multiplied by the maintenance and operations tax rate adopted by the district for the 2005 tax year, the district is entitled to receive an allotment under this section on the basis of that greater tax effort.

No equivalent provision.

(f-1) For the 2019 tax year, Subsection (f) applies to a district's maintenance and operations tax rate after adjusting the district's rate in accordance with Section 45.0032. This subsection expires September 1, 2020.

(2) the commissioner determines that the total amount of state funds appropriated for purposes of the Foundation School Program for the school year exceeds the amount of state funds distributed to school districts in accordance with Section 48.266 [42.253] based on the taxable values of property in school districts computed in accordance with Section 403.302(d), Government Code, without any deduction for residence homestead exemptions granted under Section 11.13(n), Tax Code.

(b) In making a determination under Subsection (a)(2), the commissioner shall:

(1) notwithstanding Section 48.266(b) [42.253(b)], reduce the entitlement under this chapter of a school district whose final taxable value of property is higher than the estimate under Section 48.269 [42.254] and make payments to school districts accordingly; and

(2) give priority to school districts that, due to factors beyond the control of the board of trustees, experience a rapid decline in the tax base used in calculating taxable values in excess of four percent of the tax base used in the preceding year.

(c) In the first year of a state fiscal biennium, before providing funding as provided by Subsection (a)(2), the commissioner shall ensure that sufficient appropriated funds for purposes of the Foundation School Program are available for the second year of the biennium, including funds to be used for purposes of Section 48.258 [42.2521].

(e) The commissioner shall notify school districts as soon as practicable as to the availability of funds under this section. (B) the district's maintenance and operations tax effort described by Section 48.202(a-1)(2)

(b) Except as provided by this subsection, the commissioner shall base the determinations under Subsection (a) on the estimates provided to the legislature under Section 48.269, or, if the General Appropriations Act provides estimates for that purpose, on the estimates provided under that Act, for each school district for each school year. The commissioner shall reduce the entitlement of each district that has a final taxable value of property for the second year of a state fiscal biennium that is higher than the estimate under Section 48.269, or the General Appropriations Act, as applicable. A reduction under this subsection may not reduce the district's entitlement below the amount to which it is entitled at its actual taxable value of property.

(c) Each school district is entitled to an amount equal to the difference for that district between the sum of Subsections (a)(1) and (a)(2) and the sum of Subsections (a)(3), (a)(4), and (a)(5).

(d) The commissioner shall approve warrants to each school district equaling the amount of its entitlement except as provided by this section. Warrants for all money expended according to this chapter shall be approved and transmitted to treasurers or depositories of school districts in the same manner that warrants for state payments are transmitted. The total amount of the warrants issued under this section may not exceed the total amount appropriated for Foundation School Program purposes for that fiscal year.

(e) If a school district demonstrates to the satisfaction of the commissioner that the estimate of the district's tax rate,
student enrollment, or taxable value of property used in determining the amount of state funds to which the district is entitled are so inaccurate as to result in undue financial hardship to the district, the commissioner may adjust funding to that district in that school year to the extent that funds are available for that year.

(f) If the amount appropriated for the Foundation School Program for the second year of a state fiscal biennium is less than the amount to which school districts and open-enrollment charter schools are entitled for that year, the commissioner shall certify the amount of the difference to the Legislative Budget Board not later than January 1 of the second year of the state fiscal biennium. The Legislative Budget Board shall propose to the legislature that the certified amount be transferred to the foundation school fund from the economic stabilization fund and appropriated for the purpose of increases in allocations under this subsection. If the legislature fails during the regular session to enact the proposed transfer and appropriation and there are not funds available under Subsection (h), the commissioner shall adjust the total amounts due to each school district and open-enrollment charter school under this chapter and the total amounts necessary for each school district to comply with the requirements of Chapter 49 by an amount determined by applying to each district and school the same percentage adjustment to the total amount of state and local revenue due to the district or school under this chapter and Chapter 49 so that the total amount of the adjustment to all districts and schools results in an amount equal to the total adjustment necessary. The following fiscal year:
(1) A district's or school's entitlement under this section is increased by an amount equal to the adjustment made under this subsection; and

(2) The amount necessary for a district to comply with the requirements of Chapter 49 is reduced by an amount necessary to ensure a district's full recovery of the adjustment made under this subsection.

Not later than March 1 each year, the commissioner shall determine the actual amount of state funds to which each school district is entitled under the allocation formulas in this chapter for the current school year and shall compare that amount with the amount of the warrants issued to each district for that year. If the amount of the warrants differs from the amount to which a district is entitled because of variations in the district's tax rate, student enrollment, or taxable value of property, the commissioner shall adjust the district's entitlement for the next fiscal year accordingly.

The legislature may appropriate funds necessary for increases under Subsection (g) from funds that the comptroller, at any time during the fiscal year, finds are available.

The commissioner shall compute for each school district the total amount by which the district's allocation of state funds is increased or reduced under Subsection (g) and shall certify that amount to the district.

(b) Notwithstanding Subsection (a), the agency may recover an overallocation of state funds over a period not to exceed the subsequent five school years if the commissioner determines that the overallocation was the result of exceptional circumstances reasonably caused by statutory changes to Chapter 41 or 46 or 49 or this chapter and related reporting requirements.

(But see SECTION 2.008 above.)
Sec. 21.751. DEFINITION. In this subchapter, “classroom teacher” includes an individual who:
(1) is a teacher of record who teaches at least half the average number of students for a teaching assignment at the school campus at which the teacher is employed; and
(2) satisfies the amount of teaching time requirement in the definition of a classroom teacher under Section 5.001 by providing educator leadership, including collaborating with, mentoring, or supporting other teachers.

Sec. 21.752. RECOGNIZED, EXEMPLARY, AND MASTER TEACHER DESIGNATIONS. (a) To recognize the performance of teachers in this state, the commissioner shall:
(1) establish an approval process for school districts and open-enrollment charter schools to designate a teacher as a recognized, exemplary, or master teacher and include the designation on the teacher's teaching certificate;
(2) develop and provide technical assistance for school districts and open-enrollment charter schools in making teacher designations, including:
(A) methods to involve staff in locally developing the process for designating teachers under this subchapter; and
(B) assistance focusing on problems faced by rural school districts; and
(3) subject to Subsection (b), authorize school districts and open-enrollment charter schools to make teacher designations for a five-year period, provided that the district's or school's teacher designation system meets the requirements under Section 21.754.
(b) The commissioner shall verify that the appraisals of a representative sample of classroom teachers meet the requirements for teacher designations under this subchapter.
Verification may include on-site classroom observations or observations by video or audio recording of classroom sessions.

(c) The commissioner may not rely solely on student performance on an assessment instrument administered under Section 39.023 in determining whether a school district's or open-enrollment charter school's teacher designation system complies with this subchapter.

Sec. 21.753. ELIGIBILITY CRITERIA FOR TEACHER DESIGNATION. (a) To be eligible for a teacher designation under this subchapter, a classroom teacher must:

(1) hold an eligible teaching certificate issued under Subchapter B; and

(2) satisfy any additional requirements adopted by the school district or open-enrollment charter school at which the teacher is employed.

(b) A school district or open-enrollment charter school may designate a classroom teacher as recognized if the classroom teacher:

(1) holds a National Board Certification issued by the National Board for Professional Teaching Standards; and

(2) meets the other requirements of Subsection (a).

(c) Except as provided by Subsection (d), the commissioner may approve a school district or open-enrollment charter school to designate a teacher under this subchapter if the district's or school's designation system under Section 21.754 provides sufficient information to distinguish that among teachers in the state in similar teaching assignments, the teacher is:

(1) for a recognized teacher, in the top 33 percent in teaching performance;
(2) for an exemplary teacher, in the top 20 percent in teaching performance; or
(3) for a master teacher, in the top 5 percent of teaching performance.

(c-1) In determining a teacher's percentile under Subsection (c), a special education teacher's teaching performance may be compared only with the teaching performance of other special education teachers.

(d) The commissioner may raise the percentages required under Subsection (c) to ensure consistency of teacher performance standards over multiple school years as statewide performance improves, including for the purpose of teacher designation renewals.

Sec. 21.754. TEACHER DESIGNATION SYSTEMS. (a) A school district's or open-enrollment charter school's teacher designation system must incorporate:

- an educator appraisal system that complies with Section 21.351 or 21.352, including incorporating student performance, which may be measured by student performance over multiple school years;
- student perception surveys for the third grade level and higher;
- educator leadership, including collaborating with, mentoring, or supporting other teachers;
- reliable observation-based appraisal components, including the use of independent observers and processes to ensure inter-rater reliability of observers; and
- reliable underlying student assessments used to evaluate student performance, including test security protocols and defined testing windows.

(a-1) A school district's or open-enrollment charter school's teacher designation system is not required to incorporate the
surveys required under Subsection (a)(2) until the 2022-2023 school year. This subsection expires September 1, 2023.
(b) Student performance on assessment instruments administered under Section 39.023 may not account for more than 35 percent of a district's or school's educator appraisal system under Subsection (a)(1). [FA50]
(c) The commissioner may not authorize a school district or open-enrollment charter school to make teacher designations under this subchapter until the district's or school's teacher designation system has evaluated classroom teachers in compliance with Subsection (a).
(d) The commissioner may develop an auditing process for teacher designation systems to maintain quality and ensure compliance. The commissioner may, as necessary:
(1) revoke the commissioner's approval of a designation system;
(2) require modifications to a designation system to retain the commissioner's approval;
(3) suspend eligibility for funding for a district's or school's noncompliance with an audit; or
(4) recover funds under Section 48.272 from a district or school that has a designation system that is out of compliance or for which the commissioner's approval has been revoked.
(e) The commissioner may adopt necessary reporting processes and timelines for the auditing process under Subsection (d).
Sec. 21.755. VALIDITY AND EXPIRATION OF TEACHER DESIGNATION. (a) A teacher designation under this subchapter:
(1) is valid until the teacher designation expires regardless of whether the teacher:
(A) changes teaching assignment;
(B) transfers school campuses; or
(C) is employed by another school district or open-enrollment charter school; and
(2) expires at the end of the school year during which the fifth anniversary of the date on which the teacher receives the designation occurs.
(b) A teacher has no vested property right in a teacher designation assigned to the teacher under this subchapter.
(c) A teacher designation issued under this subchapter is void on the determination that the designation was issued improperly. Subchapters C through H, Chapter 2001, Government Code, do not apply to the voiding of a teacher designation under this subsection.
(d) The State Board for Educator Certification may revoke or suspend a certificate holder’s teacher designation issued under this subchapter.

Sec. 21.756. MULTIPLE DESIGNATIONS PROHIBITED. A teacher may receive only one teacher designation under this subchapter at any time. If a teacher qualifies for:
(1) both a recognized and exemplary teacher designation, the teacher receives the exemplary designation; and
(2) either a recognized or exemplary designation and a master designation, the teacher receives a master designation.

Sec. 21.757. INFORMATION RELATING TO TEACHER AND STUDENT PERFORMANCE. (a) The agency, or an entity the agency contracts with to implement this subchapter, may access information required to verify an eligibility determination under this subchapter, including information from the school district or open-enrollment charter school at which the teacher is or was employed.

The statement of the purpose of the meeting must

be in bold type. In reduced type, the notice must state: "The tax rate that is ultimately adopted at this meeting or at a separate meeting at a later date may not exceed the proposed rate shown below unless the district publishes a revised notice containing the same information and comparisons set out below and holds another public meeting to discuss the revised notice:";

(2) contain a section entitled "Comparison of Proposed Budget with Last Year's Budget," which must show the difference, expressed as a percent increase or decrease, as applicable, in the amounts budgeted for the preceding fiscal year and the amount budgeted for the fiscal year that begins in the current tax year for each of the following:
(A) maintenance and operations;
(B) debt service; and
(C) total expenditures;
(3) contain a section entitled "Total Appraised Value and Total Taxable Value," which must show the total appraised value and the total taxable value of all property and the total appraised value and the total taxable value of new property taxable by the district in the preceding tax year and the current tax year as calculated under Section 26.04, Tax Code;
(4) contain a statement of the total amount of the outstanding and unpaid bonded indebtedness of the school district;

(i) the school district's "Last Year's Rate";
(ii) the "Rate to Maintain Same Level of Maintenance & Operations Revenue & Pay Debt Service," which:

(a) in the case of "Maintenance & Operations," is the tax rate that, when applied to the current taxable value for the district, as certified by the chief appraiser under Section 26.01, Tax Code, and as adjusted to reflect changes made by the chief appraiser as of the time the notice is prepared, would impose taxes in an amount that, when added to state funds to be distributed to the district under Chapter 48, would provide the same amount of maintenance and operations taxes and state funds distributed under Chapter 48 per student in average daily attendance for the applicable school year that was available to the district in the preceding school year; and

(b) in the case of "Interest & Sinking Fund," is the tax rate that, when applied to the current taxable value for the district, as certified by the chief appraiser under Section 26.01, Tax Code, and as adjusted to reflect changes made by the chief appraiser as of the time the notice is prepared, and when multiplied by the district's anticipated collection rate, would impose taxes in an amount that, when added to state funds to be distributed to the district under Chapter 46 and any excess taxes collected to service the district's debt during the preceding tax year but not used for that purpose during that year, would provide the amount required to service the district's debt; and

(iii) the "Proposed Rate";

(B) contain fourth and fifth columns aligned with the columns required by Paragraph (A) that show, for each row required by Paragraph (A):

(i) the "Local Revenue per Student," which is computed by multiplying the district's total taxable value of property, as
certified by the chief appraiser for the applicable school year under Section 26.01, Tax Code, and as adjusted to reflect changes made by the chief appraiser as of the time the notice is prepared, by the total tax rate, and dividing the product by the number of students in average daily attendance in the district for the applicable school year; and

(ii) the "State Revenue per Student." which is computed by determining the amount of state aid received or to be received by the district under Chapters 42, 43, and 46, and 48 and dividing that amount by the number of students in average daily attendance in the district for the applicable school year; and

**Fiscal Analysis**

The bill makes major revisions to the school finance formulas; adds and repeals several chapters of the Education Code; and revises, abolishes, and creates multiple allotments or programs.

**Foundation School Program (FSP)**

The bill would amend the Education Code to transfer certain sections from Chapter 42 to Chapter 48 and certain sections from Chapter 41 to Chapter 49, and would revise formulas used to determine entitlement under the FSP.

The bill would move to current year values for certain formula funding determinations. The bill would set the minimum basic allotment equal to $6,160. The bill would provide an incentive for additional instructional days for students to attend up to 30 days of school during the summer.

The bill would remove the small and mid-sized adjustment as it currently exists, and provide it instead as a separate allotment within Tier 1, that provides additional entitlement for school districts with an Average Daily Attendance (ADA) of less than 5,000. The allotment would be based on formulas providing additional funding to school districts within the following categories: those with an ADA of less than 1,600, and those with an ADA from 1,600 to 5,000. The bill would increase the adjusted allotment applied to the special education allotment for districts that qualify for the small or mid-sized allotment.

The bill would create the dyslexia allotment with a weight of 0.1. The bill would amend the compensatory education allotment to be based on the census block in which the student resides, and would require the Commissioner of Education to establish an index for economically disadvantaged census blocks with five tiers. The compensatory education allotment would have a weight of 0.225 to 0.275 depending on the tier. If insufficient data is available about a census block, the weight applied would be 0.225 and applied based on participation in the free or reduced-price lunch program.

The bill would increase the weight applied to the mainstream instructional arrangement of the special education allotment from 1.1 to 1.15.

The bill would modify the bilingual education allotment to provide an additional 0.05 weight to students using a dual language immersion/one-way or two-way program model.

The bill would expand eligibility for the career and technology allotment to grades 7 and 8.

The bill would create the early education allotment, which would provide an additional weight of 0.1 to each student in grades kindergarten through three that is educationally disadvantaged or a
student of limited English proficiency in a bilingual education or special language program, and would provide a weight of 0.2 for students in grades kindergarten through three who are both educationally disadvantaged and a student of limited English proficiency in a bilingual or special language program.

The bill would amend the transportation allotment to provide entitlement based on a rate per mile set by the Legislature in the General Appropriations Act.

The bill would increase the maximum amount appropriated to the New Instructional Facilities Allotment to be $100 million per year.

The bill would create the College, Career, or Military Readiness Outcomes Bonus for districts meeting certain criteria.

The bill creates a fast growth allotment for districts meeting certain specified average daily attendance growth benchmarks.

The bill would create the Teacher Incentive Allotment, the Mentor Program Allotment, the Allotment for Certain Special-Purpose Districts, and the Dropout Recovery School and Residential Placement Facility Allotment.

The bill would set the guaranteed yield in the enrichment tier equal to the greater of the tax effort available to a school district at the 96th percentile of wealth per weighted student or 160 percent of the basic allotment for "golden pennies" and 80 percent of the basic allotment for "copper pennies." "Golden pennies" would be limited to 8 cents of tax effort per hundred dollars of property valuation. Copper penny revenue per weighted student would be limited to the revenue received by the district in the preceding year, so the increase in the yield from $31.95 per penny per weighted average daily attendance (WADA) per cent of tax effort to $49.28 (($6,160 x 0.8)/100) would require districts with that level of tax effort to reduce the tax rate at the copper penny level. Districts would continue to be subject to recapture at the copper penny level.

The bill would modify the state maximum compressed tax rate to be the product of the state's compression percentage, which is set at 93 percent or lower by appropriation, multiplied by $1.00. Additionally, beginning in fiscal year 2021, the bill would create a mechanism by which districts' maximum compressed tax rates are compressed for property value growth exceeding 2.5 percent.

The bill would modify local revenue subject to recapture to be local revenue in excess of entitlement, and would be calculated by subtracting a district's tier one entitlement and credit for appraisal costs from its available school fund distribution and local fund assignment. The bill would reduce the benefit received by districts subject to reduced recapture based on information from the district in the 1992-93 school year by 20 percent per year.

The bill would create the formula transition grant for districts that would receive, under the provisions of the bill, less than 103 percent of the district's total maintenance and operations tax revenue per student in average daily attendance than in the 2019-20 school year in even numbered years, or the greater of the 2019-20 or 2020-21 school years in odd numbered years. The bill would limit this grant to be the lesser of the difference of 103 percent of current entitlement to the district's revenue under current law for the applicable school year, or 128 percent of the statewide average revenue per student in average daily attendance.

The bill would entitle districts to reimbursement for fees for certain college preparation assessments and for certain certification examinations. The bill would require each
prekindergarten class for children who are at least four years of age to be operated on a full-day basis and comply with the program standards required for high quality prekindergarten programs, although, for purposes of Foundation School Program funding, average daily attendance would be limited to one-half.

The bill would provide additional state aid to certain districts that are the only district in their county with fewer than 300 students in average daily attendance.

The bill would repeal the High School Allotment, the Chapter 41 Early Agreement Credit, the Cost of Education Index, the Gifted and Talented Allotment, Additional State Aid for Staff Salary Increases, and Maintenance and Operations Additional State Aid for Homestead Limitation on Tax Increases.

**Texas Education Agency non-FSP Elements**
The bill would create two new programs at TEA outside of the FSP.

The blended learning grant program would require the Commissioner to make grants intended to facilitate instructional settings combining online and classroom instruction and specifies the required elements of such a program.

The summer career and technology grant program would require the Commissioner to establish and make grants to provide funding to school districts for career and technology education courses offered during the summer. The commissioner would be permitted to solicit and accept gifts, donations, or other contributions for the grant program.

**Salary and Teacher Retirement System Benefits**
The bill would require that, during any school year for which the basic allotment increases, districts must use at least 30.0 percent of the increased per ADA funding for compensation increases to full-time employees of the district who are not administrators. Of this amount, 75.0 percent would be required to be used to grant increases to classroom teachers and to full-time librarians, counselors, and nurses; and 25.0 percent would be used for salary increases for full-time employees as determined by the district.

The bill would establish the teacher incentive allotment, providing a district funding entitlement for several new teacher designations. Funding levels would be increased based on the level of economic disadvantage of the campus at which the teacher is placed, on a scale from 0.5 to 4.0, with an additional weight if the designated teacher teaches at a rural school.

The bill would amend the Government Code to require open-enrollment charter schools and districts of innovation to pay the TRS state retirement contribution on payroll amounts that would exceed the MSS if the staff were employed by school districts.

**District Efficiency Audits**
The bill would require districts to conduct an efficiency audit before seeking voter approval to adopt a tax rate for the maintenance and operations of the district at an election held for that purpose. Districts would be required to pay for the audits.

**Tax Reduction and Excellence in Education Fund (TREE)**
The bill would establish a fund in the treasury but outside general revenue consisting of money appropriated by the legislature, gifts to the state, and money directed by law for deposit. The fund may be appropriated only to pay for Tier 1 allotment costs, and to reduce school district M&O tax rates.
The bill establishes two revenue sources to be deposited into the fund, and an additional potential revenue increase to the Available School Fund that would be considered part of the fund. The first source consists of certain revenues currently allocated pursuant to Section 49-g, Article III of the Texas Constitution, which would instead be deposited to the TREE. The second source would deposit net sales tax revenue collected by marketplace providers in the prior fiscal year. The additional revenue source would be amounts distributed to the Available School Fund pursuant to Section 5(g), Article VII of the Texas Constitutions, in excess of $300 million each year; these funds would be limited to paying for the cost of tier one allotments.

**Methodology**

**Foundation School Program Costs**

Based on the Legislative Budget Board's Foundation School Program model, the bill would result in an estimated state cost for the Foundation School Program of $5.37 billion in fiscal year 2020 and $6.07 billion in fiscal year 2021. The bill would reduce recapture paid by school districts by approximately $1.6 billion in fiscal year 2020 and $1.9 billion in fiscal year 2021.

Included in these costs would be the increased basic allotment; the modification of the small and mid-sized district adjustment as a stand-alone allotment; the dyslexia allotment; the modifications to the special education, compensatory education allotment, bilingual, and the career and technology allotments; the early education allotment; the transportation allotment at an assumed rate of $1.00 per mile; the increase in the new instructional facilities allotment; the teacher incentive allotment; the modifications to Tier 2; seven cents of tax compression in Tier 1, and additional "copper penny" tax compression for qualifying districts; the modification to the calculation of recapture revenue; the formula transition grant; the increase in the special education weight for the mainstream instructional arrangement; and the elimination of the cost of education index, the high school allotment, the gifted and talented allotment, additional state aid for staff salary increases, and maintenance and operations additional state aid for homestead exemption and limitation on tax increases.

According to TEA, the estimated cost of the college preparation assessment allotment is $19 million per year.

TEA reports that the estimated cost of the certification examination reimbursement allotment is $19 million in fiscal year 2020, $22.8 million in fiscal year 2021, growing to $39.4 million in fiscal year 2024.

According to TEA, the estimated cost of the allotment for certain special-purpose districts is $10.6 million per fiscal year.

According to TEA, the estimated cost of the Mentor Program Allotment is $1.6 million in fiscal year 2020, $1.7 million in fiscal year 2021, increasing to $1.7 million in fiscal year 2024.

According to TEA, the estimated cost of providing additional funding to campuses designated as a P-TECH school or is a member of the New Tech Network is $1.6 million per year.

Administrative costs relating to FSP changes are discussed in the Administrative Costs section below.

**TEA Non-FSP Program Costs**

Actual costs associated with the two grant programs would be dependent on and limited by
appropriations. However, this analysis includes cost estimates based on the level of participation and grant levels anticipated by the agency.

The agency assumes that grants for the blended learning professional development program would average $250,000 for each participating district. Assuming that 24 districts are funded each year, the program would cost $6.0 million per fiscal year.

TEA further assumes grants for the summer career and technology education program would total $5.0 million per fiscal year.

Administrative costs relating to the grant programs are discussed in the Administrative Costs section below.

**Costs Relating to Salary and Teacher Retirement System Changes**

This analysis estimates a net General Revenue cost savings related to TRS state retirement contributions of $4.3 million in fiscal year 2020, $4.9 million in fiscal year 2021, increasing to $6.9 million in fiscal year 2024 due to increases to the Minimum Salary Schedule (MSS) resulting from increases in the basic allotment and changes to the TRS Statutory Minimum Contribution. The savings is primarily attributable to subjecting charter schools to certain MSS requirements.

Additionally, salary increases provided through the MSS increase, the teacher incentive allotment, and the classroom teacher and librarian allotment would result in increased state General Revenue contributions to TRS-Care totaling approximately $13.5 million in each fiscal year from 2020-24.

**TEA Administrative Costs**

TEA estimates that the agency will need 57.0 additional FTEs in fiscal year 2020 to implement the provisions of the bill. This would include 5.0 FTEs to coordinate various agency-wide aspects of implementation, 11.0 FTEs to implement the provisions of the bill related to modifying the various funding allotments under the Foundation School Program, 5.5 FTEs to implement the teacher incentive allotment, 16.0 information and technology FTEs to implement the development and programming requirements, and 19.5 FTEs to implement the other programs established under the bill. This analysis assumes that total FTE costs—including salary, benefits, and other operational costs—are estimated to be $6.4 million in fiscal year 2020, $6.7 million in fiscal year 2021, and $6.0 million in subsequent years in General Revenue Funds.

Other non-FSP administrative costs include the following:

- Contract costs related to the Teacher Incentive Allotment: $4.2 million in fiscal year 2020 and $3.8 million in fiscal year 2021;
- Contract costs related to various studies required by the bill: $500,000 in fiscal year 2020 and in fiscal year 2021;
- Review of CTE and technology applications TEKS: $109,150 in fiscal year 2020;
- Contract costs related to the Kindergarten entry assessment: $4.9 million in fiscal year 2020 and $2.0 million in fiscal year 2021;
- Costs to develop and maintain a database to track completion of the Texas Application for Student Financial Aid: $1.5 million in fiscal year 2020 and $200,000 in fiscal year 2021;
- Costs to develop a "do-not-hire" registry: $124,589 in fiscal year 2020 and $373,767 in fiscal year 2021;
- Costs related to reading academies: $1.2 million in fiscal year 2020; and
- Reading outcomes validity studies: $500,000 in fiscal year 2020.
The bill would also require $500,000 per fiscal year for rent to provide office space for the additional FTEs required by the legislation.

**Technology**

The bill would modify existing Texas Education Agency (TEA) IT systems contained in the Texas Commission on Public School Finance recommendations. Costs are estimated based on projected development hours and weighted wage rate per hour, including benefits and operating costs. TEA reports that 16.0 FTEs would be necessary to implement necessary IT changes and maintenance in fiscal year 2020. Costs associated with these FTEs are included with other FTE costs above.

TEA will need to implement required changes to existing applications and provide ongoing support and maintenance per the recommendations outlined in the Texas Commission on Public School Finance.

TEA is responsible for collecting and reporting education data for publicly-funded schools in the State of Texas and disbursing funding for Texas school districts. In order to implement the proposed school finance recommendations, ITS will need to make changes/modifications in the existing applications below and develop a new application.

- Foundation School Program (FSP)
- Educator Certification Online System (ECOS)
- Texas Records Exchange (TREx)
- eGrants
- Texas Student Data System (TSDS)
- Web Applications

Costs associated with Data Center Services through the Department of Information Resources are estimated to be $711,000 in fiscal year 2020 and $213,300 in subsequent fiscal years.

**Local Government Impact**

The bill would reduce recapture paid by local school districts by an estimated $3.5 billion in the upcoming biennium. The bill would have the effect of compressing local maintenance and operations property tax rates, and would reduce local property tax collections by a total of $2.7 billion in the 2020-21 biennium. This decrease in local maintenance and operations property tax collections would be partially offset by an increase in state aid related to the compression of local maintenance and operations tax rates. In subsequent years, ongoing tax compression would continue to decrease tax revenue collections.

Under the provisions of the bill, additional state aid would be provided to school districts and charter schools relative to current law for fiscal years 2020 and 2021. Districts whose entitlement would be less under the provisions of the bill as compared to current law would be eligible for a formula transition grant through fiscal year 2024. To the extent that districts incurred additional costs detailed below, increases in entitlement could be used to offset any potential costs.

Districts would be required to provide full-day high quality prekindergarten for eligible four-year olds, unless a waiver was granted by the Commissioner of Education, while funding would be limited to one-half of average daily attendance.

Districts would incur costs associated with conducting required efficiency audits prior to tax rate
elections.

The bill would result in local school district and charter school costs for both retirement and health benefits provided by TRS. The additional state aid provided to districts and charters is assumed to cover these costs, through the teacher incentive allotment or other increases in Foundation School Program entitlement.

IN RE: HB3 by Huberty (Relating to public school finance and public education; authorizing the imposition of a fee.), Conference Committee Report

The bill would modify public school financing and would provide a compensation increase to certain school employees. Except as otherwise stated, the bill would be effective September 1, 2019.

According to the Teacher Retirement System (TRS), the actuarial impact of the bill on the pension fund could not be estimated, as actual salary increases resulting from the bill are unknown. Additionally, the bill would shift costs between the State and certain employers as it relates to the statutory minimum. Salary increases under the bill would provide for increased revenue to the pension fund, but a significant change to the salary levels would impact the initial actuarial accrued liability.

TRS further notes that the bill may also provide a slight increase in contributions paid to the pension fund under the current law that requires employers that do not participate in social security to contribute 1.5 percent. Since the bill would reduce the number of employees subject to the minimum salary schedule, the 1.5 percent rate of contribution would apply to an employee's full salary.

TRS stated that any administrative costs to TRS could be absorbed within existing resources.

EQUALIZED EDUCATION FUNDING IMPACT STATEMENT

86TH LEGISLATIVE REGULAR SESSION

May 24, 2019

TO: Honorable Dan Patrick, Lieutenant Governor, Senate
Honorable Dennis Bonnen, Speaker of the House, House of Representatives

FROM: John McGeady, Assistant Director  Sarah Keyton, Assistant Director
Legislative Budget Board

IN RE: HB3 by Huberty (Relating to public school finance and public education; authorizing the imposition of a fee.), Conference Committee Report

The bill would make formula and structural changes to the Foundation School Program.

The bill contains a number of elements that would be anticipated to improve equity among Texas school districts relative to current law.

The bill would repeal several funding streams that either flow outside the Foundation School Program's (FSP) equalized system or are not fully realized by all school districts. Among these provisions are: aid provided for the purpose of paying nonprofessional staff wage supplements which currently flows entirely outside the equalized wealth system; the high school allotment which is codified as a Tier 1 FSP allotment but, per statute, flows outside the operation of the Tier 1 equalized system; and the additional state aid for homestead exemption. Flowing similar or increased levels of funding through the basic allotment in place of the existing structures would move the revenue inside the equalized system of the FSP.

The bill would gradually diminish the benefits experienced by certain districts that resulted in a higher equalized wealth level in fiscal year 2019, based on the district's 1992-93 revenue per student plus the indexed change between the current equalized wealth level and the level established in 1993.

The new method of calculating recapture, and the shift to the use of current year district property values in determining state aid within the funding formulas, would improve equity relative to current law.

The bill would create a mechanism starting in fiscal year 2021 by which the districts' maximum compressed rates would be further reduced based on how much property value growth exceeds certain thresholds. This mechanism has the potential to lessen the extent to which the school finance system enables substantially equal access to similar revenue at similar tax effort. However, the bill also creates a mechanism by which the Texas Education Agency would limit the divergence of district compressed tax rates so that the differences in rates between districts does not exceed 10 percent.
