

# The November Ballot: Contested State Races

This post-primary look at the contested ballots includes Republicans, Democrats, and Libertarians (who will choose their candidates at their state convention). Races without two major-party candidates aren't listed here (look in our Files section at TexasWeekly.com). Incumbents names are in **bold**. Here's how the Texas Weekly Index (TWI) works: It's the average difference between statewide Republicans and statewide Democrats in contested elections in 2004 and 2006, by district. If it's red (or a negative number) Republicans did better in that district; if it's blue (or a positive number), Democrats did better. It's not meant to predict results, but to give you a quick look at recent political history in each district.
